RED CROSS

Newton Chapter Holds Annual Meeting and Elects Officers for Ensuing Year

The Annual Meeting of the Newton Chapter of the Red Cross was held at the Red Cross House on Wednesday, October 26th.

Mr. Angier, the chairman, gave an outline of the year's work and told of the work to come especially of the Fifth Roll Call. Reports were received from the Home Service Department, Mr. J. B. Jamieson, Chairman; the Education Department, Mrs. C. J. A. Wilson, chairman; Production and Clothing Departments, Mrs. G. M. Angier, chairman; Junior Auxiliary, Mrs. Ellyer Peabody, Chairman; Emergency Health Committee, Mr. C. E. Kelsey, Chairman; Volunteer Service Committee, Mrs. S. Hardy Mitchell, Chairman; Women's Motor Corps, Mrs. G. H. Talbot, Captain. Brief reports were also given by each of the Branch Chairmen on their representatives. The reports made a good showing and spoke well for the spirit of service alive in the Chapter.

The following Directors were elected for the ensuing year: Mr. George M. Angier, Mrs. George M. Angier, Mrs. Wallace C. Boyden, Miss Mabel C. Bragg, Mrs. Albert P. Carter, Mrs. Morton E. Cobb, Rev. Charles H. Cutler, Mrs. Bernard Early, Mr. John W. Estabrook, Mrs. Arthur C. Farley, Mr. Oliver M. Fisher, Mr. Frank P. Hopewell, Miss Helen Hull, Mr. J. B. Jamieson, Mr. Charles E. Kelsey, Mr. H. H.

Kendall, Miss Rose Loring, Mrs. J. N. Lovell, Mrs. L. H. Marshall, Mrs. Marcus Morton, Mr. H. J. Nichols, Mr. George R. Pulsifer, Mr. Frank W. Remick, Mr. Charles E. Riley, Mr. Leon B. Rogers, Mrs. F. W. Ross, Miss Ethel W. Sabin, Mrs. F. S. Sawyer, Mr. W. J. Spaulding, Mrs. Vernon B. Swett, Mrs. George Talbot, Mrs. Bessie Young, Mrs. Moses Williams, Jr., and Mrs. C. J. A. Wilson.

A Directors' meeting of the chapter was held immediately following the annual meeting at which the following officers were elected: Chairman, Mr. George M. Angier; vice-chairman, Mrs. Albert P. Carter; secretary, Mrs. Marcus Morton; treasurer, Mr. John W. Estabrook; assistant treasurer, Mr. George R. Pulsifer. The members of the executive committee were: Mr. George M. Angier, Chairman, Mrs. Albert P. Carter, Mr. John W. Estabrook, Mr. J. B. Jamieson, Mrs. Marcus Morton, Mr. George R. Pulsifer, Mrs. Vernon B. Swett.

The Branch Chairmen elected followed: Newton Branch—Miss Helen Hull; Newtonville—Mrs. W. C. Boyden; West Newton—Mrs. F. S. Sawyer; Newton Centre—Mrs. Bessie Young; Newton Highlands—Mrs. F. W. Ross; Newton Upper Falls—Miss Ethel Sabin; Waban—Rev. C. H. Cutler; Needham Branch—Mrs. Moses Williams, Jr.

COMMONWEALTH COUNTRY CLUB

The members of the Club will hold a dinner dance next Thursday from 7.30 until 11.30.

There will be an auction bridge in aid of the Fatherless Children of France on Monday, November 14th. The hostesses are Mrs. M. Angeline Crane, Mrs. Payson T. Lowell, Mrs. Charles E. Murnan, Mrs. Willard D. Ditcher, Mrs. William R. Reed, and Mrs. Louis Irving Schreiner.

N. H. S.

The first inter-class games will take place on Claffin Field, Nov. 3rd, with the Freshmen and Sophomore eleven of the Classical High as contenders. The Sophomores and Juniors of the Vocational High will also play.

On Monday, October 31st, the Debating Club held its meeting in the Assembly Hall. As no program has as yet been arranged, the students told jokes and riddles.

NEW PASTOR

Rev. Dr. Samuel H. Woodrow, who begins his work this week at the Congregational Church, Newton Highlands, has had a career of marked power and achievement.

He was born in Melbourne, Canada, but moved to Lewiston, Me., early in his youth. He entered Bates College in 1884 and graduated in 1888. During his college course he was well known as a speaker and debater, and was editor of the "Bates Student." In the same year he married Miss Minnie Clough by whom he has two children, Frank C. Woodrow, and Christine H. Woodrow.

REV. DR. SAMUEL H. WOODROW, D. D. New Pastor Congregational Church Newton Highlands

His first pastorate was at Mechanics Falls, Me. He resigned in 1889 to attend the Yale Divinity School from which he graduated with honor in 1892. Then followed pastorates in the Congregational church, Westerly, R. I., and in Providence, R. I. In 1898 he went to Springfield, Mass., remaining there almost ten years, and resigning to go to Washington, D. C. During these years Dr. Woodrow had taken deep interest in the problem of immigration and of Home Missions, serving upon the State Board of Missions, both in Rhode Island and in Massachusetts, and on the Board of Directors of the National Society.

For the past eight and one half years he has been pastor of the Pilgrim Congregational Church of St. Louis, one of the strongest churches of the Middle West. Here he was made President of the Ministerial Alliance and of the Church Federation, and vice-chairman of the Congrega-

ENDORSES ROGERS CANDIDACY

That Alderman Leon B. Rogers is well qualified for the office of Mayor of Newton is clearly shown in the following letter from former Mayor George Hutchinson. Mr. Hutchinson says:—

Oct. 31, 1921.
Mr. H. M. Cole, Chairman,
West Newton Citizens Committee.
Dear Mr. Cole:—

For the reason that I am deeply interested in the candidacy of Mr. Leon B. Rogers in the coming election for Mayor of Newton, I am writing in order that my position may be understood.

There are some of our citizens who may not have been as well acquainted with Mr. Rogers' career. I knew his parents and they were of sterling character and of very high standing in the community, and he is worthy of them.

The duties of the position of Mayor to which we hope Mr. Rogers will be elected are very definite and to my mind of a decidedly business character.

The Mayor of our city, I think, should be first of all, devoted to his duties as Executive. He should have an every day knowledge of what is accomplished in each of the departments and direct contact with the various department heads is not only of the utmost importance but I think is most acceptable to them as a help in the performance of their duties.

The expenditure of the necessarily large sums of money should be always with the complete knowledge and supervision of the Mayor.

He should also be open to suggestions, criticisms, favorable and unfavorable, from all of our citizens and also be a willing and constant adviser to all employees upon request by them either in committees or as individuals.

It is extremely fortunate that we are to be privileged to vote for Mr. Rogers in the coming election, for he is, I am sure, well qualified by experience, temperament and by his well-known industrious habits to serve as our chief Executive.

Yours very truly,
(Signed) GEORGE HUTCHINSON.

national World Movement. He is a trustee of Bates College, and of the Hartford School of Religious Pedagogy. In 1903 he received the degree of Doctor of Divinity from his Alma Mater. Dr. Woodrow's ministrations have been notable for the crowds which have listened to his preaching and the large numbers which have come into the fold of the church.

It is expected that Dr. Woodrow will have the privilege of welcoming many new members to the Newton Highlands church at the November communion service.

DEATH OF CAPT. MURTAGH

Friends of Capt. Edward L. Murtagh were greatly shocked to hear of his death on Sunday after a brief illness of five days with pneumonia. Capt. Murtagh had just resigned a position at the First National Bank of Boston to take up the duties of chief clerk in the office of the United States marshal in Boston.

He was born in Brighton, 34 years ago and received his education in the Boston schools, graduating from the Brighton High School.

He served overseas in the World War as Sergeant Major of the 101st Military Police and Train Headquarters, and on his return when the National Guard was reorganized he was made adjutant and attached to headquarters of the 3rd regiment.

He was a member of Brighton Council, Knights of Columbus, and Middlesex Court of Foresters and of Newton Post, American Legion, of which he was a member of the executive committee.

He resided with his uncle, Mr. Thomas L. Driscoll, on Austin street, Newtonville.

There was a great out-pouring of his numerous friends at the funeral services held at the Church of Our Lady on Wednesday morning. The 3rd regiment attended in a body and there was a large delegation present from Newton Post A. L. It was a military funeral, in charge of Col. Murphy and Fr. Wm. J. Farrell. There was a solemn requiem mass with Rev. Fr. Roche, celebrant, Rev. Fr. Quirbach, deacon, and Rev. Fr. Mantle, sub-deacon. In the sanctuary were Rev. Fr. Michael O'Connor, chaplain of the 101st regiment, Rev. Fr. Wm. J. Farrell and Rev. Fr. Francis Cronin of West Newton, Rev. Fr. John Cunningham of Billerica, Rev. Fr. Thomas Temple of New York City and Rev. Fr. George Reardon of Ayer. The ushers were members of Brighton Council, K. of C., headed by Representative John J. Hefferman, and the pall bearers were all officers of the National Guard. The burial was in Holywood Cemetery, where taps were sounded and the usual volley of musketry fired over the grave.

JUDGE WESTON QUALIFIES
Former State Senator Thomas Weston, recently appointed by Governor Cox as special justice of the Newton Court, took the bench for the first time Tuesday morning. His commission was read by Francis W. Sprague, 2d, clerk of the court. Judge William F. Bacon, who presides over the court, also was on the bench. He turned over several civil cases to his associate. Judge Weston was appointed to replace Frank M. Copeland, whose health compelled his resignation after many years of service.

ADVERTISING OURSELVES

Some of the Reasons for Subscribing for the Newton Graphic

It is rare for a newspaper to advertise itself but with the selection of the week on Nov. 7-12 as a "subscribe to your home town paper" week, we take the opportunity to invite the attention of our readers to some of the features of the Graphic. In the first place, we take some pride in the printed appearance of the paper, and we have had many compliments from well informed persons along that line. The paper stock costs double what the ordinary newspaper is printed upon, but we believe the improved appearance is well worth this expense. Our woman's club department is one of the features which we believe has added greatly to the prestige of the Graphic. With some 4,000 club women in this city, the activities of their clubs and the organizations must be of great interest to them and their friends. We have given a great deal of space to this department for many years.

Our city government news can be relied upon as accurate, for the editor for many years has been closely in touch with City Hall affairs and has a wide knowledge of municipal conditions. Our school notes seem to have struck a popular chord in the past two years. Parents are naturally interested in the work of their

children and this column helps to keep them in closer touch than they would be otherwise.

We are fully aware of the great field still untouched in the way of personal items. A city of 46,000 persons, scattered over ten distinct community centres cannot be closely watched every moment for items of this character. But we keep constantly at work and have noted a gratifying increase in these gossiping locals in the past year or two. On this line we should be glad to have the co-operation of our readers and they are invited to send in any items of this nature which they would like to see in print.

In the field of advertising, we take considerable pride for few suburban newspapers carry such a splendid line of advertisers as the GRAPHIC. Just look over this department of the paper and realize that these business concerns know a good advertising medium when they see it and use our columns regularly with that in view.

We are celebrating the "subscribe to your home town paper" week by offering — give all new subscribers about fourteen months' subscription for the usual annual charge of \$3.00. Now is the time to subscribe.

VASSAR ENDOWMENT FUND

A chafing dish supper was held at the Hunnewell Club on Tuesday night for the benefit of the Vassar Fund. The following were on the committee in charge: Mrs. Frank H. Lamson, Mrs. Edward O. Loring, Mrs. Frank B. Hopewell, Mrs. Henry Hopewell, Miss Edith Fisher, Mrs. Philip S. Jamieson, Mrs. Jasper Gibson, Mrs. Arthur W. Blakemore, Mrs. Joe W. Gerrity, Mrs. Charles Nicholas Young. Mr. Philip Jamieson was in charge of the entertainment following the supper.

COMMITTS SUICIDE

The golfing fraternity throughout the State was shocked when it learned yesterday that Louis E. Teller, professional at the Brae-Burn Country Club and a player of repute throughout the country, ended his life by hanging that morning in one of the rustic shelter houses on the Brae-Burn links. The spot where Teller hanged himself is close to his home at 1900 Washington street, West Newton. He was 35 years old, a native of France, and had been connected with the Brae-Burn Club three years, having been formerly at the Country Club, Brookline. He leaves a widow.

Funeral services will be held tomorrow at 1 P. M. at the Newton Cemetery Chapel.

LOGGES

Garden City Grange will elect officers at the meeting, Tuesday, Nov. 8th.

Garden City Encampment, I. O. O. F. will confer the Patriarchal Degree Monday evening. Supper will be served at 6.30 P. M.

UNION BAZAAR

Last spring an idea came into being in one woman's brain. Mrs. Harold P. Fuller conceived the project of a great union bazaar, which should include the churches of our village, Baptist, Congregational, Episcopal, Methodist, and Unitarian. It was decided also to invite the North Congregational of Nonantum and the Woman's Auxiliary of the Y. M. C. A. to join in the undertaking. The proposition was put before the women's organizations of the various churches and received hearty endorsement. Delegates were elected to develop the plans. Mrs. Fuller was unanimously chosen chairman and her splendid energy and enthusiasm have gone a long way in bringing the ideal to its realization. Mrs. Samuel W. Bridges and Mrs. John T. Lodge have proved most efficient co-chairmen. That the heads of the various departments have been well selected will be convincingly demonstrated on Tuesday and Wednesday of next week. Although you are already acquainted with their plans you will nevertheless be astonished at what has actually been accomplished. The Bazaar has amply demonstrated the tremendous power of united effort. One of the main objects has already been achieved; the women of Newton have been brought together and a feeling of solidarity established. The second object, to raise money to help the various organizations accomplish their work, depends upon you.

The Y. M. C. A. opens its doors wide on Tuesday and Wednesday of next week. The scheme of decoration is charming. The able chairman, Mr. Ralph Hory, assisted by the women's committee has a surprise in store worth coming a long distance to see. Aprons, lingerie, linens, fancy articles form a bewildering array of attractions. You surely can't resist the candy table or the hot fudge, the delicious cakes and pastry, jellies and preserves, or the veritable bower of the flower booth. The parcel post is offering you all the excitement of the venture in the home.

Not only the children will revel in the children's department; its lure will draw all the grown-ups as well. Have you secured your tickets for "The Harvest Party," the children's entertainment on Tuesday at 3.30? If not it would be wise to get them at once and also the tickets for the play, on Wednesday evening at 8.30, "Dr. Baxter's Great Invention," the caput of the hall is limited.

The used book counter presents some marvellous bargains. By the way, have you notified Mrs. W. B. Emery that your books are ready for her to collect on Monday? The Christmas cards in that department are charming. Be sure to see them. Tea will be served by the ministers' wives each afternoon from three to five. Mrs. Robert L. Rae is chairman.

The tea-room offers a delightful opportunity to rest and visit.

Mrs. E. P. Brown is in charge of the cafeteria. Luncheon will be served from twelve to two each day and dinner from six to eight. Here are the menus: Luncheon, Nov. 8: fish chowder, cold ham, vegetable salad, fruit salad, rolls, ice-cream, cake, coffee, tea, milk.

Luncheon, Nov. 9: Soup, crackers, scalloped fish, cold ham, vegetable salad, fruit salad, rolls, ice-cream, cake, coffee, tea, milk. Dinner for both evenings: vegetable soup, tomato soup, beef casserole, baked macaroni, baked beans, vegetable salad, fruit salad, rolls, apple pie, squash pie, vanilla and chocolate ice-cream, cake, coffee, tea, milk.

Arent you hungry enough to make you hungry at the very thought. Every dish is from the hands of an expert cook and its quality is guaranteed. Luncheon on Tuesday will be in the directors' room, because of the children's play in the hall, where the other meals are to be served. Dinner on Wednesday cannot be given later than 7.30 as the hall must be cleared for the play at 8.30.

On Tuesday morning and closes at ten Wednesday night. The early comers will have in every way the advantage; the stocks will be freshest, the assortment greatest, and the prices the same as at the last hour Wednesday, for there are to be no mark downs—except of perishable food and flowers.

Tremendous effort has gone into the creation of this great Union Bazaar. We appeal to you to make it the grand financial success it deserves to be.

LODGES

The Tennyson Rebekah Lodge held an entertainment and dance on Tuesday at Odd Fellows' Hall, West Newton. Miss Charlotte Meserve of Emerson College was the reader, and Mr. Carvaglio, tenor soloist, sang. There was also an attractive play called, "Betty's Butler," in which the following took part: Alvery Baker, Lillian Gerald, Esther Bacon, and Addie Peck.

A meeting of the Eastern Star was held in Masonic Hall on Tuesday at which the work of the chapter was inspected by the Deputy Grand Officers. Mr. Albert L. Babbitt was in charge of the affair. Several hundred people were present.

On Wednesday, Nov. 24, there was an official visitation of the work of the lodge by James Young, Jr., District Deputy Grand Master. There will be an informal dance in Masonic Hall, next Saturday night.

THE VASSAR DRIVE

The local committee in this city for the Three Million dollar Drive for Vassar college is hard at work and reports that of the 71 Vassar graduates in this city, 53 have already pledged the sum of \$8337 and that 4 others not Vassar alumni, have added \$800 more.

The drive in this city is in the hands of a committee of which Mrs. Harold G. Giddings of Newton Centre is the local chairman, Mrs. E. F. Gibbs of Newtonville, the local treasurer, Mrs. Harold M. Bowman of Newton Centre is chairman for that village and Newton Highlands, Mrs. Robert W. Neff, for West Newton and Auburndale, Miss Anne Weed for Newton and Newtonville and Mrs. C. C. Barton, Jr., for Chestnut Hill.

NEWTON COMMUNITY HOUSE

The work is still progressing, although not as fast as we would like; but we are hopeful and realize that a great future awaits us; as we are trying to serve humanity. Many girls have secured employment through this house, also some young men; we further solicit work for the boys of our town. This year will help them toward securing their suits. We want this troop No. 12 to take its place beside the others in the Norumbega Council, with your help it can do it.

If in need of help for work; men, women, boys, or girls, call Mr. Hill, 1445 Washington street, West Newton. Tel. 904-J. Advertisement.

D. R.

The first meeting of the season of the Sarah Hull Chapter of the Daughters of the Revolution was held in the Newton Club on Friday, Oct. 28, Mrs. William T. Logan, vice-regent, presiding.

After the business meeting, the annual essays for prizes given by the chapter to the Stearns School students were read. This year the subject was, "Alexander Hamilton." Essays were read by Mildred Lamson, Grace Dallan and Gladys Mahoney. The prize essay of the Royal League won by the Horace Mann School was also read.

The program for the afternoon, which was in charge of Mrs. Marietta S. Clifford consisted of reading of a satire on the modern problem play by Miss Beth Rachburn of Emerson College and the rendering of a group of songs by Miss Helen Radcliffe.

The hostesses for the day were Miss Emma F. Barker, Mrs. Sheridan Bisbee, Mrs. Edward P. Bosson, Mrs. Curtis Chipman, Mrs. Alvin H. Clifford, and Miss Clara J. Coburn.

TO ENLARGE HOME

It has become necessary for the Swedish Charitable Society of Greater Boston to build an extension to its home for the aged, which is located on Waltham street in West Newton. It has had so many applications for admission to this home, which was established in 1918, that the present accommodations are rapidly becoming inadequate. To provide a home for the aged and infirm, in need, the society intends to build an addition to the present building, and will start an intensive campaign tomorrow to raise a building fund of \$25,000.

D. OF V. WHIST

Mrs. A. E. Cunningham, Tent 2, D. of V., will hold a whist party in G. A. R. Hall, Newtonville, on Tuesday evening, November 8, at 8.15.

SCHOOL NOTES

Edited by Dorothy Drake

Lasell

Miss Frances Hemmingway of New Haven, Conn., has been elected president of the Lasell Missionary Society, the other officers are as follows: Vice President, Miss Marjorie Gifford; Secretary, Miss Anna Bullock; Treasurer, Miss Catherine Foster.

A very large and enthusiastic crowd was in attendance at the Faculty-School Team hockey game on Friday afternoon. The game was strongly contested, the score being 5 to 1 in favor of the regular team. Adding greatly to the occasion was the wiggling, rooting, and special songs by which the members of the faculty endeavored to cheer on their comrades.

The lecture on Saturday morning was given by Mrs. Stewart, one of the school nurses, her talk was very helpful and instructive.

Dr. Butters was the very welcome guest of the school on Sunday evening and had charge of the vesper services.

Many old girls and graduates were present at the Connected Lasell reunion which was held at the Bond Hotel, Hartford, on Saturday afternoon. Previous to the luncheon a reception was tendered Dr. and Mrs. G. M. Winslow.

On Monday the Lasell students went on their annual trip to Salem and Marblehead.

Burr School

The first report cards will be issued on Monday, Nov. 7th. The system of marking is different this year than last. Now we have A, B, C, D, and F for the various ranks.

The fourth grade of the Burr took its geography ride around Newton on Wednesday. We are very grateful to the townspeople who so kindly gave them of their automobiles.

The third grade has an interesting project just now. They have a plan of the Burr School and vicinity, made in pebbles, on their table.

The kindergarten room was the scene of a lively Halloween party Monday morning.

The children disguised in black-cat masks, paper ruffs and carrying lanterns which they had made, had a beautiful time.

Later they visited the two grades in the portable and were much thrilled at the way they "scared" the older boys and girls.

The children enjoyed having a part in the contribution for the French schools. The money was deposited in a basket under a large picture of Marshal Foch. They called it "money for France," "nannies for Marshal Foch's children."

A good proportion of children take milk this year, and the regular advance toward normal weight is most interesting and satisfying.

Ralph Waldo Emerson School

Miss Sullivan's class scored 100 in attendance last week. The other "red star" class was Miss Nickelson's.

On Monday the kindergarten class and the primary classes celebrated the coming of Halloween with appropriate festivities.

An interesting lecture on Japan illustrated with colored lantern slides was given by Col. C. H. French in the school hall on Wednesday forenoon. Frances Warren entertained the classes assembled in the hall on Monday morning with a piano solo. Six pupils from Miss Kelly's class recited "The Well Spent Day."

Plans are well under way for our observance of Armistice Day on Nov. 11.

Albert Edgar Angier School

The doors of the new Albert Edgar Angier School in Waban will be thrown open to the citizens of Newton on the evening of Armistice Day for their inspection and admiration. Appropriate exercises will be held at eight o'clock, at which Superintendent of Schools Ulysses G. Wheeler, Assistant Superintendent, Mabel C. Briggs, and Mayor Edwin O. Childs, Jr., will speak. It is hoped that the address of the evening will be given

by Mr. Wright, Deputy Commissioner of Education for the State of Massachusetts.

The two hours immediately preceding and following the exercises will be devoted to inspection. There will be no tickets of admission. Those persons who are first to occupy seats will be permitted to hold them. Doors open at 7 o'clock.

The officers for the class of 1922 were elected this week. Saville R. Davis was elected president; Robert Annable, vice-president; Dorothy Boggs, secretary; and Thelma V. Stanley, treasurer.

The children of our school were delighted to be given an opportunity to contribute to the Marshal Foch fund. More than twenty-five dollars was raised in response to the appeal made by children of the eighth grade.

The seventh grade has the honor of being the first class to have one hundred per cent taking milk lunches at recess. Sixty per cent of the entire school have taken these lunches during the month of October.

The school "A" will soon be awarded to the letter football boys, who made the team. Coach "Donnie" Houghton has been extremely popular and successful with the boys. The awards will be made by him during morning exercises soon.

Hyde School

The first rehearsal of the school orchestra was attended by a goodly number of children.

Miss Broadhurst of Framingham is now acting assistant in the primary grades at the Hyde School.

A sum of thirty-nine dollars was given by the children of the Hyde School for Marshal Foch to take back to France; to be used in the reconstruction of two high schools there. These schools will be named in honor of national heroes, the Washington, Lafayette, and the Foch-Pershing.

Miss Green's class recently enjoyed a geography ride about the City of Newton. Parents and friends kindly gave the use of automobiles, thus making the trip possible.

A new lantern which is a combination stereopticon and reflectoscope, has recently been installed in the assembly hall of the Hyde School.

NEWTON VOCATIONAL SCHOOL

The Monday morning assemblies are being continued this year at the Vocational High School. On October 9, an interesting student program was given on fire prevention. During the past month, Rev. Mellyar Lichliter gave a very vital talk to the students on the problem of the Pacific. The following Monday, Mr. Meyer Bloomfield of Boston, spoke interestingly on the railroad problem. On October 31, Rev. Mr. Ross of Newtonville spoke to the student assembly on the practice of cheerfulness, courage and courtesy in everyday life.

During October, the various cooking classes of the school held competitive sales of preserves for the purpose of furnishing a unit kitchen. These proved most successful.

There have been several educational trips during the past month. The Freshmen and Sophomores spent a very interesting day at Lexington and Concord in connection with their work in English and History. The Junior and Senior girls had a trip to the Boston markets.

The upper class girls entertained the faculty of the school at a Halloween party, October 27. This was a farewell party for Mr. Swett, who has left to take a position in California.

The Junior girls were initiated into the Health Club, Oct. 31, by members of the Senior Class. A very valuable program of health activities has been planned for the winter.

During "Good English" Week, Nov. 7-11, there will be a prize poster contest on this subject. The best poster in each class will be selected by judges and from these will be selected the prize poster of the school. The Senior girls will conduct a Speech Deficiency Tag Day as their feature for the week. The Freshman Girls will give a program on Oral English Wednesday.

Miss Brazz is to speak to the girls during "Good English" Week. Newton boys can be justly proud of the honor done them through the selection of Alfred Stafford, captain of the Newton eleven, as president of the 32nd Older Boys' Conference held at Fall River, Oct. 28, 29, 30, and 31, under the auspices of the Young Men's Christian Association.

The boys were entertained in the homes of Fall River people, and all thoroughly enjoyed the hospitality shown by Fall River.

The Newton delegation made the trip in automobiles loaned by Rev. H. Grant Person, Mr. C. D. Kenner, and Anson T. Leary. Those who represented Newton were: Alfred Stafford, President of the Conference; Hamilton Oakes, Russell Clark, Charles Regan, Carter L. Flinn, Carleton Person, Carleton Church, Abbott Gotshall, Chas. Brown, Kenneth Kepner, Sidney Ussher, Joseph Worth, Edmund Woodward, Donald Frail, Winslow Auryan, Anson T. Leary, Community Secretary, and F. E. Doubleday, Boys' Work Secretary.

OLDER BOYS' CONFERENCE

The boys were entertained in the homes of Fall River people, and all thoroughly enjoyed the hospitality shown by Fall River.

The Newton delegation made the trip in automobiles loaned by Rev. H. Grant Person, Mr. C. D. Kenner, and Anson T. Leary. NORTHGATE CLUB

A very delightful Halloween party was held by the members of the Northgate Club last Saturday night in the club house which was artistically decorated with orange and black paper, autumn foliage, and fruits.

The costumes were unusually attractive. Notable among them was Mrs. C. H. Alvord in a Chinese costume, Miss Ethel Frail as Queen of Snow, Mr. William Cooper as Jack Frost, Mrs. Frank McCool in a "Folies" costume, Mr. and Mrs. Foster Foreman in Indian costumes.

During the Paul Jones, favors were showered upon the dancers from cornucopias suspended from the ceiling. Refreshments of cider and doughnuts were served during the intermission.

On Friday, Nov. 18, the Northgate Club will hold a harvest dance, and on Thursday, Nov. 10, there will be a whist party for ladies.

Halloween Night the club kept open house with bowling and dancing. Mrs. Edwin Wolley and Mrs. C. L. Dutton as hostesses served a buffet lunch.

CHAMBER OF COMMERCE

Arrangements are being perfected for the regular November meeting of the Newton Chamber of Commerce, which will be held at the Newton Club on the evening of Tuesday, November 15. As a result of the recent decision to reorganize the Chamber, to create a bigger and broader organization of the civic type, and to meet the need for an all-Newton organization to work for the welfare and advancement of Newton as a whole, it has been decided to devote the November meeting to a consideration of plans for the new chamber.

It is planned to secure a speaker who is qualified to discuss the proper functions and activities of modern chambers of commerce, both in a general way and as they may be applied to Newton. The new secretary of the Newton Chamber will make a report at this time of his survey of the local situation, with suggestions as to how some of Newton's problems may be met and solved in the future. A part of the evening will be given over to a general discussion, in the form of an open forum, during which suggestions from any and all present will be cordially welcome. In carrying out the reorganization of the Newton Chamber, it is the desire to give Newton just the type of organization which is most desired by its citizens, and which will help Newton the most. It is hoped that all present members of the Chamber will endeavor to reserve the evening of November 15 for this meeting. Citizens not yet members of the Chamber will also be welcomed, as far as accommodations will permit. A dinner will precede the meeting, for which reservations may be made by writing the secretary, or by telephoning Newton North 570.

EDITORIAL

The city is most fortunate in having as its candidate for mayor such a good business man as Alderman Leon B. Rogers. Every corporation doing a business of about three millions of dollars a year, chooses its president or general manager with great care, and a municipal corporation should be no exception to this wise rule. A brief survey of Mr. Rogers' accomplishments clearly shows that he is fully equipped for the office of mayor. In business life he is the treasurer of the Rogers Fibre Co., manufacturers of paper and chemical fibres with five plants at various places in Maine and employing 500 persons. He is also a director and member of the executive committee of the Market Trust Co. of Brighton. In the thirteen years he has lived in Newton he has taken an active part in public service. As chairman of the Red Cross membership campaigns in 1919 and 1920, he helped to put Newton well over the top. As president of the Newton Hospital Association, he organized the campaign last winter which yielded over \$80,000 for that splendid institution. He is a director in both the Newton Red Cross and the Newton Welfare Bureau and gives a great deal of time and thought to that class of work. During the Boston police strike, he took an active part, serving as a captain in the Newton Constabulary unit. He is now serving his second year as a member of the Newton board of aldermen. The voters of Newton will make no mistake if they elect Mr. Rogers as the chief executive of the city.

The question of the Junior High School which has been advanced several times in a rather desultory fashion when additional school accommodations have been under consideration, will undoubtedly come to a head during the next few months, as the new building, on which bids will be received next week, is being constructed.

Mr. George M. Angier of Waban and Mr. J. Everett Hicks of Newtonville will undoubtedly be re-elected as members of the school committee next month, but it would be well for any of our citizens who feel that the proposed Junior High School plan is not suited for this city, to have these gentlemen understand how they feel about it.

Do it now, don't wait until after election.

Our Needham correspondent makes a just criticism of the lack of respect which many of our so-called "best citizens" show to the national colors. It is bad enough to keep one's hat on one's head when the colors pass by under guard, but to neglect the last salute to the dead who die in our defense is unpardonable.

Welcome to Judge Weston. May his duties ever be light.

BOY SCOUTS

Amid the cheers and decorated tables of a Scout Banquet Mr. Jerome M. Carley, Scoutmaster of Troop 11 for almost three years, received his farewell greetings from the scouts and Troop Committee with whom he had been working. Unbeknownst to him this feast of good things was planned by the troop as an appreciation of his untiring services and good will towards the members of Troop 11, and for his devotion to Scouting in general.

The event took place on Friday evening October 28, in the assembly room of the Y. M. C. A. The tables arranged suitably for the occasion were decorated and laden down with good things such as boys and men like. When the hour arrived for the celebration to start the whole troop marched to the hall and after being presented with a new Troop Flag by Mr. Carley and concluding an opening exercise, took its place at the tables. The scouts took the side tables while their guests sat at the speakers' table. Among those who were present were Mr. and Mrs. Carley, Commissioner Benbow, Scout Executive Sharratt, Hon. Commissioner Irwin, Mr. Charles H. Woodworth, the Troop's first Scoutmaster when it was organized in 1912, Mr. Lichtenhaer, Scoutmaster of Troop 4, Messrs. Leeds, Angier, Gallagher and Rees, composing the Troop Committee, Rev. Mr. May, Religious Director of Eliot Church, Assistant Scoutmasters Stafford, Barney, R. W. Swett, and Scoutmaster John Woodbridge, who succeeds Mr. Carley.

After the fine repast Mr. Rees, Chairman of the Troop Committee acted as Toastmaster and called upon Mr. Woodworth to describe the beginnings of the troop. This was followed by short addresses by Mr. Irwin, Commissioner Benbow, Mr. Gallagher, Mr. Angier, Mr. May, and Mr. Sharratt. All speakers paid tribute to Mr. Carley's work as Scoutmaster and emphasized the fact that he was one of the Council's best campers. At the close of the meeting Mr. Rees in a few short appropriate sentences presented Mr. Carley in appreciation of his services to the troop, an engraved silver pocket-knife. With feelings to full to express his gratitude the retiring Scoutmaster thanked his troop and all for its kindness and pledged his continued service as a member of the Troop Committee.

The success of the banquet was due largely to the loyal assistance of the Troop's Ladies Auxiliary led by Mrs. Woodbridge, and assisted by Mrs. Clark, Mrs. Barney, Mrs. Stafford, Mrs. Fellows, Mrs. Duly, Mrs. Soch, Mrs. Gallagher, Mrs. Morton, Mrs. Swett, Mrs. Crawford, Mrs. Bray, and Mrs. Barba.

The evening was one filled with pleasure and Scout spirit, and closed with every one extending to the present Scoutmaster, Mr. John Woodbridge best wishes for his success with his new responsibility.

Troop 6, Nonantum

Troop 6, under the direction of Mr. W. O. Holman is under way and at the present time is trying out several scouts for rank of Senior Patrol Leader. New applications are in hand and it is expected that a good troop will continue the good work of last year.

Court of Honor

The next Court of Honor will be held in the Scout room of the Newton Highlands Congregational Church, Monday evening, November 7, at 7.30. Scouts who are ready for advancement should bring their records to the Court unless such records have been sent to Headquarters. To this Court of Honor the public is cordially invited. Troop 4 will present a short Scout Demonstration.

SCHOOL NOTES

Mason School

The carpenters began work this week on the third floor of the Mason building. Two double windows are to be put in and partitions torn away, to provide room and ventilation for future class rooms.

The Mason contributed \$20.55, the Rice \$5.23, and the Bowen \$2.70 for the Foch medal and the French high school buildings to be erected. Total amount of deposits from all the rooms in the Mason for the week was \$79.26. The rooms having the largest deposits were as follows: Miss Crandall's \$25.57, Miss Swallow's \$21.67, Miss Hart's \$15.78, Miss Bateman's \$5.17. The children are surely learning thrift.

The boys and girls in the fifth grade, Room 6, are studying Robin Hood. One group of children is conducting a Robin Hood scene on the sand table while a second group is planning and preparing a Robin Hood play.

The pupils in the three fifth grades enjoyed a joint entertainment given in the Assembly Hall, on Monday.

Saturday afternoon an exciting game of Soccer was played between the Newton Center Playground and Upper Falls at Newton Centre, the Centre being beaten 1-0.

Stearns School

The Mothers' Club held a Hallowe'en Party at the Stearns School on Monday, Oct. 31. The members contested in games and races and prizes were awarded to the winners in the potato race, the obstacle race, and the feather blowing contest. The committee in charge included Mrs. Cyr, Mrs. Muse, Mrs. Crandell and Mrs. Bergen.

The Junior Girls assembled at Stearns School on Wednesday evening, Nov. 2nd, for a social evening. Hallowe'en games were played and dancing and refreshments followed.

Plans for other social evenings are being made by the entertainment committee which consists of Ida Melman, chairman; Dorothy Connolly, Frances Hurley, and Alice Mooney.

Two illustrated lectures were given on Thursday morning by Col. C. H. French, one, on the Discovery of America, and the other on a trip through Switzerland. Both lectures were well attended by children from the Adams school and from this district. Part of the proceeds go toward the support of a French orphan.

The Stearns football team defeated the Mason School 78-0 on the Burr Playground, Thursday afternoon.

Little Burnie Lyman, at quarter for Stearns, again played brilliantly, scoring eight touchdowns.

There are two more games to be played, one with Burr School, and the other with Horace Mann.

REYNOLDS—EHRCKE

Last Friday night, Miss Hazel Edna Ehrcke of Needham and Mr. George L. Reynolds, Jr., of Waban were married at the home of the groom on Kelvedon road, Waban, Rev. Charles H. Cutler officiating.

The matron of honor was Mrs. J. M. Reed of Dover, and the best man, Mr. Dolph Alger of Middleboro.

The bride wore a gown of white satin with Venetian lace, and carried a bouquet of white roses and sweet peas. The matron of honor wore a gown of green chiffon and carried a bouquet of pink roses.

The ushers were Messrs. Dolph Alger of Middleboro, Chester Galloupe of Norwood, Maurice Hodgson of Newton, Jack Reed of Dover, and George Macfarlane of Jamaica Plain.

Miss Marion Hodgson of Needham and Richard Henderson of Hyde Park were pages, and Miss Carolyn Hodgson of Newton, flower girl.

A reception followed the ceremony, the house being tastefully decorated for the occasion with autumn leaves, and yellow and white chrysanthemums. Music was furnished by Mrs. Muriel Macfarlane.

After an automobile trip through the White Mountains until Nov. 15, Mr. and Mrs. Reynolds will make their home at 32 Kelvedon road, Waban.

The groom is a graduate of Dartmouth, class of 1921.

PLAYING COLLEGE FOOTBALL

Many minds in Newton are focused on the Harvard-Princeton football game to be played at Princeton on Saturday of this week, a game in which three graduates of Newton High School will start and a fourth probably take part before the final whistle blows. Harvard and Princeton have played tie games for the past two years with a score of 10 to 10 in 1919 and 14 to 14 in 1920, so that a great tussle and battle royal is looked for this year. The tie is to be played off.

Henry Garrity of Newton Highlands, son of Martin H. Garrity, plays halfback for Princeton and will be one of the starters.

C. Clark Macomber of Newtonville, son of George B. H. Macomber, plays end for Harvard and will start the game.

George Owen of Newton, son of George Owen, plays halfback for Harvard and will start.

Edgar Crosby of West Newton, son of William E. Crosby, plays end for Harvard and will probably get into the game.

All of these boys and others we consider began their athletics under Allie Dickinson at Newton High and it is a gratification to the whole of Newton to see how they have progressed and a satisfaction to know what they are doing.

Other Newton High boys playing on College teams this year are as follows: John Seavey playing center for Dartmouth, Allen Davidson playing for Amherst, where he is Captain of his team, Joel Leek playing at Amherst as a linebacker, Milanese Gulian is a star tackle at Brown University and Robert Mohor is on the Mass. Agricultural College team.

Three members of Newton High's last year's championship football team are playing at preparatory schools as follows: Robert Garrity at Princeton preparatory, Clem Coady at Exeter and Garashe Gulian at Cushing Academy.

To Newton High and Mr. Dickinson all credit is due and all Newton is glad and proud of the showing being made by her boys.

WOMEN'S CLUBS

GRACE M. BURT, Editor.

Bringing the Federation idea home to the clubs is not always an easy matter, and some delegates succeed better than others. It is one thing to read of plans, it is quite a different matter to see the leaders, and hear them explained, or to observe how they have been worked out. Newton is fortunate in having had at least one representative at the Council meeting of the General Federation at Salt Lake last June. Mrs. Fred H. Tucker, chairman of the Conservation committee of the Newton Federation. In spite of her devotion to her particular subject, in which everyone recognizes Mrs. Tucker as an expert, she was particularly impressed with what the General Federation has been doing in the last year, since Mrs. Winter became president, towards co-ordinating and correlating the work of the various departments and has come home determined to ascertain if what she has seen, can be applied to the committees of the Newton Federation. At a meeting of her own department last Monday morning, to which she had invited representatives of all the others in the City Federation, the plans were submitted and discussed, the results of which will be reported in this column in a later issue. Anything which tends to conserve energy, to avoid duplication of effort, and to equalize labor among the committees, should be considered thoughtfully and adopted wherever possible. The outcome of this effort will be awaited with interest.

State FederationTuesday, November 8. Home Economics conference for the Seventh District will be held at Northboro in the Unitarian Church.
Wednesday, November 9. The same department holds another conference at Newton Centre by invitation of the Newton Federation, notice of which is given below.**Newton Federation**

A departure from the custom of the past few years has been adopted this year by the Program committee, Mrs. Frank L. Miller, of Waban, Chairman. The three meetings of the Newton Federation are to be held in different sections of the city.

The first date is Wednesday, November 9, 2:30 P. M., in Bray Hall, Brookline. It is to be under the auspices of the Home Economics Department of the Massachusetts State Federation of Women's Clubs, and will be called "Renovation Day." In the consideration of "Renovation of House Furnishings," Mrs. E. M. Willis, of Brockton, will speak, and Mrs. Gladys B. Jones, of Watertown, will present "Renovation of Clothing." The chairman of the State Department, Mrs. A. Bixby, will give some "Recommendations from the State." Particular attention will be given in these lectures to demonstrations of removing spots and stains, to suggestions for the reupholstering of furniture, to laundry processes, to methods of the refinishing of walls, and to various other subjects of interest.

The progress of the drive for the Philanthropic Fund will be announced at this time. Be sure your club is on the list.

Tea will be served by the social committee and every club member is cordially invited and earnestly urged to

Rev. Felix Weiss, speaking before the Newton Community Club at the last meeting, emphasized the need in this reconstruction period of stopping immigration for a while at least, and proved that for the most part the proper sifting out of undesirable aliens for deportation lies mainly with the enforcement of the immigration laws.

Mr. Weiss, from his 13 years' experience as inspector of immigration for the port of Boston, and two and one-half years as special agent for the Bureau of Investigation of the U. S. Department of Justice, was able to give his audience a peep into the life of an inspector, a glimpse of the incoming peoples and of the lengths to which they go in their attempt to enter this country. After the adjournment of the meeting Mr. Weiss told a group, who had remained, the story of the finding of evidence which proved Dr. Muck a German agent.

Preceding the lecture, Mrs. Lewis F. Pike, accompanied by Mrs. Haddon, sang two selections. Announcement was made at the business meeting that enough had enrolled to secure the class in conversational French. A request was made for magazines and books to be used by Miss Roy in her Americanization work. Arrangements have been made for members to visit the yarn mills in Newton on November 17th.

The Waban Woman's Club opened its season last Monday with an auction bridge, to raise funds for its philanthropic work. At the close of the afternoon, tea was served, and a prize given to the winner at every table. Mrs. Herbert S. Kimball and

enjoy this exceedingly profitable and pleasant afternoon.

The Conservation department voted at its meeting on October 31st to meet regularly on the last Monday of the month at 10 A. M., at the Red Cross House, Newtonville.

Local Announcements

The Newton Highlands Shakespeare Club meets with Mrs. W. M. Mick, of Parker street, Newton Centre, tomorrow afternoon. "Measure for Measure" will be studied under the direction of Mrs. Sanderson.

The first regular meeting of the Waban Woman's Club will be held in the Neighborhood Club House, Monday, November 7th, at 2:30. MacGregor Jenkins will lecture upon "Literature with a Large L." There will be a piano solo by Mrs. Alice Allen Drayton. Following the program an informal reception will be held, and tea will be served.

Mrs. C. E. Benson of Somerset road, West Newton, will open her home for the meeting of the Newton Mothers' Club on Monday, November 7. Miss Charles will speak, and will present "Some Observations on the Education of Girls in China and Japan."

At a meeting of the Newton Upper Falls Woman's Club next Monday evening, Mrs. Lillie Fuller Merriam will tell of "An Unusual Journey."

Mrs. Grace M. Poole lectures upon Current Events before the Newtonville Woman's Club on Tuesday, November 8.

The Musical Extravaganza announced by the club for early December has been given up. Upon the open date, December 6, Miss Flora MacDonald will address the club upon "Household Decoration."

The Social Science Club will begin its study of Russia with a paper on "The Early History of Russia," by Miss Elinor Merrill next Wednesday morning.

Thursday, November 10, the Newton Centre Woman's Club will have the first of the talks upon Current Events by Mrs. Grace M. Poole.

Mrs. Claude U. Gilson will speak before the Newton Community Club next Thursday, November 10, at 2:30 P. M., in the Hunnewell Club on "Europe on the Way to Peace." During the past summer Mrs. Gilson has been in Europe in search of material, and comes to the club with the results of her observation fresh in her mind.

The first of the Round Table Conferences of the Home Economics committee of the club will be held at the Hunnewell Club, Monday, November 14, at 10:30 A. M., with Mr. Leon B. Rogers as the leader. The fact of Mr. Rogers being a candidate for mayor should lead a large number of club members to embrace the opportunity to hear him. These conferences will be continued upon succeeding Monday mornings in November, the speakers and their subjects to be announced each week as the time arrives.

Notwithstanding that November 11 has been proclaimed a national holiday, Mrs. Claude U. Gilson will give as planned her regular talk upon Current Events before the Community Service Club of West Newton in the Congregational parish house at 10:30, and the members will be able to go down there to the union service at noon in the Unitarian Church.

Rev. M. H. Lichter, D. D., will address the West Newton Women's Educational Club on "Camouflage in Education" on Friday, November 11. There will be music and a tea.

Edgar A. Guest has been secured by the Auburndale Woman's Club to read from his own poems at the open night of the club on Wednesday, November 16, at 8 P. M., in the Congregational Church.

The Classes committee of the club announces six classes open to members: Millinery, a course of four lessons, arranged for November 14, 15, 16, 17, 28, 29, and December 1; Parliamentary Law on Friday evenings, beginning as soon as class is filled; Dress Making, course of four lessons, started October 31, and once a week thereafter; Swimming, ten lessons, Tuesday mornings, one vacancy remains; Current Events, ten lessons, Friday mornings at 10:30; Bridge Whist, ten lessons, four in a class. Address the chairman, Mrs. W. A. Stiles, for further details.

Local Happenings

Feri Felix Weiss, speaking before the Newton Community Club at the last meeting, emphasized the need in this reconstruction period of stopping immigration for a while at least, and proved that for the most part the proper sifting out of undesirable aliens for deportation lies mainly with the enforcement of the immigration laws.

Mr. Weiss, from his 13 years' experience as inspector of immigration for the port of Boston, and two and one-half years as special agent for the Bureau of Investigation of the U. S. Department of Justice, was able to give his audience a peep into the life of an inspector, a glimpse of the incoming peoples and of the lengths to which they go in their attempt to enter this country. After the adjournment of the meeting Mr. Weiss told a group, who had remained, the story of the finding of evidence which proved Dr. Muck a German agent.

Preceding the lecture, Mrs. Lewis F. Pike, accompanied by Mrs. Haddon, sang two selections. Announcement was made at the business meeting that enough had enrolled to secure the class in conversational French. A request was made for magazines and books to be used by Miss Roy in her Americanization work. Arrangements have been made for members to visit the yarn mills in Newton on November 17th.

The Waban Woman's Club opened its season last Monday with an auction bridge, to raise funds for its philanthropic work. At the close of the afternoon, tea was served, and a prize given to the winner at every table. Mrs. Herbert S. Kimball and

nounced a series of moving pictures to be given, beginning November 4th, at the new Albert Edgar Angier school for the benefit of the Mt. Holyoke Endowment Fund. The pictures are to be carefully selected and all are urged to attend.

The meeting Tuesday morning, November 1st, of the Auburndale Review Club, held at the home of Mrs. Charles Valentine, considered the island possessions of the United States. First, Miss Ellen C. Williams told of the Alaskan Islands; then Mrs. W. H. Blood spoke of the Philippine Islands, giving their natural history and showing conditions to 1898, followed by Mrs. Valentine, telling of recent political conditions, especially of their fitness for self-government.

The members of the Newtonville Woman's Club were much pleased with the dramatic readings by Elizabeth Pooler Rice at the meeting on Tuesday afternoon. Her ability to individualize the characters through slight change of voice and by her facial expression was remarkable. This was especially noted in the last of her selections, "Lonesomelike," by Brighouse. The Music committee held a most successful food sale at the close.

Mrs. Wallace C. Boyden made a plea for the Newton Federation's Philanthropic Fund at the meeting of the Newton Social Science Club on Wednesday morning. Mrs. Henry A. Neally, the new president, was in the chair. The rest of the morning was devoted to routine business and reports of plans of the committees for the year.

A very large audience of the Community Service Club of West Newton greeted Miss Sarah Louise Arnold at the meeting of the club on Wednesday afternoon at the Unitarian parish house. Miss Arnold's topic was "The Changing Aspects of the Homes of America." She dwelt, among other points, particularly upon what the child of the city misses through its lack of contact with nature, and she feels that this loss is going to tell upon future generations. A social hour with tea followed the lecture, Mrs. Arthur G. Hosmer and Mrs. Louis Bell, presiding over the table.

D. A. R. MEETS

The Lydia Partridge Whiting chapter of the D. A. R. was entertained at the home of Miss Ward, Walnut Street, Newton Highlands, on Oct. 25. A goodly number, including three guests were present.

Mrs. Davis, of Boston, regent of the Mary Draper chapter of West Roxbury gave a short sketch of the life of Mary Draper. Miss Head, the regent read the message given by the President General, at Washington.

At the business meeting, it was voted to give a sum to the International College at Springfield, and also a small sum to the West Newton Music Club.

After the meeting, tea was served by the hostess.

NEWTON CHORAL SOCIETY

There is still an opportunity for singers who wish to join the Newton Choral Society and take part in the December concert. Those who desire to come in should attend the rehearsal of next Tuesday night. Rehearsals are held each Tuesday at 7:30 sharp at the Central Congregational Church, Newtonville.

The attendance is now about 100, which is very good, but more singers are desired, particularly men.

—Miss Louise Sherman of Vernon Court is to attend the missionary conference to be held at New Haven next week.

—Miss Constance Parker, Connecticut College, '25 has been made a member of the Freshman Field Hockey Team.

—The Newton Troop, Girl Scouts, held a meeting on Monday at the home of the chairman, Mrs. Loring Marshall on Grasmere street.

—The meeting of Channing Alliance, which would regularly fall upon next Tuesday, has been postponed one week on account of the Union Bazaar.

—Photographs, the Christmas gift that's always timely for friends, for family and you. Make the appointment today. Lila J. Perry, Bank Bldg., Newton.

—A "Stunt" party will be held at Eliot Church on Saturday, November 5, at 7.30 P. M. Members of the Intermediate and Senior Departments of the Sunday School are invited. Even if you have not been in Sunday School this year, we want you Saturday night.

—The Immanuel Glee Club formed two weeks ago is meeting with great success. The club invites all young people interested in music to join. The officers are as follows: Mr. Haddon, Leader; Mr. Ernest H. Woodworth, President; Miss Emily Blaisdell, 1st Vice-President; Percy Eden, 2nd Vice-President; Miss Norita Gullian, Treasurer; Miss Dorothy G. McCaul, Secretary; and Miss Elizabeth Chaso, Librarian.

—A Day of Missions at Eliot Church, Nov. 16th, will be of great interest to all members of Women's Associations of Congregational churches in Newton, Wellesley Hills and Needham. Reports of the delegates to the annual meetings of the Home and Foreign Mission Boards will be given, also a questionnaire in the morning and afternoon luncheon. Miss Ethel Putney will describe her work in the Near East and Miss Dickinson of Glasgow, Montana, will take her hearers to the Western frontier.

—The united churches of Newton will hold services on Armistice Day in accordance with the expressed wish of the president and the proclamation of the governor. There will be a service of prayer at 11.45 A. M., closing with the two minutes of silence when the unknown soldier is laid to rest. A mass meeting will be held at 7.45 P. M. with Prof. Clarence R. Skinner of Tufts College as speaker. Both of these union services will be held in Grace Church and it is confidently expected that our gratitude to our soldier dead and our desire for world peace will give large congregations.

—The Frank A. Day Memorial Organ was formally dedicated last Sunday at Eliot Church with a very beautiful service in which the organ played a prominent part, and the pastor gave an address. Mr. Day, in whose memory the organ was given, was born in Newton and lived here nearly his entire life. He was closely identified with Eliot church, and a most loyal and generous member. Of devoted Christian parents, he was baptized into the Church, Oct. 3, 1852, and came into full membership as a boy of fourteen on Sept. 2, 1866. He was a constant attendant upon the services of the church, and for many years taught in the Sunday School. He served fifteen years as deacon, being in the midst of his third term at the time of his death.

A JUST CRITICISM

November 1, 1921.

To the Editor of the GRAPHIC:
Sunday we buried Harry W. Bock, Jr., a former First Sergeant in the 11th Infantry, who was killed in action four days before the Armistice.

His signature, Rev. Charles A. Buckle conducted the service in the First Baptist Church at Newton Centre, and expressed the thought that where the young man's sacrifice ended our work began.

Certainly the least part the civilian can take is to uncover while a flag draped casket of the National Colors is borne past. Yet as the colors went by a number of men stood with out uncovering. One of Newton's leading citizens was in front of the church, with his hat still on as the body was carried into the church.

Such a man at least should be an example for our younger citizens in the making, and if he feels that he cannot salute he should at least go away and not stand with his hands in his pockets, a disinterested spectator.

It is amazing how some of us have slipped since the days of 1917-18-19.

I am writing this unofficially as a charter member of the Newton Post American Legion, and my desire is that these men may read it and save themselves the embarrassment of having some former soldier or Boy Scout tell him what to do at some future time.

RAYMOND B. HEMENWAY,
58 May St., Needham.

Y. M. C. A.

Wednesday night, Nov. 16, 8 o'clock

the first of a series of wrestling contests will be conducted in the gymnasium of the Newton Y. M. C. A.

The strong team representing the Boston Y. M. C. U. has been scheduled to open the season and as the Union always puts out a powerful team, the five bouts on the program are bound to be closely contested as the Newton "Y" men have been putting in some hard work for this event. A small admission fee will be charged.

Saturday afternoon, Nov. 26, the Y. M. C. A. is going to hold a three-mile cross country run for the Senior members. The exact course will be announced later.

CHARTER OBJECTION RAISED

Alderman Heathcote Acts Under Little Used Part of City Charter and Compels a Special Meeting

For the first time in several years, the power reserved in the city charter to one member of the aldermen to postpone final action on any matter, was exercised at the regular meeting of the board on Monday night. Alderman Heathcote took this unusual action to prevent the passage of orders for the laying out of Kenwood avenue at an estimated expense of \$8780, all of which would be repaid to the city by the abutments on that street. This took place at the end of a long session and aroused Alderman Nichols who stated that this street had been before the board for nearly a year and all the abutments on the street but one were extremely anxious to have the work performed this fall. The street is in very poor condition and is a detriment to development. A postponement to the next regular meeting would mean that the work could not be done this fall, and on his motion the board voted to request the Mayor to call them in special session on Wednesday evening to take further action on the matter.

There was a long delay in calling the board together, due, it is said to an attempt to reconcile Alderman Heathcote on the Kenwood avenue matter. When called together by Vice-President Whidden, all were present save President Harriman and Alderman Young.

There were many hearings. Miss Mable Dow, Miss Alice M. Wright, W. S. Kilburn and C. M. Glazier appearing in opposition to an Edison pole on Walham street and Geo. J. Russell, F. W. Norris, Rev. C. W. Blackett, John Allen, F. J. Gowing, C. A. Lums and Mrs. Adams speaking in opposition to the proposed widening of Jefferson street. Mr. Jenney appeared in favor of the petition of the Jenney Mfg. Co. for a gasoline filling station corner of Walnut and Beacon streets, stating that his company was willing to give the land for widening Walnut street and rounding the corner of Beacon street and would make the entrances and exits to the satisfaction of the city.

No one appeared on Edison poles on Warwick road, Page road, Moffat road, Carlton road, and Beacon street and on petition John C. Kiley for a 3-car private garage on Hayward road, and these petitions were subsequently granted. No one appeared at hearings on underground conduits in Brook street, on a gasoline station at 436

Lexington street for Lester E. Pratt, on petition of O. D. Brett for a 20-stall garage at 7 Park street, and on sewer construction in Nathan road. Mr. John Muse spoke in favor of curbing on Green street.

Mayor Childs sent in requests for laying various water mains, for a fire hydrant at Lowell avenue and Commonwealth avenue, for \$126 for temporary clerk for Buildings Commissioner, for \$2000 additional award for land damages corner of Charlesbank road and Washington street, of the Planning Board for money to print additional copies of their recent report and request of the Playground Commission for additional appropriations.

Mr. Edward E. Blodgett sent in a scathing criticism of the city department in connection with the Memorial fountain erected for his son, at the corner of Putnam and Washington streets.

An unusual communication was that from F. J. Fessenden thanking the board for placing a fire station in the private grounds adjoining his school.

Petitions of L. A. Andrews for a taxi cab license, N. A. McGrath for a taxi cab license, Stephen McElroy, Emerson street, J. Cheever Carley, Elliot avenue, Nathaniel Kinsman, Waban avenue, Edwin A. Meserve, Ransom road and H. A. Johnson, Eastbourne road for private garages, and of the Edison Co. for attachments on Chestnut and Ripley streets were granted.

Other petitions were received from J. C. O'Rourke for private garage Linwood avenue, for sewer in Commonwealth avenue, from W. F. Brennan for hearing on method of paying for street sprinkling, of J. W. Gledhill for abatement of betterment on Carlton road, from Harry F. Stimpson relative to assessments to be levied on Old Colony road, etc., of S. A. White for laying out of Hawthorne street, of Lawrence Antoinellis and F. P. Howland for Soldiers' relief, claim of Mrs. Mary R. Hall on account of fall on sidewalk, of the Waban Woman's Club to save certain trees in Beacon street, and Master & Wells Co. to manufacture fireworks on Needham street.

The Street Commissioner reported the cost of completing Eastbourne road as \$6,050.66. On recommendation of committees, J. D. Harrington was granted permit (Continued on Page 4)

PASTOR'S RECEPTION

The social activities of the Newtonville New Church Society for the season 1921-22 commenced in the church parlors on Friday evening, November 4th, with a reception to the pastor and associate pastor. The venerable pastor, Rev. John Goddard, who has preached to the Society for upwards of twenty years and is 82 years of age, with Mrs. Goddard assisted by the associate pastor, Rev. E. M. L. Gould and Mrs. Gould received the guests. There was a large attendance. Mr. Frank C. Blaisdell was in charge of the proceedings and after the reception and introduction a musical program was rendered by the church choir quartet, Miss Sylvia M. Church, soprano, Miss Antoinette J. Vernon, alto, Mr. Henry R. Rogers, tenor, and Mr. Alfred R. Frank, bass. The organist and choir-master, Mr. John F. Hartwell, presided at the piano.

Several encores were exacted. There was an intermission for conversation and refreshments, the latter served by the young people of the society and all agreed to having had a very delightful time. A Christmas party will be held Dec. 29 and other social meetings, Jan. 27, March 10, and April 7th next.

CITY HALL

Buildings Commissioner Forbush opened bids Wednesday afternoon for the proposed new school building on Walnut and Crafts streets, Newtonville, on plans prepared by Mr. Edmund I. Leeds. The lowest bidders were as follows: General contract, Martin W. Ryan, \$213,466; plumbing, E. C. Kelly, \$12,103; electrical work, Reliance Electric Co., \$19,775; heating, Wm. H. Welsh Co., \$42,838. These figures indicate that the total cost of the building will be about \$338,000.

Further details will be given in our next issue. At the close of the aldermanic meeting Monday evening, Alderman George W. Pratt, who has recently been married, was presented with a handsome piece of silver by Vice-President Whidden, the gift of his associates on the board.

COMMUNITY FAIR

One of the encouraging signs of the times is the greater spirit of co-operation which is being shown among churches and organizations everywhere.

Such a spirit of co-operation was manifest in Newton on Tuesday and Wednesday at the Community Fair in which all of the churches of the "Newton Corner" section of the city and the Woman's Auxiliary of the Y. M. C. A. took part.

So much effort and enthusiasm went into the fair, that its success was assured from the beginning. Nor was there lack of patronage for, "Standing Room Only" might well have been the sign over the door so great was the crowd of would-be purchasers.

A very beautiful and rich display of Oriental rugs made the entrance hall very effective. Here, also, were the Used Books and Art Tables.

The main auditorium on the first floor was decorated in black and white against which the flower booths, fruits, and candies made a pleasing color effect. Black and white streamers were everywhere in evidence with balloons grouped artistically here and there. This pleasing effect was due to Mr. Ralph Henry. The central booth was used for the tying of bundles, and formed the hub as it were, the booths (Continued on Page 4)

MORE FOOTBALL

The Suburban League championship will be decided at Malden next Saturday when the undefeated and unscathed Newton High eleven goes into battle against the undefeated Malden High outfit. The game is exciting great enthusiasm in scholastic circles and the outcome of the contest will be watched with much interest. Victory means not only the Suburban title but a right to claim the State championship as well. It is the vital game in the 1921 scholastic gridiron season.

At first it was hoped that the big game would be played at Braves Field or Fenway Park on the afternoon of either Armistice Day or Saturday. The Malden field is not large enough to hold the crowds that are desirous of seeing the game and it would seem as though the only sensible course would be to play the game at one of the spacious Boston ball parks. Coach Dickinson of Newton said that he would be willing to play in Boston provided a certain amount of the profits were given over to the fund for disabled soldiers. Coach Jack MacDonald and the Malden authorities refused to consider the prospect of a game in the Hub and insisted that the contest take place at Malden. The Malden coach apparently feels that a game on the home field will be far more advantageous to his (Continued on Page 4)

RED CROSS REPORT

Some Interesting Facts Given by Mr. George M. Angier on the Recent National Conference

The following report of the recent National Convention was made by Mr. George M. Angier, Newton's representative at the Convention.

That the National Convention of the American people to go forward wholeheartedly with the Red Cross program of continued care for the Ex-Serviceman and his family, preparedness for large disasters and better service to the community is the report of Mr. and Mrs. George M. Angier, Delegates of the Newton Chapter, Newtonville, Massachusetts.

Over 2000 delegates attended the Convention, representing every State in the Union, as well as some of our Island possessions.

General meetings of all the delegates were held in the evening and Sectional Conferences during the day where opportunities were given to discuss and confer in regard to the best manner in which the Red Cross could render service to enlisted and ex-servicemen and their dependents, how best to carry on classes in Home Hygiene and Care of the Sick, General Health Service, Military Relief, Disaster Relief, Public Health Nursing, Volunteer Service and the activities of the Junior Red Cross.

All of these problems are of great and serious importance in various parts of the country and the delegates from the Newton Chapter were especially impressed with the necessity of the Newton Chapter carrying out and continuing in even a more enlarged and intensified manner, the peculiar service which the Red Cross only can render to the ex-servicemen and their families and also the continuation and enlargement of the classes in various parts of Newton of the courses in Home Hygiene and Care of the Sick.

Reports from various parts of the country confirmed the fact that the service which the Red Cross can render, especially to the disabled ex-servicemen is increasing and that it will be several years before the peak is reached.

Why You Should Renew Your Membership for 1922 AMERICAN RED CROSS

During the past year, the National Organization of the American Red Cross has spent Ten Million Dollars in assisting the disabled Veteran and his family. This work is being done by 2,398 Chapters distributed all over the United States.

There are 26,300 disabled service men in 1,692 public health service, contract and other government hospitals and soldiers' homes. This number is increasing at the rate of 1,000 a month, and the Red Cross has been told by the Government officials that it will not reach its peak before 1925.

The service rendered to these men by the Red Cross is varied and consists in obtaining medical treatment, compensation and vocational training for Veterans, in furnishing financial aid and care for their families and in providing recreation and assistance of every sort while receiving treatment and training. A Red Cross worker is stationed at all hospitals where there are fifty or more men.

The primary obligation of the Red Cross to-day is to render every assistance it can to disabled Veterans of the War. On account of its wonderful organization, ideals and absolute freedom from questions of race, creed or color, the Red Cross does render a service and get next to the ex-service man in a way that no other organization can.

In addition to the foregoing, the Red Cross is carrying on a National Campaign in Public Health Nursing, Health Clinics and Disaster Relief. All are familiar with the wonderful work done by the Red Cross during the Pueblo Disaster. We may have a disaster in New England and the Red Cross is ready.

NEWTON'S PROBLEM

Three Thousand men from Newton went into the service. The estimated average disability throughout the Country is ten per cent. The known cases of disability in Newton are nearly double this, and there are now registered with the Newton Chapter Home Service Section 516 cases of disability. The General Secretary and two assistants are constantly employed in rendering service in one form or another to these 516 men and families of ex-service men whether disabled or not.

During the past year, the Newton Chapter has been able to help 1,139 families of War Veterans.

The Newton Post, American Legion, refers all cases to the Newton Chapter and is working in close cooperation with us. We quote from a recent copy of the Official Organ of the Newton Post, as follows:

"There is one person in Newton to whom every service man in the City owes a debt, whether they realize the fact or not. We speak of the Executive Secretary of the Newton Chapter, Home Service Section of the American Red Cross, Mrs. Carrie Hull. All who have had occasion to come in contact with Mrs. Hull are unanimous in praising her manner of dealing with cases. She has the peculiar faculty of getting at the source of the difficulty in a quiet manner, and when she is sure of her ground, she goes after results—and gets them."

The Home Service Work of the Newton Chapter is done in a quiet, unostentatious way with little publicity, with the result that few know of the details and the importance of the service which the Chapter is rendering Newton's wounded and disabled soldiers.

This work of the Home Service Section in itself justifies the continued cooperation and support of every loyal American citizen and Red Cross member in Newton.

During the past year, the Newton Chapter has also supplied many hospital garments, knitted articles, pajamas, and convalescent gowns to the soldiers in the various hospitals in the vicinity of Boston.

The Chapter has shipped overseas during the past year to the suffering children in the Near East, over 7,000 garments of various kinds and 600 complete infants' layettes.

Public Health Nursing: The Chapter has given twelve scholarships to students in the Newton Hospital Training School to enable them to take a course in Public Health Nursing. The demand for Public Health Nurses is enormous, and as the Hospital was unable to finance these courses, the Chapter was glad to have an opportunity to assist in this way.

The Chapter has also furnished a trained Public Health Nurse to the District Nursing Association, thus enabling them to broaden their work, which was much needed.

Nursing and First Aid: Classes in these activities are carried on in various parts of Newton and in the schools and will be continued the coming year.

The Disaster Committee of the Newton Chapter is at all times prepared for immediate action. A complete hospital unit of 100 beds is subject to Newton's call at Division Headquarters immediately upon request. A complete list of nurses, doctors, and volunteer workers are on file at the Newton Headquarters. An epidemic of sickness or a great disaster is apt to come upon us at any time. One hundred and seventy-seven Chapters had to meet disaster emergencies the past year. The Newton Chapter is prepared to have in complete operation a 100-bed hospital within 24 hours.

There are three classes of membership this year:

Regular Membership.....\$1.00

Contributing Membership.....5.00

Sustaining Membership.....10.00

Fifty cents of each of the above membership fees goes to the National Organization and the balance stays with the Chapter, to enable it to carry on its work.

From October 1, 1920, to October 1, 1921, the Newton Chapter expended on account of:

The Ex-Service Men.....\$6,774.48

Production Work (hospital garments, layettes, etc.).....2,479.66

Class Instruction (nursing and first-aid).....627.60

Disaster Relief (Hoover Fund).....1,100.00

Public Health Nursing.....2,450.30

Administrative Expenses:

Salaries—Secretary, Assistant; Rent, Light,

Heat, etc.....1,775.36

Miscellaneous Expenses.....220.85

Receipts from Fourth Roll Call.....\$6,552.50

Gifts.....628.50

7,181.00

Excess Expenditures over Receipts.....\$8,247.25

At the beginning of last year, the Officers of the Chapter did not realize that the expenditures were going to be as great as they were, especially for the home Service Work, and it has been compelled to use a large part of a special fund which is held by the Chapter for emergency purposes.

Therefore this year we must ask for as many \$5 and \$10 memberships as we can possibly get, so that the Chapter may pay as it goes and provide for next year's expenses from this year's receipts.

We estimate that the Chapter will require, to carry on its various activities during next year, at least \$16,000.

During the past two years we have asked for \$1 memberships only. We think the foregoing statement justifies our urgent appeal for \$5 contributing and \$10 sustaining memberships this year.

We shall also be glad to receive voluntary contributions to be used only for any special activity carried on by the Chapter.

Memberships taken out in Boston do not go to the credit of Newton. Make all checks payable to the Newton Chapter, American Red Cross, G. M. ANGLIER, Chairman.

DEATH OF MR. FORAN

Edward J. Foran, a sailor and fireman, first class of the U. S. S. Murray, died last Saturday at the Portsmouth, Va., Naval Hospital. Mr. Foran was 21 years of age and the son of Mr. and Mrs. John Foran of Orris street, Auburndale.

The body laid in state all day yesterday with a military guard from Newton Post A. L., and was escorted to St. Bernard's Church, West Newton, by delegations from the U. S. S. Murray, now at the Charlestown Navy Yard, Newton Post A. L. and Co. H. 101st Infantry, and after the services further escorted to Calvary Cemetery, Waltham.

BETTER SPEECH WEEK

Better Speech week was observed in the English classes of both the Classical and Technical High Schools this week by special programs.

Teams of three minute speakers, twenty-five in the classical High School, and fifteen in the Technical High School, spoke at the beginning of some of the recitations on different phases of "Better Speech."

Both schools were addressed on Tuesday by Mayor Edwin O. Childs, and on Thursday by Miss Viola Roach of the St. James Theatre. The latter spoke on "The Joy of a Pleasant Voice."

In both schools on Wednesday there were special programs of "better speech" arranged by the English Departments. In the Classical High School the following took part: Robert Brown, President of the Sophomore Class, Carolyn Cummings of the Junior Class, Theodore Grant of the Senior Class, Alfred Stafford, Captain of the football team. The President of the Senior Class, Edwin Louthrey, presided. An interesting feature was the exchange of pupil speakers of the High and Technical Schools.

In the Technical High School the following took part: Ethel Miller, Sylvia Friedman, Blanche Murphy, Dorothy Smith, Dorothy Black, Mildred Beardsley, Doris Porter, Arthur Connelly, Walter Hannigan, Harry Waters, Alexander Macguire, Martin Hines, Helen Dolmont, Roland Doyle, Alice Hooley and Marie Fayes. In both schools this year, the matter

Boost Your Booster!

Every one loves a booster, but every one is not always ready to boost for his booster.

The booster is supposed to boost because he likes to do it—and in a great measure that is so.

The greatest booster in history, however—the home town paper—must combine with the natural liking for the boosting game, the rewards the simplest rules of business requires for the continuance of the boosting spirit.

The editor of your home town paper likes to be appreciated just as you like to be appreciated.

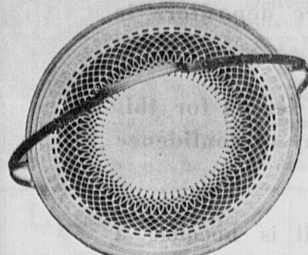

And how better may your appreciation be expressed than by the amount of money that goes through his cash register?

Every one in this town and community will have an opportunity to show appreciation for the home town paper during the week of November 7-12, which will be observed in every state in the Union as

RED CROSS REPORT

(Continued From Page One)

Admiral Robert E. Coontz, U. S. Navy, all addressed meetings and made a strong appeal for the continuance of the splendid work rendered in the past by the Red Cross to the enlisted and ex-service men.

Letters were read from President Harding and General Pershing testifying as to the importance of the work now being done by the Red Cross and urging its continuance.

During one afternoon the Junior Red Cross presented the Pageant, “The Court of Service” in which 2000 children participated. They demonstrated the activities of the Junior Members of the American Red Cross in many directions, emphasizing the slogan “I Serve,” and the ideal “Happy Childhood the World Over.” All the delegates were impressed with the wonderful work which is being done by the Junior Members and the importance of its development throughout the country.

One of the most interesting addresses was that of Mr. J. F. Keating, chairman, Pueblo Chapter, Pueblo, Colorado, who told of the way in which the Red Cross handled the recent flood disaster there. The Red Cross under the direction of its Disaster Committee was functioning within three hours after the flood started. Pueblo was divided into three distinct sections by the rivers and there was no communication between any of these districts. Nevertheless the Red Cross functioned in each district. All contributions of money, clothing and food were handled under the direction of the Red Cross and it is very active in the rehabilitation work which is still going on.

Mr. Keating told Mr. Angier that when he was elected Chairman and was called upon to appoint a Disaster Committee, he could not conceive how Pueblo could ever meet with a disaster and that he was afraid that the Committee would have very little to do. Within three weeks from the time they were appointed, the Disaster came.

In the Southwest Division during the past year the Red Cross has been called upon to render service in 58 disasters of various kinds and the consensus of opinion was that no community is exempt from the possibility of a disaster and that the Red Cross Chapters should always be ready to meet any emergency.

Great emphasis was also placed by the speakers and delegates upon the Red Cross Nursing Service and Public Health Nursing. In many parts of the country, especially the rural districts, this is one of the principal activities of the Chapters.

One interesting exhibit was a traveling Baby Clinic used by one of the Chapters in a rural community. This was a large van which was thoroughly equipped with everything necessary for the doctor and nurse in carrying out the work of a first class, up-to-date Baby Clinic. This van travels from village to village, spending one day a week in each village. The best evidence of the success of this Baby Clinic is the fact that each week the number of mothers bringing their babies to be weighed and seeking advice as to their care is constantly increasing.

It was the unanimous opinion of those delegates attending the Health Service Conferences that every community should have a Health Centre and where one was not already established, the local Red Cross Chapter should undertake to have one established and if necessary direct its operation.

At this splendid gathering, the work of those loyal men, women and children who are keeping the Red Cross flame burning in the most remote parts of the country, was endorsed in the most emphatic manner by statesmen, educators and leaders in every line of thought and activity. Speaker after speaker, all of nation-wide prominence, praised the Red Cross in the most glowing terms, eulogizing its remarkable record in the war and the humane activities of its permanent program and voicing the hope that each year would see “The Greatest Mother” counting her children in increasing numbers. They were unanimous in their opinion that the Red Cross was one of the finest things in American life.

Services were held on Wednesday at the home of Mrs. Howard M. Biscoe on Lake avenue for Mr. Thomas Benton Sillway, father of Mrs. Biscoe, who died on Sunday in Framingham. The services were conducted by the Rev. George T. Smart, formerly of the Congregational Church in this village. Union services will be held at St. Paul's Church on Armistice Day from 11.45 to 12.45. Dr. Woodrow of the Congregational Church, Mr. Cassidy of the Methodist Church, and the Rev. Theodore S. Ludlow of St. Paul's Church will take part. From 10-4 P. M. there will be continuous intercession. At 7.30 there will be a service at which the service flag will be lowered by representatives of the G. A. R. and of the World War.

GRIFFIN'S OVERCOATS ARE THE SEASON'S SENSATION

The enormous success of our fur department has temporarily overshadowed our overcoat department. But the time is now ripe for overcoats and we desire to call the attention of the men and women of New England to the extraordinary values in overcoats to be found at our store. The prices, also, will be a most agreeable surprise.

We are stocked with a full line of our famous Wellesley brand of overcoats for women. These swagger mannish coats are in a class by themselves. In all the most popular shades and colors. For style, quality and wear there are no better coats made today.

\$50,000 CONTRIBUTED BY REPUBLICAN WOMEN

To the Editor of The Newton Graphic:

The press a few days ago printed an account of the alleged proceedings of the Republican State Committee meeting at which the resignation of Francis R. Bangs as Treasurer was accepted. Mr. Bangs has been, and is, a decided asset to the party organization and his insistence upon his resignation is deplored by all members of the committee. The idea might properly be drawn from the press accounts that the Women's Division was spending too much money; indeed one account used the word “extravagance.” The thought is so far from the truth that the erroneous idea, if it exists, should be corrected. I was Chairman of the Committee in 1919-1920, and had some slight part, I believe, in assisting in organizing the Women's Division. As now completed it ranks not only first, compared with other states, but, as former Chairman Hays once said to me—“in a class all by itself.”

The women of Massachusetts contributed approximately \$50,000 to the Republican Party last year. It cost a little over \$25,000 to build the Republican women's organization from the ground up. This included a State Committee of 40 and a complete organization in every city and town throughout the Commonwealth, with the exception of five small towns which were so strongly Republican that a committee was deemed unnecessary.

This splendid organization is largely the result of the work of Mrs. James D. Tillinghast, the present Executive Chairman of the Women's Division. The women have spent since January 1, 1921, a little over \$7,000. As a matter of fact, therefore, the Republican women of Massachusetts have financed themselves since their entrance into politics. They are now arranging for a bazaar from which they hope to realize enough to carry their work through the campaign of 1922 and 1923.

The thinking men of our party earnestly desire to deal generously with the women. Constant organization, meetings, lectures, literature and similar activities are very necessary. To curtail now is suicidal. The men have been organized and voting for 135 years, the women only 13 months. Their vote will equal and probably surpass the men at the next election.

My experiences of 12 years as a member of the Republican State Committee show me that for earnestness of purpose, sacrifice, vision and careful expenditure of funds, the men must bend the knee and doff the hat to the women. Our desire is of course to deal with them justly, and by so doing clinch Republican success at the ballot box.

FRANK B. HALL.

Paul Moody, president of Middlebury College, Vt., son of the noted evangelist, will speak and Mr. Maurice Quinlan will give two solos. There will be Community Singing and it is hoped there will be a large attendance.

—In connection with the permanent Memorial to the Service Men from Newton Highlands, an earnest effort is being made to have the list of names to appear on the Memorial complete and correct in every particular. The list, which now contains 188 names, is posted on the grounds in front of the Hyde School, and the committee will be glad to receive information or suggestions as to any changes which should be made. Send to Mrs. L. H. Marshall, Hartford street, Newton Highlands, who has the list in charge. Interesting information regarding the design of the Memorial and the general plans of the Committee will be announced later.

DEATH OF MR. SNYDER

Mr. Elwyn E. Snyder, one of the best known men in the city, died at the Massachusetts Homeopathic Hospital in Boston last Sunday morning following a brief illness, although he had not been in good health for the past year.

Mr. Snyder was born in Bedford, P. Q., Jan. 9, 1863, and was the son of Lasein H. and Maria A. (Johnson) Snyder. He came to the United States about 40 years ago and has been a resident of Newton for about 38 years.

For some years he was engaged in the express business and was at one time a partner with Mr. Charles G. Newcomb. Subsequently he went into business with his father-in-law, the late S. O. Thayer, dealers in kitchen furnishings, stoves and furnaces, from which he retired about one year ago.

Since that time he has been the custodian of the Masonic hall property at Newtonville.

Mr. Snyder was a past master of Fraternity Lodge of Masons, and tiler of Dalhousie and Norumbega Lodges, and of Newton Royal Arch Chapter, sentinal of Cryptic Council, R. & S. M. and of Gethsemane Commandery, Knights Templar, a past master of Mt. Ida Council, and a member and tiler of Palestine Chapter, Eastern Star. He was also a member of the Royal Arcanum and of the Fraternal Aid Union.

He is survived by a son, Elwyn E. Snyder, Jr. who is a chemical engineer of Syracuse, N. Y.; a daughter, Miss Margaret Snyder, of Amherst; a brother, George H. Snyder of Newton, and two sisters, Mrs. M. L. Elias of Concord Junction, and Mrs. Stewart Simmons of Hartford, Vt.

The funeral services held on Wednesday afternoon in the Masonic apartments were attended by a large number of friends and members of the organizations to which he belonged, and the flowers were both numerous and beautiful. The brief, but impressive services were in charge of Rev. M. H. Lichtner of the Central Congregational Church. The pall bearers were Messrs. William A. Richardson, Harry E. Bryant, William S. Osborne, Alfred E. Allen, Walter A. Brooks, Herbert E. Smith and Charles E. Fogg, the presiding officers of the Masonic bodies of which Mr. Snyder was a member.

The body was later cremated at Mt. Auburn.

Tenney of Canton, Mass., who saw continuous service with our forces in France as a medical officer. There will be some novel features of interest to all members and friends. A large attendance is anticipated.

—Mrs. Florence N. Merriam Cotton, wife of M. M. Cotton, died at her home on Court street on Monday in her 59th year. She leaves her husband and one daughter, Miss Helen Cotton. Services were held at her late residence this morning at 11 o'clock. Rev. Edward T. Sullivan of Trinity Church, Newton Centre, officiating, and the burial was at Mt. Auburn.

Water and Electricity.

The bureau of standards says if a stream of water from a hose is thrown upon high tension wires at close range there is considerable hazard from the possible conduction of electricity by the stream of water back to the men holding the nozzle. If, however, the stream of water be thrown from a distance such that the water breaks up into drops before coming in contact with the electrical conductors, there is little danger, as such a stream of water is nonconducting.

"Association of Ideas."

This phrase seems to have been used first by John Locke, an English philosopher, who lived in the seventeenth century, but the facts related to were recognized as early as the time of Aristotle, when four ways by which the mind passes from one idea to another were discovered. These were known as association by similarity, by continuity, by contrast and by succession.

WOMEN'S CLUBS

GRACE M. BURT, Editor.

The eyes of the whole world are upon the United States, and especially upon Washington, as with pomp and ceremony we lay away the "Unknown Soldier" upon this Armistice Day. Not so much, perhaps, on account of our national tribute to all those who risked or laid down their lives for the safety of the world, as for the outcome of the great conference to convene tomorrow. As truly of our own capital may it be said, as did the poet sing of Bethlehem of old,
"The hopes and fears of all the years,
Are met in thee tonight."

For it would seem that the fate not of one country alone, nor even of one hemisphere, but of the whole world hangs in the balance. To the lay mind it may appear a fairly simple task to come to some international agreement, but to those versed in the intrigues, in the jealousies, in the secret understandings, it looms gigantic and well-nigh impossible. Public opinion—that very subtle thing—so far as this country is concerned, is gradually shifting toward the side of a durable peace which shall lift the world from out the burden of armaments. When, as now, more than ninety-three percent of all national expenditures goes for wars past and present, and the mere pittance of a six percent to the carrying on of the whole republic, we are beginning to realize that the time is ripe for something to be done. We shall doubtless be disappointed in the outcome of the conference, but let us deep down in our hearts hope and pray that those who participate in it may be guided by the principles laid down by the world's Prince of Peace.

Local Announcements

"Civic Investments" will be the subject treated by Mr. Leon B. Rogers at the first of the series of Round Table Conferences of the Home Economics Committee of the Newton Community Club on Monday morning, November 14, at the Hunnewell Club. As these conferences are limited to club members, those attending must show their club membership tickets at the door.

The Newton Highlands C. L. S. C. will meet on Monday afternoon with Mrs. E. G. Swift of Woodcliff road. Miss Mary E. Hyde will be in charge of the study of Dante's "Purgatorio."

The Monday Club of Newton Highlands meets with Mrs. F. A. Campbell of Jackson street, on November 14, "Old New England Customs and Fashions" is the subject assigned, and plans are being made for a very attractive afternoon.

Miss Susie C. Johnson, 84 Grove street, will be hostess for the meeting of the Christian Era Study Club next Monday. Continuing the subject of The Great Puritan Movement, Mrs. N. G. Grant will consider "Laud and Strafford," and Mrs. Case, "Pym Hampden."

"What Every Good Citizen Should Know," is the subject of the lecture, which Mrs. Emma Fall Schofield will give before the Abundant Club on Tuesday morning, Nov. 15, at the home of Mrs. Thomas B. Scott, 144 Hancock street, the Missionary Home. Mrs. Schofield's position as a lawyer fits her to speak with authority, and she will undoubtedly bring out a large audience.

"Capri" and "Sardinia" will be the subjects for study at the next meeting of the Travel Class of the West Newton Women's Educational Club on Monday, November 11th, at the home of Mrs. Henry K. Burrison, 26 Lincoln park, West Newton.
The first luncheon of the Home Economics class will be given on Thursday, November 17th, at the home of the leader, Mrs. William D. Keefe, Prospect street, Newton Lower Falls.**Try Our "Spotting & Pressing Service"**

The Woman's Club of Newton Highlands will meet on Tuesday, November 15th, at 2.30 P.M., in the Congregational church vestry. The Art Committee will be in charge, one of whose members, Mrs. Ward I. Cornell, will give "The Practical Application of Home-Dyeing to Textiles," with a platform demonstration in Batik and Tied and Dyed. Mr. G. Roberts Langer will sing, and tea will be served by the Social Committee.

On Tuesday, November 15, the Newtonville Woman's Club will observe "Newton Hospital Day," with Mrs. Charles J. Wilson as chairman of arrangements. Mrs. Wallace C. Boyden will speak upon "The Aims of the Club," after which Miss Mary M. Riddle, superintendent of the Hospital, will make an address. Mrs. W. F. Ferrin will sing a group of songs. There will be a silver offering for the benefit of the Nurses' Library. The annual donations of jellies and preserves will be received, and there will be the annual exhibition of the Needlework Guild. A social hour with tea will close the afternoon.
The hallways of the club will hold its first meeting on Thursday, November 17, at 10 A.M.

"Open Night" is an annual custom of the Abundant Woman's Club, when the club opens its door to the community, offering a lecture of general interest in the largest auditorium of the village, the Congregational church. Wednesday evening, November 16, at 8 o'clock, is the date selected this year, and Edgar A. Guest, whose verse has made a universal appeal through their human touch, will read from his own poems. A cordial invitation is extended to those interested.

Miss Nellie Skillin, of Radcliffe College, will speak before the Newton Social Science Club on Wednesday morning in the course upon Russia, on "The Ivan Dynasty."

The Community Service Club of West Newton will omit the all-day meeting scheduled for Wednesday, November 16.

At the monthly meeting of the Newton Centre Woman's Club on November 17, at 2.15 P.M., Dallas Lore Sharp will lecture upon "Education for Authority." Professor Sharp needs no introduction to a Newton audience.

Local Happenings

Mrs. Grace M. Poole in her lecture last week before the Newton Community Club said that, if the coming Washington Conference on Armaments fails, it will be because the various nations in this world house-cleaning are unwilling, like the homemaker in her annual house-cleaning to throw away the things for which they have no further use. Besides discussing the numerous factors entering into this conference, Mrs. Poole reviewed the work of the present Congress during the summer months.

"Practical Suggestions for the Home Dressmaker" was the subject discussed by Mrs. J. R. Draper of Abundant at the last meeting of the West Newton Women's Educational Club. She emphasized especially the value of good equipment and good patterns as a means of saving time and labor, and made many helpful suggestions.
A sale of home cooked food in charge of Mrs. F. E. Nowers at the close of the meeting netted a substantial sum.

A delightful afternoon was enjoyed by the Waban Woman's Club last Monday. After a business meeting Mrs. Alice Allen Drayton sang a group of songs. The speaker of the afternoon was Dr. MacGregor Jenkins, and his subject, "Literature with a large L." Tea was served during the social hour.

On Monday afternoon Miss Charlotte Conant of Walnut Hill School, Natick, spoke before the Newton Mothers' Club entertainingly upon "The Education of Girls in China and Japan." Mrs. C. E. Benson, at whose home the meeting was held, had associated with her as hostesses, Mrs. Stanley Bolster, Mrs. Blunt of West Newton, and Mrs. Bright of Newton Centre. The usual social hour closed a most interesting meeting.

The members of the Woman's Club of Newton Upper Falls on Monday evening listened to a very interesting talk by Mrs. Lillie Fuller Merriam in which she told of her trip the past summer to France. Mrs. Merriam, like many another mother, visited the places where her son had been, and so was able to bring to her audience many intimate things in the life of the French people. She also showed many souvenirs in the way of pictures, an iron cross, bullets and the like.

At the meeting of the Current Events class of the Newtonville Woman's Club on Tuesday, Mrs. Grace M. Poole spoke upon the Irish Question, and went into detail upon the Railroad Situation.

A full account of the Home Economics Conference, under the auspices of the Newton Federation on Wednesday, will appear in next week's issue.

MR. AND MRS.

What wonderful thoughts come up when these two abbreviations are printed in a news item—intense human interest these portray.

In the country weekly paper, they take the one big place in all news items, from the simple visit to relatives, to the larger matters of human life.

"Mr. and Mrs."—the great news item of the universe, the bringer of recollections to the man far from home, who takes his old home town paper and reads the items of Mr. and Mrs., and lets his mind wander back to the days when he knew the Mr. and Mrs. in knee pants and shall we say, short skirts.

It's the home town paper where the real Mr. and Mrs. news item occurs, and to receive the home town paper week in and week out is to know the great happenings of the world, the doings of Mr. and Mrs.

THE REPERTORY THEATRE

There are those who are wont to decry the times in which we live, especially in regard to amusement, and there is much to be said on their side. Certainly there are many elements of discouragement in the situation.

There are, however, to be found some hopeful signs, particularly in regard to the theatre. One of the most hopeful of these is the existence of the repertory theatre which the Henry Jewett Players have established in Boston.

The people of Newton who have ever been in the forefront of every great movement, are standing behind Mr. Jewett and his company. One hundred and eighty-three citizens of Newton have joined the Francis Jewett Repertory Theatre Club with the double object of aiding the company to obtain permanent quarters so that they may continue their work in Boston, and of educating the public to an appreciation of the value of the work itself so that they may continue their work in Boston.

They realize that repertory work best expresses the thought of the audience in that it gives to each part great or small, that careful attention which makes "the play the thing." They also realize that a theatre where a company of competent players present the best examples of dramatic art, is of great value both to the city in which it is housed, and to the cities and towns of the immediate vicinity.

Such a theatre is also of inestimable value in the way of Americanization, for here the foreigner may learn the language and customs of his adopted country naturally and unconsciously.

John Drinkwater, who brought out his great American play, "Abraham Lincoln" in his repertory theatre in England, wrote to the President of the Francis Jewett Repertory Theatre Club, "It is only by such movements as these that health is being restored to the theatre."

A pastor in a neighboring town writes that the repertory theatre movement is a powerful agent for a more efficient and beautiful civilization, and that the churches, schools, and homes, have in this movement a powerful and sympathetic ally.

Among the list of Founder Members of the Francis Jewett Repertory Theatre Club we are proud to note the names of J. Weston Allen, Mr. Fred R. Hayward, and Mr. Seward W. Jones of Newton Highlands, and Mr. Henry B. Day of West Newton, and among the benefactor members, that of Mr. Philip W. Carter of West Newton.

D. A. R.

The next meeting of the D. A. R. will be held next Monday at 2.30 at the Lucy Jackson Chapter House. Mrs. B. M. Sherrill of Brookline and Marshfield will speak on "The Pilgrim Tercentenary." Miss Sherrill will sing some of the Pilgrim songs in costume. Mrs. Sherrill was chairman of the Marshfield Tercentenary Committee, and the float from that town took the first prize.

Save Coal—Kerosene is Cheaper

THIS fall—make your home cozy and comfortable with a Perfection Oil Heater. It will provide warmth just where and when you want it, and it will save you from starting your furnace before it is really needed.

The Perfection is so simple and easy to operate. Just the thing for the children's bedroom on those sharp, frosty mornings! And it can be carried easily

to any other room in the house, where extra heat is needed.

It saves lighting the furnace before the real cold weather starts, and it is most economical as compared with coal.

Sold by hardware, housefurnishing and department stores, in blue or black finish, with or without nickle-trimmed. Ask your dealer to show you one.

For best results use Socony kerosene.

TEN COMMANDMENTS FOR THE HOME TOWN

Fred Eastman in Sanford (Fla.) Herald

I. Thou shalt love thy home town above all other towns. Thou shalt be loyal to her people and to her institutions.

II. Thou shalt guard thy home town from the hosts of evil that would invade and destroy her soul. Thou shalt keep the good name of thy home town clean and without stain or blemish.

III. Thou shalt elect as thy public servants in political office men of strong character, eager to conserve the best interests of thy people. And when thou hast elected such men thou shalt stand to support and encourage them, for their temptations are many and their burdens are not light.

IV. Thou shalt exalt thy public school and honor it all the days of thy life with the best of teachers, building and equipment, for the school is the cradle of the future. Thy children are here and they shall be the children of tomorrow. No training is too good for them and no preparation superfluous.

V. Thou shalt defend the health of thy home town from the death that lurks in marshes, swamps and heaps of filth. Thou shalt exterminate the fly and mosquito, for they carry typhoid and malaria. The tubercle bacillus shalt thou drive before thee with the sun and fresh air as thy allies.

VI. Thou shalt build good roads and keep them good. For by her roads is a town known for good or ill. Eternal watchfulness shall be thy motto, that thy roads may not ravel nor thy supervisors forget thee.

VII. Thou shalt keep thy home town beautiful. The hills, the trees, the waters that Nature has given thee thou shalt preserve in sacred trust. No hovel shalt thou permit to disfigure them. Thou shalt keep thy homes and door yards clean and cheerful. Thy waters shalt thou purify that they may bring thee life and strength. The future of thy town shalt thou plan with care and diligence that thy growth be not haphazard, but full of thought and loving care, as the plans of a mother for the growth of her child.

VIII. Thou shalt honor thy community institutions. Thou shalt work together with thy neighbors with all thy heart and strength and mind. Thou shalt work together in thy organizations and clubs for the common welfare. Thy leaders shalt thou learn to obey. Thou shalt serve on committees where thou art put and not intrude on committees where thou art not put. Thou shalt know each other better, thy work shall prosper, and thy friendships shall multiply.

IX. Thou shalt be a good neighbor to all who live in thy home town, whether they be rich or poor. Thou shalt speak ill of none and good of many. Thou shalt be a friend to strangers and visit the sick in their affliction.

X. Thou shalt go to church for the honor of thy home town and for thine own good. Thou shalt not consider thyself too wise, too busy, too bad not to go, to spend an hour or two on Sunday with thy neighbors in the worship of God. Thou shalt not send thy children to church. Thou shalt bring them there. Thou shalt offer thyself to spiritual leader for the service of God and thy community. So shall ye win many battles together.

The entertainment committee of the Auburndale Club has arranged an excellent ball program for November and December. On Tuesday, Nov. 15, the members will be entertained by Orrin C. Bourne, Chief Deputy Game Warden, who will speak on "Fish and Game Preservation in Massachusetts." Refreshments will be served. Mr. Bourne is personally known to several of the members of the club and he is an exceptionally interesting speaker and is regarded as an authority on his subject.

The entertainment committee has planned a "Surprise Night" for Wednesday, Nov. 30. None but members of the committee know the program for this night and some sensations are promised. On Wednesday, Dec. 7, there will be a Plain Whist party for men and women. The Club Christmas Tree party will be held on Wednesday, Dec. 21. Those who attended this affair last year are all making reservations for this night as the affair promises to be "the best ever."

An automobile wreck is so common nowadays that it doesn't often get into print unless it also wrecks a family.

There is only one source of pleasure that never grows stale and it is the help you give to others.

WILL BOOST HOME PAPERS

Week of November 7-12 Set for Nation-Wide Endeavor.

"Subscribe to your home town paper."

This is the slogan of a new nationwide movement backed by the National Editorial Association and other agencies.

The movement has back of it far more than a selfish desire on the part of newspapers to acquire increased circulation, for it is, in effect, a step toward the perfect unification of America by the strengthening of ties that bind everyone to his native soil.

The campaign is, moreover, an excellent opportunity to boost the home town. The men and women who were born and reared here have, some of them, been away for many years and many important changes have taken place—changes in which they would be greatly interested. It is more often the case than not that private correspondence overlooks these changes, however carefully one might attempt to write "the news" in a letter.

The newspaper, on the other hand, prints all the items of interest, large and small, and is the ideal medium through which to keep in touch with in the old home town.

Towns Need Eye Opener.

Said a New York state business man the other day: "There is hardly a town in the country that does not need to have its eyes opened to the kind of work its newspapers do, week in and week out, and year in and year out, with rarely if ever a word of public appreciation and backing."

"WASCO" PROVING ITS EFFICIENCY

"Wasco" an efficient and economical coal-burning, hot water, self-regulating garage-heating system solved the winter driving problem for motor car owners and drivers. With a "Wasco" in the garage the car is always ready to start without the slightest delay. Frozen batteries or water cylinders are unknown in the "Wasco"-heated garage. This remarkable heating system and winter motor trouble eliminator is manufactured for private garages, "Wasco" heating systems are made in stock sizes and are particularly designed for private and community garages. The one-car system is just the proper size for the average one-car garage. For larger garages there are two, three, four, five to ten-car systems.

Another feature of the "Wasco" is its simplicity and ease of installation. The "Wasco" system is shipped in five packages. A wrench and screw driver are the only tools necessary for installation and any handy man can install it in a few hours. The regulator automatically controls the drafts and compels a constant, uniform temperature in all kinds of weather. Because it is regulated by the expansion and contraction of the water in the system, the "Wasco" requires only a few minutes' attention daily.

Practical demonstration of the efficiency and economy of the "Wasco" can be had at Burditt & Williams Company, 160 Federal street, Boston, Mass.

CHAMBER OF COMMERCE

President Horace A. Carter of the Massachusetts State Chamber of Commerce, a member of the Governor's Executive Council and one who is well qualified to discuss matters of timely interest in connection with chambers of commerce activities, as applied to the state as a whole or its respective communities, will be the principal guest and speaker at the meeting of the Newton Chamber of Commerce, at the Newton Club, Newtonville, on Tuesday evening, November 15.

In addition to the address by Mr. Carter, there will be a short business meeting, the presentation of a report by the new secretary, and a general discussion of the tentative plans for the reorganization of the Newton Chamber. It is hoped that a frank expression of opinion by many of those present will assist to determine just the type of organization that is most needed and most desired in Newton.

Dinner will be served at 6.30 o'clock with the meeting to immediately follow.

MRS. PUTNAM HONORED

Mrs. Frederick Huntington Putnam of Brookline and formerly of Waban, a gold-star mother, has been chosen to represent Massachusetts at the Armistice Day ceremonies in Washington, D. C., November 11, 1921.

Governor Channing Cox, who is unable to attend the exercises because of duties in this State, obtained permission from the Secretary of War to appoint Mrs. Putnam.

Mrs. Putnam is the mother of First Lieutenant David E. Putnam, of the 139th Aero Squadron, who was killed in action in France. The young aviator was awarded the Distinguished Service Cross, the Croix de Guerre with Palms and Stars, the Medaille Militaire, the Cross of the Legion of Honor, the American Aero Club Medal, and other decorations. The French Government named a battleship after him.

REAL ESTATE NEWS

John T. Burns & Sons report that they have sold for James W. French a block of stores in West Newton Square numbered from 1255 to 1279 Washington street corner Watertown street. This property consists of 7 stores which, together with 13,500 feet of land, is assessed for \$25,400. The purchase price was in excess of the assessment. Charles Prescott purchases for investment.

Burns & Sons also report that they have sold for C. B. Shattuck her two-family, frame house located at 449 Washington street, Newton. With the house, there are 5000 square feet of land and the total valuation is \$8500. Mary Cronin purchases for \$5500.

MR. GIBBS HAS RIGHT IDEA

The Boston Herald recently said: Louis D. Gibbs, to whom electric lighting plants are no more mysterious than the Einstein theory to Prof. Einstein, and who is very likely the tallest man in the business, went to Buffalo Thursday night, where he spoke before the Buffalo Electric Club on the place of a business man in his home town. It is Mr. Gibbs's idea that the business man owes something to the town that provides him his livelihood—the opportunity to make his livelihood—and that after his day's business is done he ought to do a little something, now and then, for the town. Good idea.

MR. TELLER BURIED

Newton Cemetery Chapel was filled Saturday afternoon with golling devoted to paying their final tribute to Louis Teller, the Brae-Burn professional, who passed away last week. The services were conducted by the Rev. Frederick Nicholson, and the burial was at the Newton Cemetery.

REAL ESTATE

Edmonds & Byfield report the sale of the property No. 156 Waverley avenue, for Dorothy B. Lockwood of Newton, to Edith J. Diman. Property consists of modern stucco dwelling, garage and lot of about 8000 sq. ft., all valued at \$16,000. Mrs. Diman buys for a home.

REAL ESTATE SOLD

I am pleased to call the attention of the citizens of Newton through the columns of the Graphic to one of the most important real estate sales which have taken place in the city of Newton in the last 100 years. The property in question is the old May estate at the corner of Centre and Jefferson streets, Newton Corner. One year ago I sold a portion of this estate including the old mansion house and about 7500 feet of land; Mrs. John F. Cahill being the purchaser. The house has been thoroughly remodelled and is now housed in a very sense, with the addition of a modern two-car garage. Mrs. Cahill with her family undoubtedly will make the estate their permanent home.

Now comes the sale of the balance of the estate, including about 15,500 feet of land with a frontage of about 130 feet, on Centre street, and about 140 feet on Jefferson street. The above estate is one of the most centrally located, conspicuous and easy of access for business purposes of any location in the city of Newton. One year ago it was planned by a Boston syndicate to improve the above corner with a large three-story building, covering the entire lot; the architecture of the building called for basement for billiard and pool room, bowling alleys, barber shop, etc.; street level, theatre and stores; second floor, halls, offices, etc., with modern apartments on the third floor. The project fell through on account of the labor difficulties early in the year. Now comes the actual sale of the property. It was the first intention of the purchaser to improve the property by erecting a block of ten stores, but a more careful consideration of the situation inclines him to consider more favorably the original plan of improvement. In any event the proposition should be of great interest to the business community of Newton Corner in that it will supply many new, modern, up-to-date stores and apartments at reasonable rentals. I am authorized and requested by the owner to invite all who may be interested in this undertaking to call and express their views as to what kind of a building would best serve the best business interests of the Newton Corner section of Newton. A free expression of opinion will undoubtedly have much influence in the final architecture of the building.

M. O'CONNOR, 277 Washington Street, Newton, Mass.

BOY SCOUTS

The second sitting of the Council Court of Honor, Boy Scouts of America was held in the Scout Room of the Newton Highlands Congregational Church last Monday evening, November 7 at 7.30. The public having been invited a large number of parents and friends of the scouts were present besides others who were interested in the work of the Scout Troop in Newton Highlands.

After the preliminary exercises of a regular troop meeting Scoutmaster Frank E. Lichtenhaeler of 37 Waldorf road, in a few appropriate words welcomed the Troop Committee of which Mr. Edward S. Drowne is the chairman, parents and friends of the scouts, and the Officers of the Council. He also explained in detail what it meant to scouts to have passed tests such as the Court of Honor demands and then turned the meeting in to the hands of Scout Executive Sharratt and the Court of Honor. The Court of Honor members were Mr. Everett W. Varney, chairman, Newton Centre; Mr. John H. Eddy, Newtonville; Mr. Charles H. Woodworth, Newton, and the Scout Executive. Scout Executive Sharratt explained the function of the Court and stated that all scouts to receive awards had already been examined by members of the Board of Examiners. The present ceremony was not only for the benefit of the Council but also for the boys and parents who should care to honor the occasion with their presence. He declared that the public was always welcome to the Court of Honor Ceremony wherever it is held. The following awards were made by the Court of Honor:

Merit Badges

To Scout Albert Greaves of Troop 6, Newton—Craftsmanship, Carpentry, Firemanship and Swimming.
To Scout Charles E. Barba of Troop 11, Newton—Personal Health.
To Scout Charles P. MacIver, of

Troop 4, Newton Highlands—Personal Health and First Aid.

To Scout Franklin K. Hoyt of Troop 7, West Newton—Bird Study.

To Scout Lawrence E. Bunker of Troop 2, Wellesley—Scholarship.

To Scout Rober Rees of Troop 11, Newton—Cooking and Carpentry.

To Scout Lloyd Hazen of Troop 4—Newton Highlands, was presented the coveted honors and badges of Life and Star Scout. Scout Hazen has almost reached the top of the ladder in Scout Work. The last and highest rank is that of Eagle Scout which he hopes to secure before the scout year closes.

The following badges were awarded to:

First Class

Scout Albert Greaves of Troop 6, Newton.

Second Class

Scouts Samuel Pattee, Philip Lingham, Frederick Hill and E. Vernon

all of Newton Highlands—Troop 4.

Scouts William Pearce, Monroe Soche, Leslie Morton, and Henry Pambookian, all of Newton Corner—Troop 11.

Scout Joseph W. Smith, Troop 1—Newtonville.

Tenderfoot

William H. Locke of Newton Highlands.

Scout Program

Following the Court of Honor Troop 4 presented a short demonstration of Scout work for the entertainment of visitors. The first was "Three Grades in Bugling" showing how the scouts are trained and advanced in the fine art of bugling. This was presented by Scout Barnes, Pattee and Suley.

First Aid work with John MacIver as the victim was a credit to the scouts ability to perform such work. Scout Patterson bandaged and splinted a supposedly broken leg, Scout Colin MacIver bandaged the victim's right foot, Scout Hazen applied a spiral reverse bandage to the left arm.

Scout Pattee had the job of putting the right arm in a sling, and Scout Boothby finished the medical aid by bandaging the victim's head. When completed every one agreed that the patient was in truth a victim, and that the boys deserved great credit for their splendid First Aid.

Scout Charles MacIver demonstrated the method of making fire without matches, a lost art as far as the general public goes, but otherwise with scouts. He succeeded in making fire by friction in a very short time.

Scouts Patterson, Hazen, with Scouts Cobleigh and Clark as patients demonstrated the Schaefer Method of Resuscitation.

To conclude the program two teams were formed and a Compass game was demonstrated showing how scouts are not only trained in quickness of thought, especially in the mental processes of association, but also in obedience to commands.

Scoutmaster Lichtenhaeler at this point presented three suggestions for future advisement, namely: Troop Credit System to extend to Sunday School and Public School attendance, etc.; That Scouting is valuable for the Older Boy; and last that the Scout Mothers should form themselves into a Ladies' Auxiliary for the interests of the troop, and working through the Troop Committee. The chairman of the Troop Committee is Mr. Edwin S. Drowne, of 32 Lakewood road, Newton Highlands.

With the repeating of the Scout Oath and Law and a few remarks by Mr. John H. Eddy upon what they mean to every scout, the troop pledged its allegiance to the flag, saluted the Council Officers, was dismissed by the Scoutmaster after Bugler Studley had closed the occasion with the blowing of Taps.

When a man's trying to deceive himself, he always thinks it necessary to make a lot of explanations to his friends.

SCHOOL NOTES

Edited by Dorothy Drake

Peirce School

The members of the baseball team are as follows: Pasquale Gianfrante, John Hart, John Sherman, John Ford, William Stumph, Charles Stefan, Alfred Tedesco, Augustus Gadsden and Charles McVarish. This team has so far only played one game. This was with the Bigelow School. The score was 6-5 in our favor.

Edgar Crosby, a 1914 graduate of the Peirce School, is now in his second year at Harvard college. He is playing on the varsity football squad.

Horace Cole graduated from the Peirce School in 1916. He is now attending Andover preparatory school. He is captain of the hockey team, and manager of the football team.

Inez Larson, a former graduate of this school, has this year begun her career as a "gym" teacher in Detroit.

Charles Laffie, a graduate from the Peirce School in nineteen fifteen, is now employed in the United Fruit Company in Cuba as a private secretary.

Louise Duane graduate of the class of nineteen sixteen and graduate of the Classical High in nineteen nineteen has entered the Boston School for Physical Training.

Lasell

Many guests attended the delightful "at home" which the faculty and students of Woodland Park gave on Friday afternoon.

Chrysanthemums and autumn foliage formed the decorations which were very lovely.

Mrs. McDonald, Miss Nichols and Miss Bunting received from 4 to 6, and Mrs. Furlong and Mrs. Towne presided at the tea table. The young students served with much charm and dignity as ushers and assistant hostesses.

Vespers on Sunday afternoon were in charge of Dr. Drew of the Congregational Church. Instead of the vespers at the usual time tomorrow it is to be held at 2.15 when Dr. Arthur E. Holt will speak to the student body. Dr. Holt is one of the delegates to the Golden Rule Conference which is being held in Boston this week.

The students are deeply interested in the splendid work that is being done in the American hospital at Rheims and a number are planning to attend the concert at Symphony Hall on Monday evening, which is to be given for the benefit of that organization.

For a number of years Dr. Leon Vincent has delivered a series of lectures at Lasell, this morning the students had the privilege of hearing him for the first time this year, when he spoke on Robert Louis Stevenson.

N. H. S.

The English Department of the Classical High School entertained the English Department of the Technical High in the Assembly Hall on Tuesday, Nov. 1st. Afternoon tea was served, followed by a "Round Table."

The Sophomore Class of the Classical High School have chosen their class rings at a recent meeting.

Every other Tuesday the teachers of the city attend a series of lectures on the "Junior High School" by Prof. Inglis of Harvard. At the last lecture over 250 teachers were present.

There have been a number of students writing stories for the annual Traveler Short Story Contest.

Armistice Day was observed yesterday by an address to the senior and junior classes in the morning by Rev. Dr. Edward T. Sullivan and an address at noon to the sophomore and freshmen classes by Rev. Dr. M. H. Lichliter. Edward Loughery gave a declamation at both these exercises.

On Monday, Nov. 7th, the Classical Sophomore team was beaten 43-0 at Brookline by the Sophomores of that school.

The inter-class football games have been very interesting this year as the teams are so even. On Monday, Nov. 7th the Technical Juniors beat the Sophomores 20-12.

"Better Speech" week is from Nov.

7th to the 11th.

This year the program is very elaborate, and speakers go from one class to another each period and give a talk on some phase of this national movement for good English. On Tuesday, Nov. 8th, the Mayor spoke to students of the Classical and Technical High Schools in reference to "Better Speech."

Arrangements have been made for a concert by the Boston Symphony Ensemble at the High School on Friday evening, November 18th. The purposes of the concert cannot be better explained than by quoting the following statement by the Ensemble:

The Boston Symphony Ensemble has been organized in pursuance of a fundamental educational purpose. The members of this organization are individually well-known to the public, and are connected with the Boston Symphony Orchestra, which consequently represents the highest possible standard of excellence in musical performance.

—Beggars in Constantinople.

—And then the beggars! They are at every turn in Constantinople. For the most part, they are Armenians. They follow a person for great distances, whining and crying. Some of them carry deformed babies, probably rented, as it seems unlikely that every beggar could have a deformed child. Many make their children lie in the street on wet pavements and pretend to be asleep to excite the pity of the passerby and thus secure alms.

—Giving 'Em a Sample.

"Ladies and gentlemen," said the chairman of the evening, "in a few minutes I shall introduce the gentleman who is to address you. It is not my function to deliver a speech at this time, but I shall just use five or ten minutes so that you may know how good a speech you would have had to listen to were I the speaker and be the chairman."—Detroit Free Press.

HOLDS WILDERNESS IN SCORN

Japanese Adventurer Thrives on Such Perils as Might Well Daunt Even the Bravest.

Juhiro Wada has always played a lone hand. Up and down the northern fringes of civilization he has pioneered for 30 years. He has been in the thick of every gold rush from the Klondike to Hanson Creek. He is an expert trapper, hunter, cook, prospector and dog-team driver. From Athabasca to the mouth of the Mackenzie, all old-timers know the little yellow wilderness adventurer.

Soon after the discovery of a gusher well at Fort Norman last fall, winter closed the trails to the new oil bonanza on the Mackenzie. But it did not shut out Juhiro Wada. Ice and snow and howling blizzards have no terrors for him. Employed by Vancouver capitalists to go to Fort Norman and stake claims for them, he struck out for Peace river with a team of dogs in the dead of winter. For 1,200 miles he mushed alone through the frozen, wolf-haunted solitudes, staked his claims and came back across the snow to Peace river.

Now he has been employed by a New York syndicate to go to the top of the world on a hunt for gold. A rumor has been bruited about the arctic that Herschel island conceals rich gold deposits. The little Jap will soon leave for the north prepared to spend at least a year on this thundering, desolate rock in the arctic seas. If he uncovers treasure, there will be no delay in bringing out samples. No matter if it is 90 degrees below, Juhiro Wada will harness up his malamutes and break trail back toward civilization. That's his way.

CANDIDATE GOT ONE VOTE

Humiliating Practical Joke Played on Italian Who Had Made Himself Politically Unpopular.

Solicitor Gandolfi of Cremona, Italy, besides being a poet, is also a bombastic meddler in political matters. Because of this it was arranged by a party of jokers to bring him forward as a candidate for the polls. The electoral committee was duly constituted and Gandolfi's name was entered on the government lists.

The unlucky solicitor was forced during the fortnight to do his own canvassing and to drive about from village to village delivering speeches. When election day came, no voting papers having been distributed by the committee for him, it was found that the only vote he received was his own. His discomfiture may be imagined, but it is said that a radical cure for his political tendencies has been found.

A still more unfortunate candidate was a communist in the same town named Lodolini. After the communists had officially announced their intentions to carry him, the man disappeared. It was found that the Fascisti had seized him at night time and driven him to Casalmaggiore, where he was forced under the severest threats to remain during election time. Once Lodolini returned to Cremona to see his wife, but the same night the Fascisti again entered the house and forced him to dress and drove him again to seclusion and meditation over the rules for the Third Internationale. —New York Tribune.

Signs of Age.

"Uncle Dunk is getting along in years," regretfully said a resident of the Ozarks.

"Eh-yah," replied an acquaintance.

"He's som'ers about eighty-one, ain't he?"

"Yes, and I skurcely ever seed a man so old for his years as he 'pears to be of late. He rid into the county seat with me tuther day. We got there about nine o'clock in the morning and before 5.30 he came around whur I was talking swap with some fellers, and 'lowed that as he didn't know nobody in town skurcely and hadn't any business there, no-way, and nuthin' had happened of any interest so fur and didn't 'pear likely to, he was just about ready to go home. Uncle Dunk is feeling his age powerful."—Kansas City Star.

Milk From Peanuts.

The common peanut is the source of a new substitute for milk which so closely resembles its prototype that it turns sour and curdles, produces buttermilk when churned and may be made into cheese, says the Scientific American. The flavor, in which the nut characteristically persists, is declared to be practically its only point of variance with cow's milk. The new lactical product originated in the laboratory of an American university where the peanut kernels are converted into four times their volume of milk, varying from 4 to 8 per cent in fat content and from 2.4 to 3.3 per cent in protein. The cost of production is said to be considerably less than the market price of dairy milk.

Boy Scouts Aid Birds.

The birds in the neighborhood of St. Louis have had their housing problems reduced to lowest terms by the act of the boy scouts of St. Louis, who, as a result of a contest, provided 2,308 well-built bird houses, which have been placed in the public parks and other reserves. The winning troop turned out 651 bird houses. The scout executive writes that much interest was roused locally, not only in the house building which it is proposed to make an annual good turn event, but also in the scouts themselves.

India Land of Mystery.

India is said to be "the burning heart of Asia." That is to say, it has a genius for religion that is unsurpassed. Of the four great faiths which had their genesis in Asia, three were born in India. It is a land of 147 languages. Some of them are spoken by only a few people, but there are ten of these languages, each of which is spoken by 10,000,000 or more. Of every 100 people in the world, eighteen live in India. The latest census of India gives the population as 318,132,537.

SCHOOL NOTES

Hyde School

"The Health Charm," a play, was presented by Miss Grant's sixth grade on Friday afternoon, November 4, 1921, to the grammar grades of the school. In the play, Youth meets with Disease and her Allies, but Education comes and tells her to search for Health. Finally Youth and Health and her fairies, join forces and drive Disease and her Allies from the land. The play was repeated last Wednesday afternoon for the primary grades. Miss Bragg and many of the mothers attended.

The Educational Committee (Mrs. Clarence H. Lingham, chairman) of the Woman's Club has undertaken the task of fitting up the Teachers' Room at the Old Hyde building. The teachers greatly appreciate and are enjoying a new couch with pillows and a pretty cover, and two comfortable rockers, a fine new rug, and curtains. The two fifth grades (under Miss Ryder and Miss Marian Green) report no tardy marks so far this school year.

Armistice Day exercises were observed by the grammar grades of the Hyde School Thursday morning. Each class contributed some number. At noontime all the classes spent two minutes in silent prayer.

Every class of the Hyde School has joined the Junior Red Cross, and will receive the benefit of the Junior Red Cross magazine.

One of Mrs. Blakemore's Vocational Guidance classes recently gave an impromptu dramatization on Seeking Employment, thus bringing out the qualities desired in persons for certain positions.

Newton Grade Teachers' Club

The second meeting of the Newton Grade Teachers' Club was held at the Bigelow School last week Thursday afternoon. The entertainment, taking the form of a vaudeville performance was in the hands of the teachers of the north district of the city, including the Bigelow, Underwood, Lincoln, Stearns, Eliot, Horace Mann and Claffin Schools.

The program included songs by members of Horace Mann School, a Charade in 3 acts, by the Underwood and Lincoln Schools; songs by Stearns School; Charade in 4 acts "Mendicant," by the Claffin School; an "Un-aesthetic Dance" by Miss Aiken, Horace Mann School; Charade in 5 acts, "Kenelm Winslow," by Stearns School; song by Miss Tobin of Claffin School; Charade in 6 acts, "Concatenation," by the Horace Mann School; Violin Solo by Miss Broughton, Stearns School; Charade in 5 acts, "Ukelele," by the Bigelow School and a Good-Night Song by the Misses Ross, Nixon, Walker, Hartshorne, Martin and Stewart. Refreshments were served by the Entertainment Committee under the direction of Miss Crandall.

Mason School

The pupils in the fifth grade are preparing a Pageant to be given as a part of our Armistice Day Exercises. In the inter-class football series the seventh grade played the Mason second team Tuesday afternoon and were beaten 20-6.

Repairs are progressing on the third floor of the Mason and it is to be hoped that very soon the rooms will be ready for use by classes.

Horace Mann School

Horace Mann-Claffin football team beat the Hyde School eleven, 83-0.

L. Young ran 95 yards for a touchdown.

K. Martin was the star of the game for the Horace Mann-Claffin eleven, and Lingham starred for Hyde.

This victory puts them tie for first place with the Stearns School.

Burr School

A special program in observance of Armistice Day was given by the seventh and eighth grades of the Burr School on Thursday morning.

An educational campaign on milk will be conducted next week in the Burr School by the upper grades, Robert Clapp, chairman. Delegates are to make three-minute speeches in the different rooms each morning. The night cards will be studied in the arithmetic classes. The New England Dairy and Food Council of Boston loans us an exhibit of milk products. They have costumed a play, "The Quest for the Fountain of Health," which will be produced under the direction of Hubert Jenkins, Margaret Forknall, and Richard Winslow.

Bigelow School

Mr. Lane's division of Eighth Grade gave a very enjoyable Halloween play in the school hall Friday, Nov. 3. Those who had parts were Eleanor Jarvis, Warren Achorn, Faith Wing, Eloise Barber, Edward Strum, Thomas Sutcliffe, Elmer Lippin, Arthur Clarke, Ardis Whitworth, Miriam Marshall, Kenneth Turner.

Patriotic Exercises were held in the assembly hall on Thursday morning of this week. Each class in the school contributed one number to the program and there was special music.

WABAN SCHOOL OPENED

Interesting Exercises Held in the New Albert Edgar Angier School House

Six hundred people, citizens of Newton, viewed with admiring eyes the beautiful new elementary school in Waban, last Friday evening. From seven until eight o'clock the young lady graduates of the Roger Wolcott School of past years served as guides about the building. The young men graduates took charge of the seating, ushering, and program distribution at the exercises, which were held in the auditorium from eight to nine o'clock.

The building is known as one of the 12-room type. This means that there are 12 class rooms. In fact, of course, as in any modern school building there are many other rooms, but not recognized as class rooms.

There is the spacious kindergarten with its rugs, fireplace, window seat, and toilet facilities. This room apparently pleased the most of all for here they lingered and returned again and again.

The teachers' rest room, the pupils' rest room, the doctor's and nurse's rooms were all enthusiastically declared as worthy the ideals of our city.

In the sub-basement the sewing, cooking, and staid rooms were much admired. On this floor, too, is the gymnasium, already and for all time a delight to the children of the school, as was shown by their desire to have their parents see it.

The sanitary conditions are unsurpassable. The toilet systems found hearty approval. Thelma Stanley, Treasurer of the Class of 1922, led in the singing of the National Anthem, which opened the exercises in the school auditorium. The Angier School Orchestra, under the direction of Miss Grossman of the West Newton Music School, acquitted itself most favorably. This is the first time that this orchestra has played publicly, but this fact certainly never would be known.

John White led the people in the pledge of allegiance to our flag, after which Dr. C. H. Cutler of the Union Church in Waban uttered the dedication prayer, inviting all to join in the Lord's Prayer.

One of the thoroughly modern phases of the program was the unique act of dedication led by Saville Davis, President of the Class of 1922, for the pupils, and by Mr. Philip W. Ayres, for the parents. Saville Davis said, "The pupils of the Albert Edgar Angier School are deeply appreciative of

the gift of this beautiful building which the citizens of Newton have dedicated to the cause of education. We, more than any others, will directly benefit by it. Indirectly, you, the Citizens of Newton, will see that you have made a wise investment. As a token of our present and future gratitude, we do solemnly vow that we will protect the building and would cherish for it a fair and a noble name."

A response was made by the older pupils of the School who were present: "We are happy to so pledge our word of honor."

Mr. Ayres and the parents gave a hearty pledge of sincere co-operation with those professionally entrusted with the education of their children. Remarks were then made by Ulysses G. Wheeler, Superintendent of Schools, Mabel C. Bragg, Assistant Superintendent, and Edwin O. Childs, Jr., Mayor of our city.

Mr. Wheeler dwelt upon the progress, education had made since the days of the "little red schoolhouse." He himself a graduate of this school did not doubt for an instant that under the more favorable conditions now offered by such a school as the Angier, that children would grow to man and womanhood as even better servants of the community.

Miss Bragg was most cordially received. She grasped the opportunity to address the parents. One thought was stressed which held and will hold the people for some time to come. It was the fact that children are our second chance. What we wish we had done and failed to do may be made real with the children.

Mayor Childs presented a stirring, patriotic, and educational address. He bared to the teaching which the sacrifice of Albert Angier had and would continue to make. He fittingly closed with a word to the pupils of the school, "Accept this as your slogan," he said, "G-R-O-W, Go Right On Working."

The most impressive part of the evening's exercises came when "Jimmie" Marsh, a little sixth-grade boy, proposed "a silent tribute of one minute to him for whom our school was named." "Jimmie" was a little friend of Albert Angier and proud of the opportunity to propose this tribute to "his" hero.

The audience then sang the Albert Angier School song, again led by

SENATOR ELLIS' OPINION

The following endorsement of Mr. Rogers' candidacy for Mayor will be read with interest by the many friends of former Senator Ellis.

West Newton, Mass., Nov. 12th, 1921.
Mr. H. M. Cole,
Somerset road,
West Newton, Mass.
Dear Mr. Cole,

I am heartily in favor of the election of Leon B. Rogers as Mayor of Newton because we need and should have a good business administration, which his training in business, supplemented by his experience in City Hall, especially fit him to give us; while his executive work for the Red Cross and for the Newton Hospital is a satisfactory guarantee that the interests of the poor and the needy will be well cared for.

Yours very truly,
(Signed) Geo. H. Ellis.

DEATH OF MR. BRIDGEMAN

Frederic C. Bridgeman, all his business life a dealer in wholesale woollens, died suddenly at his home 6 Park drive, Brookline, on Tuesday in his sixty-eighth year.

He was born in Newtonville, the son of Prescott C. and Lucy (Foster) Bridgeman and was educated in the Newtonville schools. As a young man he entered the wholesale woolen business of his father, who was head of the firm of Bridgeman & Co., which concern later became known, upon the death of the elder Mr. Bridgeman as the Bridgeman & Smith Company.

Mr. Bridgeman was a member of Dalhousie lodge of Masons in Newtonville. He is survived by his wife, Mrs. Grace R. (White) Bridgeman, who was originally of Bangor, Me.; a daughter, Mrs. Alice B. Davies, of Brookline; a brother, Robert C. Bridgeman, of Newtonville, as well as a sister, Mrs. Gertrude F. Wadleigh, who resides in Youngstown, O.

Services are held this afternoon at his late residence in Brookline, Rev. Julian C. Jaynes officiating, and the burial is in Newton Cemetery.

Thelma Stanley with Saville Davis playing the piano.

Dr. H. Grant Person followed with the address of the evening. He believed it most fitting that this schoolhouse, dedicated to the cause of education should be honored with the name of the only war hero from Waban to fall in the great war. Dr. Person dwelt on the power of personality and character in the teaching profession. He made a stirring appeal to the citizens to continue in the fine work of establishing such a war memorial. Dr. Person was loudly applauded.

America was sung and the closing prayer and benediction was given by the Rev. William L. Wood, The Church of the Good Shepherd.

NEWTON VS. WALTHAM

On to Waltham! Tomorrow the 1921 Suburban League Champions invade the Watch City with the sole purpose of bringing home to Newton the scalp of the Waltham team. Year after year the Newton-Waltham game looms up as the biggest event in the sporting annals of the two cities. It is a contest in which two of the most zealous rivals battle to uphold the prestige of their respective localities.

Newton goes to Waltham tomorrow undefeated and in facing Coach Leary's charges the Garden City team meets an eleven that is also undefeated. Newton, by virtue of its victory over Malden last Saturday, is practically assured of the Suburban League Championship for 1921, making it the second successive year that Coach Dickinson has led his eleven to Suburban supremacy. Waltham has also run up against some pretty stiff opposition this fall and the Watch City team has always given a good account of itself.

Capt. "Jake" Stafford's Champions are going over to Waltham to win and from what we know of both teams we'd say that Capt. "Jake's" crew is going to finish at the top of the pile. Waltham is good but Newton is better. We don't believe the Waltham line can measure up to the Newton standard and we feel certain that the Watch City has no open game that can any where near rival the one Coach Dickinson's men use so successfully. We expect Newton to win by about two touchdowns. We are very optimistic, you may say. Well, possibly we are, but we've given the matter a good deal of thought and a score of about 14 to 0 is as near as we can come to it.

Over at Malden last Saturday, Newton smashed Malden 13 to 0. As a result of this victory, Newton virtually annexed the Suburban League title. The Newton victory was a notable one, in that the Orange and Black had to defeat not only the Malden team but also a couple of the rankest officials we have ever seen or ever hope to see handle a football game. Malden "got away" with more stuff than ever Jesse James in his palmiest days.

One of the most "charming" decisions rendered in last week's contest was the one which penalized Newton for making perfectly legitimate use of the hands on defense. The official who called the penalty termed it "roughing" (Continued on Page 4)

DEATH OF MR. ADAMS

Mr. Enoch C. Adams, headmaster of the Newton High School since 1897, died suddenly yesterday morning at his home, 22 Lenox street, in West Newton, in his seventieth year, of heart failure. Mr. Adams suffered a severe illness a few years ago, from which he had never fully recovered, although his health of late had not interfered with his professional duties.

He was born in Lubec, Me., in 1852, one of the eight children of Enoch and Mary (Case) Adams, the former a prominent physician and surgeon in the Civil War. Mr. Adams was graduated from Kent's Hill Preparatory School, and was later a member of the class of '76 at Bates College, where he was elected to the Phi Beta Kappa.

After his graduation, he taught school for 2 years at Bloomfield, N. J. He was married in 1879 to Miss Emma Hamm of Peru, N. Y. From Bloomfield Mr. Adams went to Beverly, as headmaster of the Beverly High School and several years later became headmaster of High and Putnam School at Newburyport, in which place he was prominent also in the work of the Young Men's Christian Association. After 11 years in Newburyport, he went to New Britain, Conn., as headmaster of the high school there and one year later was called to Newton, to begin his connection with the Newton High School.

Mr. Adams was senior warden of St. John's Episcopal Church in Newtonville, a member of the Tuesday Club of that place, the Friday Club of Boston, the Brae-Burn Country Club, and the Neighborhood Club in West Newton. He was connected also with the College Entrance Board, made up of headmasters of this community, and was a member also of the Headmasters' Association.

He is survived by a widow, and three daughters, Mrs. Hubert L. Carter of Newtonville, Miss Katherine Adams of New York City, and Mrs. Samuel F. Holmes of Worcester.

Funeral services will be held on Sunday afternoon at three o'clock at Grace Church, Newton.

WEST NEWTON W. C. T. U.

The next regular meeting of the West Newton W. C. T. U. will be held at the home of Mrs. Millie Beardsley, 108 Crescent street, Auburndale, Monday evening, Nov. 21. The delegates to the state convention at Worcester, Oct. 25 to 27, will present their reports. There will also be a speaker on Child Welfare. All are requested to bring their contributions for the Thanksgiving box for the Boston Flower Mission.

NEWTON CHAMBER OF COMMERCE

Hears an Interesting Report on Conditions in Newton from Its New Secretary

A most interesting meeting of the Newton Chamber of Commerce was held Tuesday evening at the Newton Club, about 60 sitting down to the excellent dinner served at 6.30 by Steward Piper.

Hon. Horace A. Carter was the guest of the club and was introduced after the banquet by President John T. Burns.

Mr. Carter, who is president of the Mass. Chamber of Commerce as well as a member of the Governor's executive council gave an interesting talk on the opportunity before the chamber of commerce of Massachusetts and New England. No matter how well a city is governed, Mr. Carter asserted it could be governed better. It will take courage, effort and work and it all cannot be done by the secretary and officers, but with the co-operation we learned during the war,

you can have here in Newton one of the best chambers in the state.

Mr. Harold Moore, the retiring secretary, was given a vote of thanks for his good work to which he briefly responded.

The report of the new secretary Mr. C. C. Mowry was received with great interest and we print it in full on another page.

President Burns outlined work towards electrification of the railroads in Newton, and Mr. W. H. Brayton suggested a talk in the near future on the proposed changes in telephone service.

The secretary's report and the general subject of zoning were discussed by Messrs. Vernon B. Swett, William T. Halliday, Thomas F. Murray, Alderman George M. Heathcote, John H. Gordon, Robert H. Evans, Arthur W. Hollis and others.

DEATH OF MR. BEMIS

Mr. William P. Bemis, for forty years in business in Newton Centre as a master painter, died at the Newton Hospital last night in his 69th year.

Mr. Bemis leaves a widow, Elizabeth Bemis, a sister, Mrs. H. M. Hanks of Needham, and a brother, Mr. George Bemis of Sanford, Me.

He was formerly a member of Gethsemane Lodge, and Past Noble Grand of the Home Lodge of Odd Fellows. Mr. Bemis has many friends in the community, being during his lifetime here and much beloved by all who knew him.

Services will be held at his late residence, 34 Pleasant street, Newton Centre, on Sunday at 2 o'clock, and will be conducted by the Rev. Frederick Palladino of Upper Falls.

A SURVEY OF NEWTON

New Secretary of Chamber of Commerce Makes An Interesting Report

We print in full Mr. Mowry's excellent survey of Newton as a field for a Chamber of Commerce.

To the President and Members of the Newton Chamber of Commerce:

Gentlemen, as I see it, our immediate task is to find a way, if we can, to give Newton a real chamber of commerce. As most of you know, I have been in Newton for the past five weeks, endeavoring to make a survey of the situation, studying the city and its needs, and trying to determine some of the things that a chamber of commerce can and should do in Newton. I have devoted much of my time to talking with Newton citizens, partly to gain a real understanding of the local situation, and partly to make sure that Newton citizens were themselves alive to the needs and opportunities for a modern chamber of commerce, and would be in sympathy with the movement.

Previous to becoming your secretary, I was practically a stranger to Newton. While I have enjoyed the acquaintance of several Newton men, I had no real understanding of the local situation. I have been somewhat surprised to find that, in some respects, Newton is not so much a city as it is a group of villages. It is true that these are tied together by the name of Newton, and in some other ways. But I believe they are tied together altogether too loosely, for either the welfare of the individual villages or of Newton as a whole. Unless Newton creates something distinctively new there is nothing that can tie these various communities together, and develop common thought and common effort for the benefit of the whole, but a modern and efficient chamber of commerce.

So far as I have been able to ascertain, there is no organization of a business or civic nature which ties together the ten or twelve villages of the city in a way that enables them to work along broad lines. There is nothing to encourage, develop, and foster an All-Newton spirit. I am already convinced, strongly, that Newton needs such an organization even more than other municipalities, perhaps even more than the citizens of Newton themselves realize at the present time.

I do not agree, however, with the statements of several men with whom I have talked that there is no such thing as an All-Newton spirit. It does exist. I have uncovered it frequently. The real trouble is that there is as yet no medium through which we can organize it and put it to work. The real problem in Newton is to convince the people of Newton that there is a real chance to get a real Chamber of Commerce. As soon as we find a way to solve this first problem, all other problems will prove to be minor in character, requiring only a reasonable amount of time and properly directed effort.

As soon as we can show the people of Newton that there exists a real opportunity in the Newton Chamber of Commerce for Newton to get together and work together, and do constructive work for the benefit of Newton as a whole, I am sure the people of Newton will be quick to recognize and take advantage of that opportunity. Our big task is to find a way to win the confidence of Newton as a whole, to convince the city that the Newton Chamber of Commerce is going to develop into a real Chamber of Commerce, continuing to study the needs of the city and continuously finding ways to actually and effectively meet those needs.

There are a great many men in Newton, including both men who do business in Newton and those engaged in business in Boston, who are not members of the present Chamber. The reason they are not members is not because they are not interested, not because they do not recognize the need for a modern Chamber of Commerce in Newton, and not because they are blind to the things that might be done. But it is my judgment, after talking with many of these men, that it is because the present organization does not meet their conception of a real chamber of commerce. To interest these men, to secure their co-operation and their membership—the enthusiastic support—the present organization will necessarily have to be made over to some extent to comply with their demands and requirements. I consider some of the things these men demand reasonable and proper, and things that the Newton Chamber must do before it can command, and merit, their support.

I am personally convinced that as soon as we can show these men that Newton is to have a real Chamber of Commerce that we can count on any of them, in fact all of them, for anything reasonable in the way of active co-operation and financial support.

Some of the members may feel that I should have devoted more time to ascertaining what those who are already members of the Chamber think we should do. We cannot make real progress until we find a way to in-

terest the many who are not yet members of the Chamber. I have sought to make sure that these would endorse our plans and that we may rely upon their support if we can find a way to put them into effect. I feel assured of the interest and desire to co-operate on the part of those who are already in the Chamber. If we can develop a similar interest and desire to help on the part of the many others, I believe that we will have something that will more than justify all of this thought and effort that we are making at the present time.

My conception of a Chamber of Commerce is of a broad civic organization, tying together these various communities that make up Newton in a way that all may and will, work together, interesting itself largely in those vital problems which affect all communities but giving thought and consideration to the needs and problems of each, and giving definite and distinct service, through departments of properly directed activities, to the merchants, the manufacturers, and other groups of the business men and business interests of the city.

Newton is unquestionably a city of character, and is generally recognized as a desirable place in which to live. Instead of being satisfied with what we have, why not plan to not only retain present advantages but to add to them in every possible way.

Some of the problems which usually confront a Chamber of Commerce in the ordinary community have already been solved in Newton. But it does not necessarily follow that there are no other problems, that there is nothing else to be done. Newton will grow. It must surely grow. The question is "How will it grow?" It is a question that the citizens must answer themselves. I believe, if we judge from the experience of other communities, that the best answer may be found in a modern and efficient Chamber of Commerce.

Newton seems to have achieved a wonderful start, in comparison with other cities. Why be satisfied with what we have? Why not a carefully planned, systematic, and continuous effort on the part of Newton citizens as a whole to maintain all of the advantages which we have, to realize on them in a way that will return the largest possible dividends to the city and its citizens, and to work vigorously for new benefits. Newton is a fine city, but I have no fear of contradiction in saying that it is not yet a perfect city. There are plenty of worthwhile things that can be done by a Chamber of Commerce. If we find a way to do them, and actually do them, it will mean that Newton will forge still farther ahead, and stay ahead of the other municipalities which do not already enjoy the advantages that are enjoyed by Newton.

The situation, as I found it, placed us in a position where we were obliged to choose deliberately between two definite courses of action. First, we could secure as many new members as possible for the present organization and continue somewhat as in the past, and probably lacking the representative of the city as a whole or the influence to accomplish civic projects of a broad type. Or, we could greatly extend the plans and scope of the Chamber, adapt these somewhat to meet the ideas of many not now interested in the Chamber, interest new men in the work and enjoy the advantages of their counsel and active co-operation. In other words, the second plan involves the building of an organization and a program of work along lines that will appeal to all interested in the welfare and progress of Newton, from any viewpoint.

Most of you men are aware that your directors have decided upon a reorganization of the Newton Chamber. The word reorganization is used perhaps for the psychological effect that it may have upon the city as a whole, to make it appear that we are to have a new organization, doing new things, and in a new way. What we hope to have is a chamber much larger than the present organization, attempting and accomplishing things impossible with the present limited membership, giving the service that a chamber ought to give to its members, and wielding the influence that it ought to wield, and can wield if properly organized and supported, in the city as a whole. Whatever may be the criticisms of the present organization, practically all may be explained with the statement that it has been conducted by too small a group of men. That these men have done as much as they have is unquestionably to their great credit. For its greatest usefulness, the Newton Chamber must be equally representative of every section of the city, and of every element of our population.

I believe that the best foundation for an effort of this sort is the complete confidence of the community, confidence that the Chamber is an organization to which may be safely entrusted the solution of the civic and business problems of the city and to direct the future progress and development of Newton as a whole. This is our present objective. To convince Newton that we can deliver the goods, I believe, is the big problem.

In discussing a few of the things which a Chamber of Commerce might do in Newton, I believe that I should at present merely suggest the things that might be properly taken up by the Chamber rather than to make definite recommendations that we do so. I think it is generally agreed that the most important public question before Newton at the present time is the zoning proposition. This is a question in which the Chamber should properly take a great interest, and in the final solution of which the Chamber should eventually exert a great influence. I do not have to tell you men of the importance of this major project of the Newton Planning Board, nor point out the ways in which it may affect you and your property, individually and collectively. I consider it unfortunate that Newton has not had a larger and more representative Chamber of Commerce to study and

analyze this project, to determine what sort of a zoning ordinance the people of Newton really want, and what is best for the future welfare of the city. It has been suggested to me by a member of the planning board that had there been a Chamber sufficiently large to represent the true sentiment of the city that it would have eliminated the necessity for the many hearings that are to be held about the city to enable the special zoning committee of the Board of Aldermen to ascertain just what is desired and what is best. The wish has been expressed to me by members of both the planning board and zoning committee that the Chamber may develop in time to offer something constructive and helpful before the permanent zoning ordinance is drafted and adopted.

(Description of present status of proposed zoning ordinance.) One of the most peculiar characteristics of Newton, as it has impressed a stranger from the outside, is that the city has no civic or business center. The City Hall and Police Headquarters are located in one village, at a considerable distance from the geographical center of the city, the public library, Y. M. C. A., and other institutions are located in another corner of the city, other public and civic institutions are located in other villages. It seems to me that Newton has no real center, no hub around which the Newton wheel can revolve, no anchor to which all the villages can tie at times when they should all be pulling together.

I am personally convinced, after making some study of past local history, talking with city officials, looking over reports of special committees, in fact, studying the probable trend of future events, that this situation will eventually correct itself and that Newton will have the civic center which it needs. The establishment of a business center in practically the same section will inevitably follow as a matter of course. If it should be later determined by the Chamber that the future civic and business center of the city was to eventually be established in any particular locality, I believe it would be of great advantage to the city of Newton for the Chamber to deliberately adopt plans to bring this about as soon as possible, that the city may enjoy its benefits many years in advance of the time that it might come about through the ordinary course of events. Whether or not this suggestion is good I am convinced that it would be a commendable one, with a representative membership from all over Newton, will curb the natural rivalry between the several villages—as far as all-Newton improvements are concerned—to the extent that the new city hall, or any other public building or improvement of the future will not be located where it ought not to be.

I do not believe, however, that a Newton Chamber of Commerce should seek to stifle nor discourage reasonable rivalry between the villages, nor seek in any way to supersede or take over the work of the various improvement associations and other similar organizations. I believe each of these organizations has a distinct field, but that there are many things upon which they could work together to their own advantage as well as to that of Newton as a whole. It would not be improper for a Chamber of Commerce to assist any of these individual organizations or communities in securing some improvement which they could not secure without the endorsement or co-operation of some organization having at heart the welfare of the entire city. But this should be broad enough to recognize that the welfare of the whole is contributed to by numbers of small improvements in different sections of the city as well as by larger improvements which affect all sections alike, and at the same time.

That a representative Chamber of Commerce would be welcomed by the city government, and by city officials individually is freely admitted. I am assured there is now no dependable medium through which the city government may ascertain with any short time the real sentiment of the city on public questions. Members of the board of aldermen themselves appreciate that they may be fooled, and perhaps have been in the past, by a noisy or well-organized minority of voters who did not represent the opinion or desire of the more conservative majority. I have been told by some members of the board that they would welcome a Chamber of Commerce of sufficient standing in the community so that the recommendation of any project by the Chamber would be sufficient to convince the board that this recommendation truly reflected the sentiment and desire of the city; or that the opposition of the Chamber to any project would in itself convince the board that it should certainly go slow in reference to that particular project. It was even suggested to me by one member of the board that the time might come when the Chamber of Commerce could consider the various public improvements desired by the several sections of the city, could study their relative importance, and submit a program to the board of aldermen suggesting the order in which they should be taken up and adopted. I have devoted some time to a careful study of the recent report and recommendations of the planning board. While I appreciate that the board has considered many matters that would properly come within the scope and functions of a Chamber of Commerce, (Continued on Page 3)

SURVEY OF NEWTON

(Continued from Page 2)

Commerce in a city which had a less
able or conscientious planning board
than Newton, I do not by any means
feel that the planning board in Newton
has done all of our work for us. While
the planning board itself has deter-
mined the things which they consider
best for Newton, they are by no means
sure that their recommendations will
meet with general approval and ap-
preciate that long campaigns of edu-
cation will be necessary before public
opinion will be solidly behind their
several projects. I have been greatly
impressed by their report and feel that
Newton is indeed fortunate in having
the planning board that it has. I know
that some members of the board feel
that a Chamber of Commerce could be
of enormous assistance in crystalliz-
ing public opinion in support of their
recommendations. I believe that the
Chamber should carefully study and
analyze all recommendations of the
board, with a view of using its influ-
ence to bring about as soon as possible
—that the city may enjoy their bene-
fits—the adoption of those recommen-
dations which may be heartily en-
dorsed and should meet with the ap-
proval and support of the city as a
whole.

I believe the Chamber should co-op-
erate heartily in the work of the new
Central Council of Social Activities for
Newton, and should later—when the
Chamber becomes a larger and more
influential organization—get back of
the council and perhaps be much more
active in determining its work than is
possible at the present time. Some
of the men who have been active in
the creation of the Central Council
have readily agreed that there would
have been no need for such an organi-
zation had we had an efficient Cham-
ber of Commerce prepared to do the
work that the Council plans to do. It
has been suggested that the time may
come when the Chamber can properly
take over the Central Council and ad-
minister its work as one of its de-
partmental activities. At this time, I
believe the Chamber should accept the
place assigned to it in the general
plan of the Central Council, and co-
operate at all times in the work of
that organization.

Several Newton business men, in-
cluding two or three of the manufac-
turers, have expressed cordial approval
of a suggested line of work that
might be taken up properly by the
Chamber, the promotion of a cam-
paign for which we might choose as a
slogan "Newton jobs for Newton
people."

I feel that every community should
recognize the fact that the greatest as-
set which they have is their young
people, and that nothing is more im-
portant than to keep them from mov-
ing away. And I believe that Newton
should recognize its obligation to pro-
vide opportunities for the children of
its citizens to obtain work and earn
their living in their home city. Aside
from the preference of those reach-
ing the age where they must begin to
earn their own living, surroundings
in places of employment in Newton
would undoubtedly be much more
wholesome and safe for the children
of Newton citizens than in Boston.
And more convenient. I believe we
should not only seek to provide com-
fortable homes for Newton's young
people but also attractive places of
employment. I understand there is,
in addition to the many who work in
Boston, a surprisingly large number
who are obliged to seek employment
in Watertown and Waltham, and a
number in Needham. If these people
worked in Newton, they would also
spend their time in Newton, and their
money in Newton. Jobs for these peo-
ple would unquestionably divert to
Newton stores much patronage that is
now being given to stores in Waltham
and Boston. If these people not only live
in Newton, but work in Newton, they
will think more of Newton, be more in-
terested in Newton and be better citi-
zens. And more apt to become per-
manent citizens.

Newton is unquestionably fortunate
in having a comparatively low tax rate,
while at the same time enjoying the
advantage of those cities having a
higher rate. Of course the tax rate in
any municipality is determined largely
by the expenditures made and author-
ized by the municipal government. That
the city government of Newton has
been wisely discriminating in de-
termining what public expenditures
were necessary, and in deferring
others until conditions were more fa-
vorable, is, I believe, quite evident.

There is therefore no great need for
the Chamber of Commerce to inaugu-
rate any campaign for the purpose of
curbing extravagance on the part of
the municipal government. It can,
however, and should, consider through
proper committee organization—and
perhaps at times by the membership
as a whole—all important petitions
and measures presented to the board
of aldermen which involve appropri-
ations of substantial amounts of money.
Through the Chamber, we should be
able to place public opinion squarely
behind those measures which are pro-
ven to be necessary to progress and
proper development, and in vigorous
opposition to those measures proven
to be unnecessary, or ill-advised. Con-
structive support of this sort will, I
am sure, be welcomed by city officials
and will greatly simplify many matters
which, under present conditions and
without any medium through which
we may ascertain the true sentiment
of the public, assume the proportions
of real problems. This custom would
also serve as an effective check
against tendencies toward extrava-
gance on the part of future boards of
aldermen. In other words, while a
chamber of commerce in Newton
would be entitled to no credit for the
present reasonable tax rate, it should
provide a definite and permanent form
of insurance against excesses of ex-
penditure and against abnormally high
tax rates in the future, such as some
other cities are struggling with at the
present time.

But it is necessary, I believe, that
Newton should maintain a representa-
tive and highly efficient civic associa-
tion such as a chamber of commerce,
to register its opposition and use its
influence against the movement to
place in the hands of the state the
assessment, collection, and distribu-
tion of all forms of taxes excepting

those assessed upon real estate. Hav-
ing been out-numbered and outvoted
by the industrial cities of the state in
determining the basis upon which the
state income taxes should be distribu-
ted back to the cities and towns, it is
fair to assume that Newton, in common
with Brookline, Winchester, and other
residential cities and towns, will be
discriminated against again in the
event of any other forms of taxes be-
ing collected by the state.

I believe it is well to anticipate un-
favorable as well as favorable situa-
tions and to be prepared to meet them.
A chamber of commerce should not
only be a medium through which we
may solve immediate problems, and
develop projects to assist in the pro-
gress of a city and its people, but should
also be maintained on a basis of effi-
ciency that will enable it to meet ef-
fectually any sudden emergency that
may unexpectedly develop and threat-
en the welfare and prosperity of com-
munity, or the progress of the city it-
self.

I have in mind various other activi-
ties or objectives which could be
properly considered by the chamber,
the relative importance of which may
be better determined by the members
than by myself.

I understand that Newton has no
band and that it is necessary to en-
gage one from outside the city if the
people of any section desire a public
band concert. Chambers of commerce
of other cities have been successful in
organizing bands and in providing for
their support.

The Chamber should, I believe, be
ready and willing to co-operate at all
times with worthy local organizations
of the charitable or welfare type, as-
sist them in their campaigns for funds,
and help in every way possible to
make the work of each most effective.
Chambers in many other cities have
taken the initiative in bringing about
the adoption of the "Community Chest"
plan. I understand, however, that this
may be brought about in Newton
through another agency, although the
Chamber may be in a position to co-
operate in a practical and helpful way.

It might be desirable that the Cham-
ber, when it has adequate quarters,
serve to some extent as a community
centre, offering the use of its rooms
to other organizations founded on
service, either to the city as a whole or
to any of the various sections. The
Chamber should also conduct a general
information bureau on all matters con-
nected with Newton, for the benefit of
its citizens and for others outside de-
siring information regarding the city.

I believe the Chamber would be the
proper medium for agitating the ques-
tion of giving some public recognition
on the part of the city as a whole to
the service of the Newton men who
fought in the World War; to seek to
bring about the establishment of pub-
lic monuments to the comfort stations in
proper sections, to encourage more co-
operation in the safety movement, active
elsewhere throughout the state, es-
pecially in regard to highways; to as-
sist the police department in establish-
ing street safety zones throughout the
city; to perhaps by-pass through mo-
tor traffic and especially route heavy
truck traffic around congested sec-
tions. It is likely that the Chamber
would desire to take a definite stand
in the effort being made to eliminate
bill-boards from the city. And various
other projects will develop and be sug-
gested from time to time.

I am aware that Newton has other
problems that could be solved to
Newton's advantage if approached
through the proper medium. I am ig-
noring these at this time, not so much
because I am unaware of their exist-
ence as because I have as yet had no
time to study them, or acquire the
necessary understanding to discuss
them intelligently.

I believe, however, that the Chamber
would be justified in making a housing
survey, with a view of relieving con-
ditions which unquestionably exist
and are considered by those familiar
with them to be a menace and detri-
ment to the city. While I am not well
informed as to the number of high
grade single houses and attractive
homes that are on the market, or avail-
able for rental, I have ascertained that
there is a real shortage of good but
comparatively cheap houses and tenements.
I am assured by representatives
of the Welfare Bureau that there are
many families living in houses that
are not fit to live in, because
there are no houses or tenements
available at a rental that is within
their means. And that some of these
are able and willing to buy modest
homes were such homes available, and
offered on the easy payment plan. And
I am assured that there are many young
couples and other people of modest
means who are prevented from locat-
ing in Newton because no homes are
available at a moderate rental. Two
or three men with whom I have talked
have suggested a local housing cor-
poration, or at least a second mortgage
corporation to meet this need, to be
sponsored by the Chamber, and have
expressed their willingness to assist
in financing such a project.

I understand there are others who
work in Newton but do not feel that
they can afford to live in Newton. I
believe it would be an advantage to
not only these people, but to their em-
ployers and to Newton itself, if a suc-
cessful effort could be made to provide
modest homes and living conditions
within the means of these people. One
Newton manufacturer has assured me
that practically all of his several em-
ployees who reside in Watertown, Wal-
tham, and Needham would prefer to
live in Newton. But the type of homes
they can afford are not available. In
my work outside of Newton, I have
found a general impression that only
the wealthy can afford to live in New-
ton. I believe we should strive to cor-
rect this impression, that we may
safely do so without affecting the
character of the city.

It is generally recognized that one
of the chief functions of any chamber
of commerce is to boost its home city,
to advertise its advantages in such a
way as to attract new residents, new
industries, and to facilitate in all pos-
sible ways the growth of the city.
I believe Newton can stand a great
deal of boosting of the "Trade at
Home," "Bank at Home," and "Get To-
gether" types, but hardly believe that
it desires or requires the sort of boost-
ing which is considered so essential
to the growth of other cities. Still, it

EDITORIAL

We trust every voter in Newton before casting a ballot for mayor at the coming city election, will seriously consider the many important problems which this city will have to face in the next few years and fully realize how important it is that their solution should be in the hands of our ablest and most far-sighted men.

In the matter of street widenings and improvements alone, a glance at the report of the Planning Board will show that the city has reached a point where many thousands of dollars will have to be expended if the city in an adequate and sensible manner, is to provide for expansion which is already close at hand. Thousands of dollars can be wasted in land damages in these important matters unless the greatest care is exercised in dealing with interested abutters. The experiences of the city in this line in the past few years has not been wholly satisfactory. Land damages on the recent widening of Walnut street in Newtonville were exceedingly heavy, largely due to want of forethought and consequent threat of court proceedings. The manner in which the repairs of Dudley road at Oak Hill were bungled, resulting in the city's putting down a boulevard pavement in a purely country district at a cost to Newton taxpayers of \$50,000 should be a lesson to all future city governments and it does not reflect any credit to those who were responsible for that action.

With the rapid growth of the city, we repeat it is most important that only our ablest men should be in charge. We should by our votes next month show that the lack of sound judgment of the past is not approved by the residents of Newton and by the election of Leon B. Rogers as mayor take a long step towards placing this important and far-reaching phase of city work on a basis of economy and efficiency.

We invite the attention of every person interested in the welfare of Newton to the report we print this week of the new secretary of the Newton Chamber of Commerce. Mr. Mowry gives us the fresh point of view of an outsider, tells us many old things in a new way and emphasizes many matters of which we have been vaguely conscious for some time, but to which we have been more or less indifferent. His survey of Newton conditions should rouse us to action at once.

The death of Headmaster Enoch C. Adams will be sincerely mourned by the hundreds of young people who have passed under his guiding hand during the past twenty-five years. Mr. Adams has been a wise and able administrator of the affairs of the High School and a friend and counselor to many a Newton boy and girl.

YOUNG PEOPLE'S CONVOCATION

The first annual young people's convocation of the Norumbega Church Association will be held at the Central Congregational Church, Newtonville, December 23. The convention will assemble approximately 300 juveniles representing practically fifty churches from Newton, Waltham, Watertown, Belmont, Waban and other towns in the vicinity.

The director of the assembly will be Herbert C. Meyer, Professor Religious Education, Boston University, and former superintendent of the Ohio State Sunday School Association. Mr. Dwight Shepler, President of the Young People's Promotion Committee, will be the chairman, and Miss Marguerite Stevens, Watertown, will be the secretary.

The program will be featured by speakers from the prominent local religious colleges and will be formed entirely under the auspices of the young people of the Norumbega District, many of whom will address the convention on topics of interest to the Sunday schools.

A BRIDGE NOVELTY

An unusual manner of raising funds for the benefit of devastated France has been planned for the week beginning November 28th. A nationwide bridge whist tournament will be held in 44 different states of the union, the same hands being played in each. This has been made possible by an ingenious method of marking the back of the cards so that the hands can be readily sorted out and it will be duplicate bridge on a magnificent scale.

Here in Newton the principal game will be played at the residence of Mr. Walter H. Holbrook, 300 Waverley avenue on Monday evening, Nov. 28th, in charge of Mrs. Prescott Warren, Mrs. Holbrook, and Mrs. C. Peter Clark of Newton Centre.

An interesting feature of the game to bridge lovers will be the comparisons which will be made of the bid, and the score with what a group of experts have decided should be the best bid and the correct play of the hands. Prizes will be offered the winners in the game.

The money received from this great tournament is to go to the treasury of the committee engaged in rehabilitating the Aisne section of France, nearly all of which was laid waste by the Germans in the great war. This committee is working under the personal direction of Anne Morgan whose social service work is widely known.

RADCLIFFE ENDOWMENT FUND

Mrs. Wm. Greely, 33 Ashton avenue, Newton Centre, has been appointed chairman for Newton, Newtonville and Newton Centre, of the local committee working for the Radcliffe College Endowment Fund. The first meeting of graduates and former students of Radcliffe living in these three Newtons, was held on the evening of November 3 at the home of Mrs. Hartley Thayer of Newtonville. Mrs. George Pierce Baker, wife of Prof. Baker of Harvard, and recently Acting Dean of Radcliffe, was the speaker. She described recent developments in the college, such as the tutorial system, and the teaching of every freshman course by a full professor. After detailing the many-sided student activities, she explained the need of the Endowment Fund, not for expansion, but to provide adequate dormitory and lecture-room space for the present numbers, especially the 150 graduate students, and to make a long-planned increase in the salaries of the professors. Although Radcliffe has no share in the Harvard Endowment Fund, her teaching force is drawn entirely from the University, and the modest fees she pays for that instruction should be raised in the same proportion as have the salaries from Harvard.

There have been two further meetings first at the home of Mrs. LeRoy Miner of Newtonville, then at the home of Mrs. L. S. Drake in Newton. All have been asked to come on Monday evening, Nov. 28th to the home of the chairman, to complete plans for a rummage sale early in December, and to continue other projects. Mrs. Frank R. Stubbs has invited the group to her home for the following Monday afternoon.

LA LONDE-BOSWORTH

A quiet, but very pretty wedding, took place Wednesday evening, Nov. 9th, at St. Mary's Episcopal Church, Newton Lower Falls, uniting in marriage Miss Florence A. Bosworth, daughter of Mr. and Mrs. Herbert A. Bosworth of Wellesley Hills and Mr. Harold F. LaLonde of Auburndale.

The bride was given in marriage by her father. She wore a blue suit with small gray dove-tail hat and carried a bouquet of bride's roses. Her attendants were her sister, Mrs. Clement C. Patchett of Auburndale as matron of honor and the groom's sister, Miss Ella LaLonde as bridesmaid. Mr. Ralph LaLonde, brother of the groom, acted as best man.

Immediately after the ceremony a small reception in honor of the bride company was held at the bride's home. Mr. and Mrs. LaLonde will make their home in Auburndale.

TO UNIFY WOMAN POWER

Prominent women of this community have been asked to join in a nation wide movement to unify the woman power of the country along civic, welfare and patriotic lines through the Woman's National Foundation whose headquarters are in Washington, D. C. In response to an invitation from the organization chairman, Mrs. Samuel L. Powers, who was appointed by the Foundation in Washington to act in that capacity for the city of Newton, a meeting was held at the Hunnewell Club on November 15, the National Organization day.

The present plan of the Foundation is to erect a beautiful building on a million dollar site containing the famous treaty oak, in the heart of Northwest Washington. This site has already been secured and on it will be erected a permanent home. The main building is to be the Temple Triumphant, a great memorial to achieving American women. This temple will contain an auditorium seating 2000 persons and used as a meeting place for great conventions of women. Nearby is to be a Guest House which will provide ideal accommodations for visiting members in a modern hotel at most moderate rates.

A Sylvan Theatre will afford a setting for pageants, pastoral plays and children's entertainments.

The Founders' Club is another building of the group. Anyone who subscribes \$10 or more becomes a building member and may feel in effect that she owns a square foot of land and all that is built thereon.

As a builder member the donor is entitled to a certificate of remembrance to treasure in the home, and a duplicate to be placed in the book of remembrance in the Hall of Memory. In the Hall of Memory will be erected 51 memorial pillars one for each state, Alaska, District of Columbia, and Hawaii, on which will be inscribed the names of the greatest women of that state or territory. From Massachusetts the names of Mercy Warren and Clara Barton have been selected. Turning to the practical side of the Foundation it intends to promote the education of women in civic knowledge and rights, the teaching of Americanism, the holding of a referendum on questions of national importance, the fostering of music, drama, and other arts and all efforts making for the welfare of women of America a National Club House. The Foundation is now occupying the fine old mansion that stands upon the estate and is the scene of great activity. The work has been departmentized and able women are giving their best efforts to further the plans of the Foundation.

FOR A NONANTUM PLAYGROUND

Realizing that the Children of today are the citizens of tomorrow, it is building for the future when we establish healthy conditions for the physical development of both boys and girls.

In the Nonantum District of Newton there are 2000 children within a radius of a few hundred yards of Adams street, and the only playground for these children is the public highway. Options on suitable land have been secured. One hundred and eighty subscriptions ranging from 25 cents to \$150.00, amounting to \$1000.00, have been made by the people in the immediate neighborhood, and Four Thousand Dollars more is needed to secure the land.

The movement is strongly endorsed by the Playground Commission and the playground will be under City supervision.

It is hoped that all sections of the City will contribute to this much needed public improvement. Checks may be sent to Mr. R. L. Richardson, Executive Vice President, Newton Trust Company, Newton, Mass.

The Committee in charge has Mr. Joseph B. Jamieson as chairman and Mr. John Finelli as secretary.

PLAYGROUND NEWS

The fall season of the Playground Department on most of the playgrounds will end with this Saturday. The Newton Centre, Stearns, West Newton, Burr and Cabot playgrounds will be further supervised on account of an arrangement whereby permanent supervision is secured.

On account of the objection of many parents to (American) rugby football an attempt was again made this fall to make soccer football popular with the boys. Two leagues were formed. The South Side: Newton Centre, Newton Highlands, Upper Falls and Waban. The North Side: consisting of Boyd, Cabot, Auburndale, Upper Falls leads the South Side and the Cabot Playground leads the North Side League. They will play off for the City Championship this coming week. The Playground Department is now getting ready for winter activities. It is hoped that Bulough's Pond will get an improved lighting system so that evening skating is possible.

CITY HALL NOTES

Street Commissioner Stuart reports that the new Sewer Pumping Station on Upland road is now in operation and all of the houses on Avon road are connected.

Mrs. Grace D. C. Estes has won her case for abatement of the betterment assessed against her for work on Algonquin road. The Superior Court this week reducing the assessment from \$3200 to \$1600. City Solicitor Bartlett has appealed the verdict to the Supreme Court.

it." Anyone who knew anything about football called it ideal line playing. We had always been led to understand that Capt. Butler of Malden was a "peach" of an end. After last Saturday's game we are convinced that he is a "peach" of an end for getting away with offside play. Butler was offside so many times on both offense and defense that it became a joke. Yet the officials merely smiled and the Malden crowd cheered and all went well for Mr. Butler.

But officials or no officials, Newton was far superior to Malden and the two touchdowns that Capt. Stafford's team rolled up hardly told the supremacy of the Orange and Black. Capt. "Jake" Garrity, Osborne, and the entire Newton team played a fine game of football, and while Malden succeeded in being the first team to cross the Newton goal line this season, the manner in which the touchdown was scored verged greatly on what one might call a piece of luck. After reading some of the accounts of the game in the Boston papers we are wont to believe that certain sporting writers are making a practice of garbling facts. One sporting scribe insisted on emphasizing the great difference in weight between Newton and Malden, maintaining that the Malden team was by far the lighter outfit. Such a statement is unadulterated bunk. We'd like to be present when both teams were weighed in. It is our conviction that Malden is just as heavy as Newton. However, Newton won, in spite of officials and sporting writers, and victory is what counts.

Even now there is talk of a post season game between Newton and some other top notch high school eleven. Haverhill is the team that the Orange and Black would like to get a crack at, but as yet Haverhill has not relented in its decision to steer clear of a post season game. We hope that Coach Broderick and the Haverhill authorities will reconsider, for it is only fair that Newton should have a chance to square accounts for last year's game. If Haverhill refuses to play it forfeits all claim to scholastic honors and Newton may face the winner of the Boston City League. Coach Dickinson of the Orange and Black declares that if Newton does play a post season game that it will be with an Eastern Massachusetts eleven.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Charles F. Collins of Oakleigh road, Newton, announced the engagement of their daughter, Marguerite Frances, to Mr. Warren W. Nissley of New York and Hempstead, L. I., at a party, last evening.

Miss Collins is a graduate of Newton High School and Mount Ida School for Girls. She is President of the Mt. Ida Alumnae Association and is an active member in the Lend-a-Hand Dramatic Club of Greater Boston.

Mr. Nissley is the son of the late Mr. A. H. Nissley and Mrs. Nissley of Steelton, Penn. He is a graduate of Drexel University Prep School and Princeton University, 1914; is a member of the Princeton Club of N. Y.; Garden City Golf Club, and Hempstead Country Club.

Mr. Nissley is a veteran of the Great War, having served as First Lieutenant in Battery F, 305th Field Artillery, 77th Division in France; and is now a Captain in the Reserves. He is a member of the firm Nissley and MacLaughlin, certified public accountants and industrial engineers in New York City.

The wedding will probably take place in the spring.

INAUGURAL ORGAN RECITAL

On Wednesday evening, November 16, 1921, an Inaugural Organ Recital was given by Everett E. Truette on the Frank A. Day Memorial Organ at the Eliot Congregational Church.

The several compositions of the program were selected expressly to show the various distinctive tone-colors and combinations of this organ. Mr. Truette's phrasing is beautiful and the well chosen selections not only as above quoted, showed the various distinctive tone-colors and combinations of the organ, but the wonderful compositional technique of a true artist.

All numbers were worthy of note, but the Evening Song and Meditation, from Suite G-Minor, Mr. Truette's own composition, called forth unstinted praise.

Mr. Truette has the great gift of an interpretative temperament which is an invaluable possession, and those who have not had the pleasure and benefit of his recitals should make a point of doing so. For all the seating capacity of the Eliot Church is very spacious, at this recital it was filled to its utmost with an highly appreciative audience.

MINSTREL SHOW

Not for years has there been such enthusiasm shown at Players Hall, as at the Minstrel Show given by the Escort of Gethsemane Commandery last Thursday and Friday nights. The house was filled both nights to capacity and everyone seemed to enjoy the show in its great variety of songs, jokes and specialties.

It was especially well planned, the scene being that of a Southern plantation owned by Em. Sir Asa C. Jewett who acted as interlocutor. The chorus was one to be proud of and consisted of the following: A. E. Allen, W. H. Barney, A. C. Baxter, W. L. Dixon, C. W. Dow, G. L. Haynes, K. A. Juthe, J. M. Knudsen, H. R. Law, F. C. Mann, R. March, C. H. Morse, T. Murray, F. W. Paine, G. M. Pond, J. Ross, W. B. Sargent, A. L. Tompkins, H. W. Twigg, H. Van Der Wyk, W. L. Woodman.

The Specialty Acts were exceptionally amusing. "Bits of Nonsense" by Edna Knight, combined piano song and reading very effectively, Miss Irene Fogg, daughter of Em. Commander Charles E. Fogg, showed great talent in her vocal selections and Spanish dances. A. E. Allen made a great hit as the "Town Constable" in a skit entitled "Not Himself," while Miss Thelma Hershey as "Little Miss Tickle Toe" proved her ability to please the audience as a Toe Dancer. The "Study in Black and White" by C. W. Dow of Newton as "Dub Fisher" was an unusually clever "Sketch". He also showed his artistic inclinations in the cover design of the program, "A Moonlight Scene on Asa's Plantation."

Great credit is due the coach, Lowell D. MacNutt, for the great success of the boys, although it was rumored that Mrs. MacNutt was responsible to a great measure for the "Pep" and "Tempo" of the musical program. Mr. MacNutt as one of the End men was assisted by F. O. Burkholder, S. Smith, J. H. Anderson, G. F. Zedren, and C. Hernandez, and they certainly kept things humming with end songs and jokes.

The affair was a great financial success and it might be said that it was given impetus from the start through the whole-hearted and generous support of Em. Sir Charles E. Fogg.

ALICE IN WONDERLAND

The Children's Theatre of the Emerson College of Oratory will give a matinee performance for children "Alice in Wonderland" on Saturday, Dec. 3, at 2:30 o'clock, in Hunnewell Club Parlors. The theatre is beginning its third successful year in presenting plays for children at Huntington Chambers Hall, Boston, and this opportunity is given for Newton parents who do not care to take their children into the city.

Between the acts there will be storytelling and folk songs in which the children in the audience can join.

Mrs. A. C. Cummings and Miss Barbara Wellington, graduates of Emerson College, are in charge of the production, which is given for the benefit of the college endowment fund.

That's the goal set by the National Conference of Mutual Savings Banks of the United States.

That means 20,000,000 people started on the road toward thrift, independence and success.

The Newton Savings Bank will put over its quota in this great drive. It will do all in its power to enlist recruits who mean to march on to prosperity and make it their own.

Will you sign up in this prosperity club by opening your savings account at this bank to-day?

Newtonville

—The sale of the Christmas health seals begins Nov. 25. Newtonville's quota is \$800. Buy locally.
 —Stillman Drury of Providence came up for the Brown-Harvard game and spent the week end with his cousin, Thorndike Luard.
 —The first meeting of the Sunshine Bureau of St. John's Church was held on Tuesday at the home of Barbara Tracey on Lowell avenue.
 —Mr. Frank L. Nagle of Kirkstall road has been honored by the election as grand treasurer of the grand Commandery of Knights Templar of Mass. and Rhode Island.
 —The Woman's Guild of St. John's Church met on Tuesday with Mrs. Glover on Cabot street. On Nov. 30 Mrs. Glover is to give a card party for the benefit of the Parish House Fund.
 —Members of the Ladies' Aid Society of the Universalist Church, who were not present at the last meeting are asked to send their sunshine bags to the treasurer, Mrs. W. F. Kimball, 25 Highland avenue.
 —Mrs. Mary Elizabeth Taylor died at the home of her sister, Mrs. William Price, 25 Page road on Sunday in her 60th year. Mrs. Taylor's home was in Paterson, New Jersey, where the services were held. The burial was in Brooklyn, New York.
 —Beginning on Sunday, Nov. 27, a series of Advent Vesper services similar to those of last year, will be held at the New Church at 5 P. M. These services will be musical, with a ten minute address. The first speaker will be the Rev. H. Durnall Downward of Roxbury.
 —The members of Central Church of Central Church met Wednesday evening and plans were laid for the annual visitation in behalf of the Church budget. For some years the Club has successfully managed the securing of pledges for the maintaining and furthering the activities of the church. An inspiring talk by Dr. D. Brewer Eddy on the club's responsibilities and methods of meeting them in connection with budget work was a feature of the evening. Straw votes were taken on "Soldiers Bonuses," sales of "Light Wines and Beer," Boston's Mayoralty Contest, Chinese Integrity of Territory and other questions of interest. The results of the voting showed a surprising agreement with sentiment as generally expressed. All were both pleased and impressed by the address of Lt. Col. W. N. Tenney of the Medical service, who was in France on active field work from our entrance into the war till it closed. He made very plain the hardships of war and told many interesting incidents of his service. Several new members were added and refreshments were served by the "C. D. and E" group of the membership.

WOODLAND GOLF CLUB

The annual meeting this week of the Woodland Golf Club held Tuesday evening at the Exchange Club in Boston was enlivened by the fact that Mr. Jesse P. Guilford, a member of the club was the national golf champion—a fact that no one was allowed to forget for even one moment.
 These officers were elected:
 President, R. S. Wason; vice president, E. J. Frost; directors, E. Moulton and Walter B. Sharp, directors for three years; treasurer, W. E. Haselme; secretary, Irving J. French.

CAN GOD SPEAK WITH MEN?

Does modern scientific discovery permit acceptance of the Bible as the Word of God? If so, in what sense? These and similar questions will be discussed by the Rev. E. M. L. Gould in the second of his lecture sermons, "Problems of the New Christianity," at the Church of the New Jerusalem, Highland Avenue, Newtonville, next Sunday morning. You are cordially invited to attend the service, which will begin at eleven o'clock.

THE CHURCH COMMITTEE.

Then there is the kind of man who would rather argue and lose than to argue at all.

CITY OF NEWTON

REGISTRATION OF VOTERS

At the City Clerk's Office, City Hall, West Newton, daily from November 7 to November 23, 1921, inclusive, from 8.30 A. M. to 5 P. M. Meetings on Saturdays from 8.30 A. M. to 12 noon. No meetings on Sundays or holidays.
 On Wednesday, November 23rd, the meeting will be continuous from 8.30 A. M. until 10 P. M., and there will be no opportunity to register for the City Election after that date.
 Afternoon and Evening Registration 2 to 5 and 7.30 to 9 P. M., at the following places in addition to meetings at City Clerk's Office:
 Newtonville, 297 Walnut St., near Austin St., Tuesday, November 22.
 Newton, Police Station, Bridge St., Monday, November 21.
 West Newton, City Hall, Wednesday, November 23, (8.30 A. M. to 10 P. M.)
 Residents of any part of the city may register as voters at any of these meetings. Voters who registered in Newton in 1920 do not need to register again this year, as their names will be kept on the list.
 Men and women are requested to register at the earliest possible date as there is likely to be delay in registering the larger numbers at the last meetings.
 No person can register for the city election after November 23rd, and each must appear in person at one of the advertised dates in order to be registered.
 Naturalized citizens must present papers when registering.
 After ten o'clock in the evening of November 23rd, the Registrars will not, until after the next election, add any name to the register except the names of voters examined as to their qualifications between the preceding thirtieth day of April and the close of registration.

WOMEN'S CLUBS

GRACE M. BURNETT, Editor.

America's proposals at the opening of the Armistice Conference have taken the world by storm and heartened mightily the people of this country, especially the women, who have taken the question of abolishing war more seriously, perhaps, than men. Rev. Abraham M. Ribbany, speaking before Channing Alliance on Tuesday of this week showed deeply his personal feeling in the matter and his rejoicing at the way in which Mr. Hughes has handled the matter. He stated that this is the first real Peace Conference the world has ever known; the first time representatives of the nations of the earth have gotten together to prevent a future war; all past conferences have been meetings of the victors to divide the spoils. Mr. Ribbany having attended the conference at Paris could speak with authority upon the contrast between that and the one now in session at Washington. If matters proceed as they have begun, the coming Christmas season may indeed be one of peace and good will such as has hitherto been unknown.

State Federation

Tuesday, November 29. Fall Meeting at Worcester, by invitation of the Woman's Club. The morning session will open at 10.15 in the woman's club house, and will be occupied with reports from the New England Conference by Mrs. Grace M. Poole, and of the General Federation Council meeting at Salt Lake City by Mrs. Charles B. Hall, and brief addresses from several organizations. The choral class of the hostess club will open the afternoon session at two o'clock. John Spargo will speak upon "Reconstruction of the Social Order." Luncheon tickets at 60 cents each, should be secured from Mrs. Robert W. Rollins, 248 Salisbury street, Worcester, by sending money and stamped addressed envelope for return. Train leaves South station, Boston, at 8.30 A. M.

Monday morning at 10.30, comes the second of the series of Round Table Talks at the Hunnewell Club under the auspices of the Home Economics committee of the Newton Community Club, which will be given by Mr. Frederick R. Sawyer, upon "Safe and Speculative Investments, Stocks and Bonds." The large and enthusiastic group of club members present last week is evidence of the interest aroused in these conferences. Club members are requested to show their membership tickets at the door.

At eleven o'clock of the same morning, Mrs. Dingley Matthews will give the first of her lectures upon "The Appreciation of Music," the special topic being "Music as a Civic Force," in her studio corner of Elmwood and Centre streets. This course is under the auspices of the Music committee of the Community Club.

The Waban Woman's Club on the afternoon of November 21st will have a Musicales under the direction of Mrs. A. C. Burnett.

A Thanksgiving Party is being arranged for the meeting of the Woman's Club of Newton Upper Falls on November 21. Refreshments will be served by the Hospitality committee, which has charge of the program as well.

Mrs. Grace M. Poole speaks upon Current Events before the Newtonville Woman's Club on Tuesday afternoon, November 22.

The class in Current Events under the auspices of the Auburndale Woman's Club opens on November 25th, at 10.30 A. M. at the Auburndale Club House. There are still a few vacancies.

The Swimming class of the club will admit one or two more members. Mrs. Childs, as a professional coach, will organize future classes in Bridge.

At the Congregational chapel on Tuesday, Nov. 22, Dr. William Harman van Allen, will speak before the Auburndale Woman's Club on "News from the Old Country." There will be music.

The Newton Social Science Club omits its regular meeting next Wednesday morning.

Mrs. Claude U. Gilson speaks before the Community Service Club of West Newton upon Current Events on Friday, November 25, in the Congregational parish house.

A "Thanksgiving Party" will be the attraction for the next meeting of the West Newton Women's Educational Club on Friday, November 25th, at 2.30. Mrs. C. A. Allen is in charge, and many interesting novelties in the way of entertainment are expected.

Local Happenings
At the meeting of the Auburndale Review Club on Tuesday morning, held at the Missionary Home with Mrs. Thomas B. Scott as hostess, Mrs. Emma Fall Schofield gave a most interesting and enlightening talk upon "What Every Good Citizen Should Know." Mrs. Schofield defined the principles of the American government, and gave in detail the functions of the various departments, treating both the national and the state governments, and closed with an account of city government. An appeal for the West Newton Music School was presented by Mrs. Brown.

The Home Afternoon arranged by the Hospital committee of the Newtonville Woman's Club on Tuesday, proved unusually full of inspiration. Mrs. Wallace C. Boyden told of the aims of the club and its early ambitions, giving as her excuse for so doing, the fact that more than one-half of the present membership of the club has joined within the last ten years. Miss Mary M. Riddle, superintendent of the Newton Hospital, spoke of the relationship between the club and the hospital, in which she voiced her gratitude for what the club has done to help it, and set forth the opportunities for service offered by the nursing profession.

Miss Edith Jamieson, chairman of the Civics and Social Service committee of the Newton Federation, presented the aims of her department.

The Needlework Guild exhibited 701 garments, which will be distributed among needy persons in the city. One hundred and seventy-three gloves of jelly for the hospital were contributed, as well as \$38 for the nurses' Reference Library. Mrs. Ferrin sang two songs. Mrs. H. H. Carter, Mrs. W. C. Boyden, Mrs. E. C. Adams and Miss Riddle poured.

Many thanks are due the Auburndale Woman's Club for the evening with Edgar H. Guest. While the selections chosen for his reading all dealt with the heart of the home, each of the audience found some personal touch bringing either tears or laughter, and through it all a strain of sincerity that will linger long as a veritable lesson to all.

The president, Mrs. W. D. Gilpatrick, called the attention of the club and the public to the last of the lectures by Miss Margaret McGill, on the Government of Newton, emphasizing the fact that the lectures are educational and not political, free and open to all.

At the meeting of the Social Science Club on Wednesday, November 9, Miss Elinor Merrill opened the study of Russia with a most interesting paper on the "Early History."

The early tribes included Sythians, and Huns from North China, the Hun invasion ending with the death of Attila. The Slavs lived primarily by trapping and primitive agriculture, but also traded on the rivers with the Greek colonies on the Black Sea. Each Slav village had its own independent government.

During the period of the Grand Princes, Novgorod and Kiev were the principal cities. Vladimir, one of the most powerful of the princes, made the Greek form of Christianity the state religion; he increased trade with Byzantium, and brought art and literature to his people. He also established schools. It was said of him that he found Russia pagan and left it Christian. Kiev was the centre of a great commerce. The dynasty was not hereditary and princes of other cities, modeled on Kiev, aspired to become Grand Princes, with the result that family feuds were common. In 1169 a prince named Andrew took and sacked the city of Kiev and transferred the seat of power to Vladimir, near Moscow.

The Republic of Novgorod dates from the 9th century, and in the 12th century the town council obtained charters from the princes at Kiev to whom they paid tribute.

In 1224 began the rule of the Golden Horde—the Tartars, a branch of the Mongol race under Ghengis Khan. They defeated the Russians, established their kingdom with its capital on the Volga, exacted a yearly tax of one-tenth of all products, and forced the Russian princes to submit to all kinds of indignities.

Miss Merrill gave an account of the rise into prominence of Moscow, which is the geographical centre of Russia. In 1262, Daniel, son of Alexander Nevski, a great warrior who had repelled German and Swedish invasions and been made suzerain by the Khan, was made prince of Moscow.

She then touched on the final defeat and expulsion of the Tartars by Ivan III, after Russia had suffered two centuries of their cruel domination. The influence of the Tartars was not strong nor lasting, though they indirectly helped to establish autocracy by forcing the princes to unite. At the close of the paper there were several questions and comments.

At a recent meeting of the club held on Wednesday of this week, Miss Nellie Skillin, a junior at Radcliffe College, gave the second in the course on Russia, treating, "The Ivan Dynasty." She began with an account of the career of Ivan III (1462-1505) who was the first really great prince to rule in Moscow. He nearly doubled the Muscovite territory by conquest, the marriage of his daughter to a prince of Lithuania, and his own marriage to Sophia, the niece of the last Greek Emperor of Constantinople. He defeated the Tartars, but failed in his efforts to gain the coast of the Baltic sea—Poland being his most vigorous enemy. He entered into diplomatic relations with the Papacy and Venice, and formed an alliance with the Hapsburgs of Austria in 1491. Russia became known, respected and feared during his reign. He built a magnificent palace and three great cathedrals, and changed a simple, unpretentious court by introducing rigid and formal etiquette. The title Czar was first used by him, but only occasionally.

SCHOOL NOTES

Edited by Dorothy Drake

Stearns School

The monthly attendance report shows the highest percentage in the following rooms: Miss Lovely's, grade V (Elliot), 98.1; Miss McLaughlin's, grade VI, 97.5; Miss Munn's, grade II, 71.

Miss Lewis, Miss Munn, Miss Edgington, and Miss McLaughlin went on a ride last week Tuesday afternoon.

Miss Walker and mother spent the week-end in New York.

The Stearns School defeated the Burr School at football. Score 44-0.

A joint meeting of the Girl's Club and the Junior Club was held at the Stearns School, Wednesday evening, Nov. 9th, at 8 o'clock.

Mrs. Truworthy White spoke on "Disarmament." A musical program followed, the entertainers being May Oudrot and Florence Doucet. Ida Hillman, chairman of the program committee, was in charge. Refreshments were served.

Miss Ethelyn Stearns, who is ill at her home on Watertown street is really missed by the entire school.

On the day before Armistice Day, the upper grades assembled in the hall and participated in exercises appropriate to the holiday.

The unexpected holiday, Monday afternoon, gave many of the teachers and pupils the opportunity to go to Boston and Cambridge for the Marshall Foch celebration.

The football team feels confident of defeating the Horace-Mann boys on Tuesday afternoon when the two teams are to compete for the city armistice school title.

The cheer leaders appointed for the game are Margaret Boudreau, Alfred Bergen and Robert Norcross. The pep for the game is: l. e. Slamin, tfo; l. t. Lombardi, Mackin; l. g. Crooks, La Croix; center, Terrio; r. e. anni, James; r. t. Colantonio; r. e. e. Lucca, Coyne; quarter back, Lynn; l. h. b. Russo; r. h. b. Morrell; b. Conzo.

Mrs. L. A. Brown of the West Newton Music School entertained the "Others" Club, Monday evening, with a musical interpretation of Oscar Wilde's "The Fairy Prince." A short dress meeting was held to make arrangements for a Christmas bazaar to be held Wednesday, November 23rd, in the school hall.

Burr School

A play called "The Quest for the Mountain of Health" was presented at the Burr School this week. Characters were taken by the following: Louise Suhr, Marcus Remick, Sylvia Lee, Marion Ryan, Mabel Brennan, Miller, Eleanor O'Connell, Muriel Young, Sylvia Wilkes, Marion Veland, Elizabeth Jewett, Jay Brooks, Lawrence Paterson, Theodore Paul Fitzpatrick, Edward Pillion, Wendell Walker, Mary Norton, Cecelia Ilvan, Robert Durban, Richard Veland, Edward Sargent, Norman Ed, Blanche Walter, Helen Palmars, Reed Champion, Lydia Gammons, Dorothy Burnett.

Ralph Waldo Emerson School

Armistice Day was observed last week on Thursday. The entire school assembled in the hall at 10:30 o'clock. The hall was decorated with banners bearing appropriate inscriptions in letters of gold, pennants, and flags of nations intermingled with potted plants.

The program was in two sections; the kindergarten and primary; then the grammar section. In the first section several pupils in appropriate costumes and representing various nations of the world held interference with "Peace," who was dressed in pure white. Patriotic songs and marches were performed with the flag salute. A three-act speech was given by Clemen-Penella. A tribute to the unknown soldier with floral emblems of love and gratitude was given by the kindergarten pupils.

The grammar section short selected were given by pupils representing several classes, embodying the of "World Peace and Brother-

hood." The Russian National Hymn was given by a group of sixth grade boys. The sixth grade girls rendered a song, "Our Country." In Flanders' Field" was recited by George Cashman; "Carry On," by Esther Vana; "The Red Cross Nurses," by Elizabeth Dugan and Mary Cady; "America's Answer," by Nina Jacob; "Promoted," by Dorothy Theriault, Katherine Burley, and Harold Stromberg; and "A Patriotic Creed," by Frank Coffey.

The banner class in attendance for the second month was grade eight with a record of 97.4. Grade three in charge of Miss Jones has had no one tardy during two months.

The drive for members of the Junior Red Cross is going on this week. Every class has gone "over the top" and exceeded its quota. The entire school, therefore, will be reenrolled for the ensuing year.

Bigelow School

Miss Thurston's Class had the highest attendance for the four weeks ending November third. Their average was 98.9%.

Lasell

The Juniors have selected the following girls to serve as class officers: President, Louise Puckett, Birmingham, Ala.; Vice President, Priscilla Osborne, Newark, N. J.; Secretary, Louise Venable, Norfolk, Va.; Treasurer, Sabra Louis, Indianapolis, Ind.; Song and Cheer Leader, Rosalie Gruhn, New York City.

In the Lasell Parlors, which were simply but beautifully decorated for the occasion, Dr. and Mrs. G. M. Winslow held their first reception for the year on Friday evening. Following the formal reception the guests adjourned to the assembly room where Dr. Leon Vincent gave a most interesting talk on Scottish Humor and Sentiment.

Dr. Arthur E. Holt, who was one of the delegates to the Golden Rule convention in Boston, was the speaker at 8:30 on Sunday afternoon.

Special cars carried the students of Woodland Park and Lasell to Lake Street on Monday afternoon where they had the privilege of seeing Marshal Foch.

The hockey game played with Newton High on Tuesday afternoon proved to be a very exciting one, with splendid spirit and hard fighting on both sides, the score being 3-0 in favor of Newton.

Many of the students have attended the opera this week. On Monday night Tosca; Thursday, Madame Butterfly, and this afternoon, Lohengrin.

High School Notes

On Wednesday the students of the Technical High School had an assembly. The purpose of this gathering was to show the students how English, if spoken well, was a beautiful language which could not be surpassed. The speakers were Cynthia Black, Mildred Beardsley, Lawrence Truman, Helen Dofront, and Mabel Wildman.

The program was exceedingly interesting, and the school orchestra furnished the music.

The Glee Club of the Classical High School met in the Assembly Hall on Wednesday.

Students of the Newton High School were dismissed at noon on Monday in order that they might see Marshal Foch, who was to be in Boston on that date.

The Technical High School will receive its first issue of the "Dynamo," the school paper, about Dec. 15th. This paper is now one of the best that is put out by any New England school.

NEWTON CATHOLIC CLUB

The Newton Catholic Club has presented an entertainment which met with great success.

On Monday, the first performance being on that day, an audience of over 500 were present.

The Entertainment Committee: Frank McDermott, chairman, Frank Kane, Wm. Shinnick, Harold Greene, Robert Cunningham, Joseph Curran. On Monday night Mr. J. J. Curran was presented with a handsome traveling bag and a purse of gold by people of the parish in recognition of his faithful work in all church and N. C. activities.

HERMIT'S LIFE HIS CHOICE

Man Who Has "Flocked by Himself" for Twenty-Five Years Will Have No Other.

A hermit leads a fascinating life. So W. D. Clark says, and he ought to know, for he has been a hermit in the arctic wilderness nearly a quarter of a century.

"Once a hermit, always a hermit," says Mr. Clark. "A hermit wants nobody's pity. He enjoys his solitude and wouldn't trade it for the pleasures and excitement of cities. I have been in civilization a year now and I am going back home to the wilderness as quickly as I can. There are no fakirs, swindlers and thieves there."

Mr. Clark's home cabin is on the headwaters of the Peel river, 180 miles from Herschel Island and 110 miles from Fort McPherson. His nearest neighbor is 50 miles away. They see each other once a year. With the exception of this man, Abe Schafer, Mr. Clark is the only human being in a thousand square miles of country. The Indians do not go that far north and the Eskimos do not come that far south.

"I have seen 10,000 caribou in a herd," Mr. Clark said. "They go to the arctic coast in the spring to have their young and in September they return south to the edge of the timber, where they can find shelter and moss on which they live."

The mercury goes 75 degrees below in winter, Mr. Clark says, but it is the most healthful climate in the world. Old-timers up there, he declares, do not know what sickness means.

WORD HAS MANY MEANINGS

When One Mentions "Fish," the Sylable is Susceptible of More Than One Construction.

"All is not fish that swims" reflected the sapient philosopher as he beheld a summer girl taking to the ocean. The sapient philosopher was formulating a great truth when he came to that conclusion.

The whale, for instance, although it unquestionably swims, is more closely related to the cow than to the minnow. The seal is closer kin to the dog than to the fluke.

To a great many fishermen the word "fish"—see Latin "piscis" and Dutch "visch" (the same word)—possesses only the verb form, "to fish." Catching fish is not a necessary part of the process of fishing. The thing is "to fish," and is not primarily to catch fish. (See fishermen on the banks of the Seine in Paris, "fishing" all day without even getting a bite from a minnow.)

A famous Englishman by the name of Izaak Walton was one of the most persistent patrons of the verb "to fish." The word "fish" was also extensively used during the war in an effort to save meat for the fighters.—Exchange.

Bigamy for a Lodging.

A Le Mans signalman has just been condemned to two years' imprisonment for bigamy which, he avers, he committed in order to find in the present "crise de logement" somewhere to lay his head.

He is a man of fifty-five and he recently married a widow of seventy-five who offered him a room in her cottage on the firm condition that he should marry her. This he did, declaring that his wife was dead. One of his wives was dead, but the police tracked down another, who deserted him some time ago. The unfortunate man has now had "crise de logement" solved for some time, at least.—Paris Figaro.

Blackbird Fed Thrush.

A lady of Penzance who is a great lover of birds, says Mr. W. H. Hudson in his recently published book, "Adventures Among Birds," noticed that a blackbird and a thrush always came together to her lawn where she was in the habit of placing food for the birds. Then she noticed that the blackbird fed the thrush, picking up the crumbs of bread and putting them into its mouth. Looking more closely, she discovered that the thrush's beak had been cut off close to the head, probably by a steel trap or a sudden death in spring trap, such as the children in Cornwall commonly use to catch or kill small birds. The thrush was incapable of feeding itself.

Osmiridium in Tasmania.

Recent exploration and development have revealed enormous deposits of osmiridium and gold-bearing gravels in the valleys of the large rivers of the western division of Tasmania, which is the sole producer on a large scale of point metal osmiridium. For the first half of 1920 the production was 1,093 ounces, valued at £41,642. In March, 1920, the local price reached £42 10s. per ounce, states the London Times Trade Supplement.

A Super-Hero.

"Anything unusual in the court of domestic relations this morning?" "A young woman who married a bogus war hero wants a divorce." "That has happened before." "But this fellow has large ideas. He claims to have won the battle of the Marne."—Birmingham Age-Herald.

Reward of Merit.

"What's the most attractive feature of farm life?" asked the city dweller. "Knocking off work on Saturday and going to town in the flivver," said the truthful agriculturist.—Birmingham Age-Herald.

WOMEN'S CLUBS

(Continued from Page 6)

His grandson, Ivan IV, known as Ivan the Terrible, used it commonly. His reign began in 1533 and lasted until 1584. During his minority, the nobles were turbulent and jealous of each other, but when he grew to manhood, he instituted reforms at home and won much glory by his conquests. In 1550, he established the first national Parliament, and in 1552 and 1555 he won great victories over the Tartars. But his ambitions for northern conquest were never realized, for he was completely cut off from the Baltic. The last twenty years of his long reign were the bloodiest in Russian history. Though not exactly insane, he grew suspicious and distrustful of those about him—he even murdered his own son—and surrounded himself with a bodyguard composed of thieves and cutthroats. He hated Moscow and refused to live there. After his death came what are known as the "Troublesome Times"—about thirty years when no strong ruler had control and anarchy prevailed. An uprising of the people put an end to this state of things—a grand assembly was called, and the result of their action was the establishment of Michael Romanoff on the throne—the first of the house that reigned until the fall of the late Czar in 1916.

Miss Skillin answered many questions which the interest in her paper brought out. The meeting then adjourned.

The following resolution was presented by Mrs. Ralph C. Henry, chairman of the Conservation committee, and adopted by the club:

WHEREAS, The members of this Club believe that it is possible to settle international disputes without recourse to arms;

AND WHEREAS, Resort to arms does not settle disputes, nor does it benefit the victor more than the vanquished, but plunges all alike into utterable misery;

AND WHEREAS, Another war, waged not only with explosives, but with germs and chemicals and pests, destroying not only our cities, but the very soil from which we derive our sustenance, would bring about the downfall of civilization;

Resolved, that

We, therefore, members of the Social Science Club of Newton, Massachusetts, do urge upon the conferees assembled at this historic conference, to work frankly and openly, in a spirit of tolerance and cooperation, not only for the greatest possible degree of disarmament consistent with the preservation of law and order, but for some lasting agreement among the nations whereby the peace of the world may be preserved.

Resolved: That a copy of this resolution be sent to the chairman of every delegation now assembled in Washington at the Conference.

Mrs. Claude U. Gilson, in speaking before the recent meeting of the Newton Community Club, held her audience in closest attention as she described what she herself saw during the past summer when she visited the various countries of Europe. England, she said, is passing through a terrific crisis in her unemployment situation. Belgium, she said, is not yet cleared up, but she found that country one of the most hopeful things she saw, for on account of its comparatively small area, the government will be able to rebuild everything within the next few years, barring, of course, the Cloth Hall, and a few cathedrals.

In France rebuilding is going ahead slowly. She advises our letting them alone to do it their own way, instead of our going over to help them. Our best way to help is to send money and to give them our good will. Proceeding to Central Europe, Poland appeared the most discouraging proposition for there they are trying to build a 20th century state upon an 18th century basis. The country is made up of nobility and peasants, with nothing in between. A terrific anti-Semitic feeling exists all through Central Europe, especially in Poland.

will do no harm, and much good, to advertise its many advantages in a conservative way, not so much to increase its population or hurry the growth of the city, as to add to the prestige which it enjoys as a high-grade city of fine homes and fine people, and of unusual advantages as a place of residence. This sort of advertising may attract new residents, but it will attract a different type than the usual flamboyant home-town boasting propaganda indulged in by other cities. If we concern ourselves chiefly with efforts to make Newton a better place in which to live, for those already here, the future growth of the city will take care of itself. And, as the city expands, new problems will be continuously provided for the consideration of its chamber of commerce.

Newton, however, enjoys one distinction which I am not sure is to its advantage. It is generally known throughout the state that Newton has had no active chamber of commerce.

of the modern type. Other cities marvel at the fact. I believe it will certainly do Newton no harm to correct this condition as soon as possible. The progressiveness of a city is usually measured by the progressiveness of its Chamber of Commerce.

To make the work of the Chamber most effective, to insure maximum results, we should, I believe, divide the membership into divisions, or groups, each a separate unit for the purpose of dealing with specific problems which affect special groups and are of but indirect interest to the membership as a whole. While there will be many matters which will, and should, be of interest to the entire membership, and the application of the influence of the entire Chamber will be necessary to achieve many objectives, a large proportion of the activities will directly concern but one of the various divisions of the Chamber.

While manufacturers will generally sympathize with the merchants in their difficulties and problems, I do not feel that it is either fair or reasonable to expect the manufacturers to give their time and thought to the solution of the problems of others, with many of which they will not be familiar and in the solution of which, because of that fact, they can offer but little assistance. Neither is it fair to ask the merchant to worry over the problems of the manufacturer. And there are many other ways, while wishing the merchant and manufacturer good luck, will not care to attend meetings of either group and worry about things which do not directly concern themselves or the city as a whole. But, at a meeting of the civic division, or of the building and development division, they will be keenly interested, will be able to offer counsel and advice of the helpful and constructive sort, and glad to help if their help is needed.

Another advantage of having divisions of membership, and of activities, is that there is a limit to the amount of time and co-operation that may be expected of those giving voluntary service, if we endeavor to enlist the active co-operation of the entire membership in every minor project that we take up, the number of important matters that may be considered and dealt with will be much less than if widely different matters are being dealt with simultaneously by the several divisions. We should ask the membership as a whole to consider and deal with only those things which affect them all, or the community as a whole.

No one understands the problems of the merchants, or can think of as many practical ways in which they may be helped, as the Chamber of Commerce can help him, as the merchant himself. No one knows as much about the industrial problems of the community as the manufacturer. The real estate dealer, the contractor, and others, know most about the problems of building and development. And the civic problems of the city are best understood by those who are active in civic affairs and the group of public-spirited men who can be found in any community who are striving constantly to make their city a better city in which to live and who are willing to give service at any time to help bring this about. Of course there will be matters which having their inception in the respective divisions, which will be of sufficient importance to require joint consideration and action by all divisions, or the Chamber as a whole. And other matters of importance which would justify their being brought at the very beginning to the attention of the entire membership.

The greatest opportunities for constructive work in Newton will probably be found in the civic and in the mercantile divisions. While every present and prospective member of the Newton Chamber should be interested in civic affairs, it is quite likely that there will be men in each division who are not. Members should not look to a Chamber of Commerce for what they can get out of it as much as for what they can put into it, the extent to which each will be permitted to co-operate with his fellow citizens in the doing of things designed for the benefit of their city. The man who is not interested in anything that helps Newton unless it helps him first, and most, will not be nearly as valuable to the Chamber and the city as the man who is broad enough to see that what helps Newton must inevitably, especially if he is a business man, help him too.

I am not prepared to suggest at this time whether the civic division of the Newton Chamber should include merely those who prefer to work in that division and others who are not eligible to any of the other special groups, or whether it should include the entire membership. That is a matter that can be determined best by the membership itself, by the board of directors, or by proper committee action. The need for greater unity of thought and action on matters of importance to all the Newtons is such that it may be impossible to get too large a number of people to thinking about them and co-operating in their solution. But, anything initiated by a separate civic division would, of course, have the prestige and moral support of the entire Chamber behind it and—in view of the numerous specific problems that seem to confront some of the other proposed groups—Newton as a whole might benefit more if the difficulties of these groups were ironed out as soon as possible by the respective groups themselves, while another group, and probably the larger one, would be giving careful and continuous consideration to the civic needs of the city.

In the giving of direct service to members, I believe the Chamber can do as much for the merchants of the city as for any other group. From my understanding of the situation, I believe that in the least the types of service should be inaugurated for the benefit of the merchants of the city as soon as possible. First, a vigorous and continuous "trade at home" campaign, that much of the trading being done in Boston and Waltham may be diverted back to the Newtons, where it belongs. Of course the merchants themselves must do something to make it attractive and profitable for Newton people to trade at Newton stores, and they can do a great deal through working together that they could not hope to do as individuals. Results that have been positively astounding have

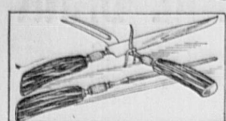

been accomplished in other communities, an appeal to the loyalty and local pride of the people being backed up by real co-operation on the part of the merchants themselves.

Second, I would suggest that we establish a credit rating bureau. This should be one that would indicate to any merchant having the service the financial responsibility of any citizen while, through the co-operation of the building and development division in reporting newcomers to the city, the responsibility of these may be ascertained from the credit rating maintained by chambers of commerce in the cities from which they come. This would prevent the merchants from the necessity of ascertaining the responsibility of these people through disagreeable experiences of their own.

Third, I believe that there should be some control of advertising and soliciting schemes. To control this evil is a comparatively simple matter, providing there is medium through which the merchants may get together, and stick together in making effective the rules that they adopt. Merchants in any community are the common prey of schemers and confidence men of all sorts, not because they are so much more easy than other individuals but because they are so conveniently located and easy to reach. A large majority of the solicitation schemes will never get beyond the first merchant called upon, if the solicitor is informed that nothing can be done for him until his scheme has the endorsement of the Chamber of Commerce. In connection with my work with the State Chamber of Commerce, merchants all over the state have voluntarily stated—and this includes a great many in Boston—that, if their local chamber of commerce did nothing else, this investigation service in its own right would be a profitable investment and saves them many times the amount of their annual membership dues every year.

I admit frankly that I am somewhat in doubt as to just what form of organization the retail merchants division of the Newton Chamber of Commerce should take. I have been told in Newton Centre that the Newton Centre merchants did not care what happened down in Newtonville or at Newton Corner. And at Newton Corner I have been told that the merchants there didn't care a continental what happened to their brethren at Newton Centre or at Auburndale. And the fellow at the Highlands doesn't care whether the fellow at Nonantum makes his overhead this week or not. Of course this is not the All-Newton spirit which we hope to develop through the Chamber of Commerce. But it is perfectly natural perhaps, through the fact that most of the villages are virtually separate communities in themselves, that this attitude should exist. I believe, however, that the merchants of all of the villages will find that they have more things in common than they themselves realize. If a dead-end should move from the Upper Falls down to Newton Corner, I believe that his neighbors may regret that they have not been more active in the work of the Chamber of Commerce. SCHOOL NOTES

Horace Mann

On November 10 the pupils celebrated Armistice Day.

The first thing on the program was the "Procession of the Nations." A great many children marched up the aisle holding flags, singing the song entitled, "Onward, Ever Onward." Then the school children saluted the flag and sang the "Star Spangled Banner."

The "Uniting of the Nations," which followed, was very interesting. Seven different countries. The countries represented were, France, England, Belgium, Canada, United States, Scotland, China and Japan. A girl from the eighth grade was dressed as Columbia and a boy as Uncle Sam. Each of the children spoke a few lines and while the curtains were closing, Grade Seven and Eight sang, "Ring Out Sweet Bells of Peace."

An original composition, "What Armistice Day Means," was given by Eleanor Mildram from the Seventh Grade.

The Seventh and Eighth Grades sang, "A Hymn of Peace." After that an original composition was given by John Mahoney, an Eighth Grade pupil. Helen Hart then read an original poem.

A fine illustrated lecture took place a short time ago. Col. C. H. French, with his magnificently colored slides, lectured on "The Yellowstone National Park."

Mason School

At Miss Crandall's home, a kitchen shower was given by the teachers of the Mason District, on Wednesday evening, to Miss Carrie E. Hale, who is soon to be married. Gifts of pyrex and aluminum were abundant and a jolly good time was enjoyed by all. Refreshments of ice cream and cake were served.

The Mason team played football with Peirce School on Tuesday at the Newton Centre playground. The score was 31 to 6 in favor of Peirce.

In the upper grades the following pupils took part: Arnold Rich, Marguerite Burke, Dorothy Hammett, Herbert Salt, Winifred Rayner, Edward Murphy and Helen Stuart. A two minute period of silence was followed by "Taps" by Jack Kerivan.

The crowded conditions at the Mason necessitated two Armistice Day programs.

The one for the lower floor was as follows:—Flag Salute, Star Spangled Banner, Original recitations by Carolyn McKee, Mary Waters, Tribute to Unknown Soldier, Miss Bateman's room. Flowers for the Unknown Soldiers, All Third Grades, Uncle Sam's Greeting to Delegates, All Fourth Grades, Tableau—Triumph of Peace, All Fifth Grades.

"SHOPS OF NANKING ROADS"

A subtle odor as of frankincense and myrrh greeted the visitor to the "Shops of Nanking Roads Fair," held at the First Unitarian Church, West Newton, on Thursday. The allusion of the Orient was further enhanced by the sight which met his eyes upon entrance.

Straight ahead of him, a Chinese temple reared its graceful form within which flowers of every description added bright touches of color to the scene. Two Chinese dragons guarded the entrance of the temple.

On either side of the "road" were the shops with their curving roofs and Chinese decorations. Each shop was hung with lanterns, and presided over by a deity in Chinese costume. All sorts of wares were here displayed, some useful, others ornamental, many suggestive of the Orient.

Among the most attractive features was jhrkisha containing a sweet-faced maiden who offered one pack-ages of real China tea for a consideration. She was drawn by a very striking looking coolie.

Under a huge umbrella, a Chinese artist drew lifelike portraits of his patrons.

A fortune teller proved a popular side attraction. The Girl Scouts in a room by themselves offered assistance to the inner man in the shape of donuts and cheese, while a beautifully decorated Chinese bazaar catered to others. Here the wares were in Chinese costume. Many, however, waited for supper which was bountifully as well as artistically served.

A Japanese Lantern Song and Dance by Kathleen Andrews offered a pleasing diversion in the afternoon, while a group of Chinese students played ballroom and shuttlecock in the evening.

The Fair was under the auspices of the Ladies' Aid Society of the church, of which Mrs. Ralph E. Hatch is President, and Mrs. Frank Remick, Vice President, and Miss Edith Wadsworth, Treasurer. One shop was managed by the Laymen's League, Mrs. Herbert Felton in charge.

Mrs. G. M. Holmes and Mrs. J. P. Holmes were in charge of the decorations. Mrs. Baker had the candy table, Mrs. F. Felton, bags and boxes, Mrs. Bingham, tea room, Mrs. Thurston, books, Mrs. T. Stedman, aprons, Mrs. Sprague, domestic table, Mrs. Webster, the dollar table, Mrs. Lane, flowers, Mrs. Andrews, dolls, Mrs. Fisher, ready-to-wear table, Miss Mary Sprague in charge of the fish pond, Mrs. A. C. Jewett in charge of the Girl Scouts, Mrs. Joseph C. Hagar in charge of the Newtonville table, Mrs. Maynard Hutchinson and Miss Bassett in charge of the Sunday School room.

LODGES

The escort of Gethsemane Commandery K. T. who participated in the recent minstrel show at Players Hall, took the guests last Saturday afternoon to the Green Harbor. A cool stew was the subject of much favorable comment by the 25 guests of Mr. Jewett.

The new officers of Cryptic Council, R. & S. M., were installed last evening at a semi-public ceremony in Masonic building, Newtonville.

SURVEY OF NEWTON

(Continued from Page 9)

It may be well to say at this time that because your directors have seen fit to engage a full-time secretary, it does not necessarily follow that you are to have an efficient chamber of commerce. Much more than this is needed. Without enthusiastic cooperation on the part of members, and the cordial support of the community as a whole, we can make no real progress. The modern chamber of commerce means much more than getting together, and sticking together. It means working together. Gentlemen, this proposition is up to you. A full-time secretary can only see that the machinery is properly assembled, and lubricated, and steer the ship. If we are to get anywhere, the motive power must be furnished by the citizens of Newton themselves.

Voluntary service on the part of members, and the extent to which we may be able to command this service, and make use of it, will largely determine our success. There are a great many things that can be better done by an interested member than by any paid secretary. We must have efficient and willing officers. There will be many opportunities for important service upon Committees of the Chamber. If we can develop a desire and a disposition on the part of each member to do his share, the demands upon the time of each individual will be comparatively small, while the aggregate results are apt to surprise us all.

Personally, I do not favor the appointment of a large number of standing committees, in fact no more than are absolutely necessary. I am rather inclined to favor the appointment of special committees to do each special task, believe it is a part of the job of the paid secretary to stay with each special committee until it has accomplished the particular thing which it was appointed to do, and that the committee which has nothing to do, when there are new things to be done, new committees may be appointed. This plan not only distributes the burden among a greater number of members, but is always developing new workers, and new leaders in the work of the Chamber and of the community. And I believe there is nothing which discourages a willing worker more than to be appointed to a standing committee which has nothing to do.

I feel I am not presuming to tell the Newton Chamber of Commerce what it should and should not do. Those things can be best determined by the members, who are better qualified through long residence to know the needs of the city. I am seeking to present suggestions rather than definite recommendations, and to assist in the adaptation of successful methods of other chambers to the work of the Newton Chamber, in any way that we can.

In conclusion, may I suggest that we keep before us the thought that the chief objective of the Newton Chamber should be the advancement of the entire community, with individual development and service as a by-product. And that the Chamber should not be a medium through which we may expect great accomplishments by any individual or by any small groups of members, but rather as a medium and an opportunity for the solution of Newton's problems through cooperation by all. If Newton is a city worth working for, if other cities can establish and maintain active and efficient chambers of commerce, and enjoy their benefits, why not Newton? I believe that Newton can and will.

\$313,000 FOR NEW SCHOOL HOUSE

Aldermen Approve Plans for Junior High School at Newtonville. New Parkway Suggested

The aldermen acted upon two important matters at their meeting on Monday evening, passing an appropriation of \$313,000 for a new school building on Walnut and Crafts streets in Newtonville and ordering a hearing on Dec. 5 on a proposed new street connecting (with the aid of Watertown) the boulevard now constructed to Maple and Jefferson streets, with Washington street, at Channing street.

President Harriman was in the chair and Aldermen Madden and McAnislan were the only members absent. Hearings were held on Edison poles on Albemarle road and on a building line on Beacon street near the railroad bridge at Waban at which no one appeared and on which orders were subsequently adopted.

Alderman Nichols, by direction of the President, drew the following names to act as jurors at the Superior Court: for Nov. 28, Walter M. Lucas, Hunter street; and David A. Ambrose, Ridge road; for Dec. 5, Frank L. H. Nason, Woodland road, Arthur J. Fremault, Pond street, and Joseph E. Crandell, Watertown street.

The mayor's appointment of Lawrence E. Keen as a Public Weigher was confirmed.

The mayor also sent in a large number of requests for additional appropriations, including \$6000 for sewer House connections, \$500 for Forestry Building, \$5000 for water meters, \$217 for new automobile for Police Dept., \$100 for Law Dept. expenses, \$13,500 for various street items, \$400 for Care of Police Buildings, \$1400 for Fire Dept., \$500 for the Building department and additional money for Charity Dept. He also revised to \$1500 his previous recommendation of \$2000 for land damages for George Soire.

CHRISTMAS SEALS

During these days when the most powerful of nations are sending to this country their best equipped representatives in order to insure to future generations a continuance of our very civilization and to prevent such carnage as that of the World War, another great movement looking to the conservation of life goes more quietly on. This movement demands unceasing activity on the part of those who labor for its success as it looks towards the lessening of Tuberculosis which claims more victims annually than the most atrocious of wars.

This is a matter of such vital interest that it has been the subject of not only national but also of international investigation and consideration.

There were over four thousand deaths in Massachusetts alone last year from Tuberculosis and the Massachusetts Tuberculosis League is seeking to discover cases in the curable stage and to prevent new cases through child health work.

How can we help in the campaign to be carried on? The answer is definite. **SUBSCRIBE TO THE FUND TO BE RAISED. BUY AND USE CHRISTMAS SEALS.**

Of the money thus raised a certain percentage is applied to the work carried on by the Massachusetts Tuberculosis League but by far the greater part is retained and used in Newton.

Each locality has its special problems but our work here is largely in

FOR WARD 2 ALDERMAN

To the Editor of the Graphic:

After five years of service and experience in the Board of Aldermen, and being deeply interested in all civic matters, I believe I may be pardoned for having a personal interest in the election of my successor from Ward 2.

Mr. Albert M. Lyon is a candidate for that office, being opposed by Mr. Roy V. Collins.

In the announcement of Mr. Collins' candidacy in Newton newspapers, it was stated that he "is the President of two companies in Newton, the Collins Switch & Signal Company and the Collins Development Company, with manufacturing plants at West Newton. He is a property owner and an employer of labor." I also am informed that his candidacy is urged by his friends based on his "business" connections and qualifications.

The Collins Switch & Signal Company was organized under the laws of the State of New York in May, 1913, and has filed no returns with the Secretary of that State since that date. It owns no manufacturing plant in West Newton, and is not authorized to transact any business in this State. The Collins Development Company was organized under the laws of Massachusetts in June, 1919, with a capital of \$100,000, of which \$300 was issued for cash, and \$99,700 for "Inventions."

On March 10, 1921, according to a statement filed April 22, 1921, and sworn to by Mr. Collins, this Company was located at 69 Highland avenue, Newtonville (which is Mr. Collins' home address), and owned \$100 in machinery, \$37.12 cash, and \$100,000 in patent rights. It owns no manufacturing plant in Newton so far as known to the City Board of Assessors.

I am informed that Mr. Collins is an inventor engaged in perfecting his ideas and devices, and that for this purpose he rents a small room in a West Newton factory which is owned and operated by interests with which

FOOT BALL CHAMPIONS

Playing on a field of snow and mud that made decent football an impossibility, Coach Dickinson's Newton High eleven captured the Suburban title for the second successive time by downing Brookline High at Brookline yesterday morning, 12 to 0.

The conditions under which the contest was played were very similar to those of a year ago when the Orange and Black defeated Brookline 13 to 0 at Clavin Field. The soggy wet field forced Newton to abandon its clever open game and the outcome was decided by straight line plunging. The Brookline lads went into the game determined to do all in their power to stop the Newton winning streak and thereby keep the Garden City from winning another championship. But to no avail. Even without their forward passing game the Newton gridironers were too much for the Wealthy Towners. "Herb" Garrity scored both of the Newton touchdowns, one in the first period and the other in the third quarter. While Brookline made things interesting at times the home team was never dangerous and was practically always on the defensive.

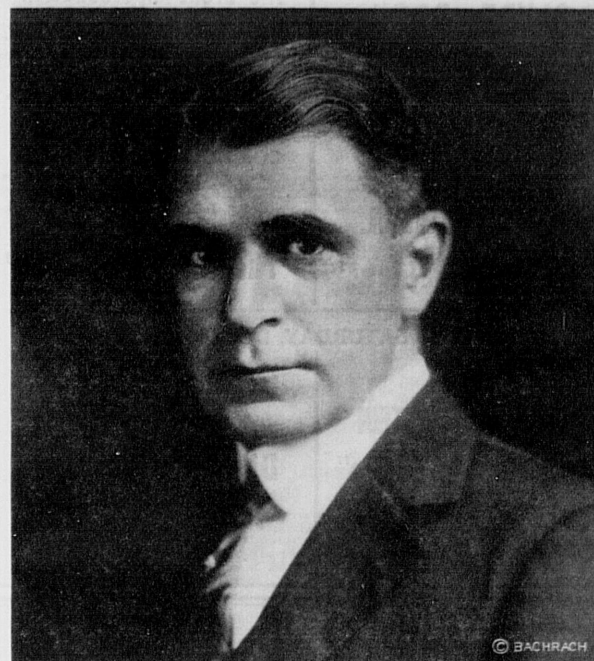

As the referee's whistle announced both the close of the game and another championship for Newton, "Clem" Coady and Grasse Gulian, all-interscholastic tackles on the 1920 Orange and Black Champs, seized Coach Dickinson, lifted him upon their shoulders and carried him from the field amid the wild enthusiasm of the Newton team and its supporters. It was a remarkable ovation to a remarkable coach, and never was an ovation more deserving. Starting the season with but a handful of experienced men, Coach Dickinson was obliged to mould an entirely new eleven and the results of his skillful coaching now shows forth in all its glory in Capt. Stafford's 1921 champions.

A movement has just been started to recognize the splendid work which

thorized in the Buildings Dept., \$1225 voted for additional copies of the Planning board report, \$125 voted for fire hydrant at Lowell and Commonwealth avenues, \$165.18 voted for Laborers' Pensions, \$500 for Military Aid, \$86.20 for payment of tuition on Newton pupils in outside institutions and \$69.14 voted to settle land damage claim of J. T. Burns, Jr. A request for \$50 for community use of school halls was refused.

Leave to withdraw was granted on petition of O. D. Brett for a 20 stall garage, corner of Park and Washington streets, on petition of Lester E. Grant for a gas filling station at 436 Lexington street and on Edison poles on Waltham street.

A majority of the License committee reported favorably on the petition of the Jenny Co. to locate a gas filling station corner of Walnut and Beacon streets on condition that land is given for the future widening of Walnut street, the corners of the street rounded and exits and entrances to be approved by the city engineer. The report was opposed by Aldermen Ross and Heathcote and favored by Alderman Blake and the permit was granted by a voice vote.

There was a long discussion over the order for \$313,000 for the new school building at Newtonville. Alderman Pratt, who introduced the order last July, placing a limit of \$325,000 on the total cost of the work (the present figures exceeding that sum by about \$50,000) called attention to the discrepancy between figures given by the state department of education of the cost of a similar school at Framingham and the new school here. The cost seemed to be reasonable, he said, but he stated that where Framingham had 886 cubic feet per pupil, Newton had 1320—where Framingham had a cost of \$310 per pupil above the ground, Newton was \$436. Alderman Whidden then made a long explanation showing how the figure of \$313,000 had been built up, said the board was in error last July in fixing a limit of \$325,000, and that the number of bids showed that the cost was reasonable. He then talked for considerable time on the matter of a Junior High School, saying that while this building could be used for a grade school it was much too large for that purpose and he hoped it would be used as a Junior High school. He gave figures to show how this use

would relieve the senior high school of one of its most pressing claims and would relieve the grade schools in the towns, Mann, Clafin and part of the Peirce districts. He predicted that the Junior High School planned for the West Newton-Auburndale district would not be needed in 5 years and that would give time to experiment with the Junior High idea at Newtonville.

Alderman Blake asked a series of questions of Chairman Kent of the School committee, mostly aimed at the bathing facilities provided in the new building. The architect, Mr. E. L. Leeds, said when called on that the cost of 30 1-4 cents per cubic foot was exceedingly low when the amount of fireproofing and equipment were considered and the low price received was due to the careful specifications and the fact that the low bidder wanted to keep his organization together. He said that the Framingham school had cost 38 cents per cubic foot and while carefully planned was poorly executed. The Newton building was so planned that the showers and toilets could be used in summer when the rest of the building was closed and the auditorium could also be used separately from the rest of the building.

Next on the order just was Mr. Leeds answered Alderman Pratt's queries by saying that the figures of the Newton school were based on a seating capacity of 674 pupils. Most architects, he said, reckon on all the space in obtaining figures, in which case the Newton figure would be \$1273 making a cost of but \$360 instead of \$436 and if the auditorium was omitted would further reduce the cost to \$231. In cubical contents per pupil, Mr. Leeds claimed that Newton had lunch room, bathing, drying, printing and woodworking shops, where Framingham had none or far less space devoted to those matters.

Alderman Heathcote referred to the fact that the board had so far refused to endorse the Junior High school plan and wanted to know if the action was taken on the order just when the board would stand on the matter. Alderman Nichols said the question was one of educational policy and that the school committee, who were directly responsible to the people, had the sole authority in that respect. The aldermen merely furnish the building and could not dictate the educational policy of the city.

The order was then passed unanimously.

Following a long committee conference, a hearing was assigned in Dec. 5 on the proposed parkway from Centre street, Newton, to Washington street, cutting diagonally across the land at corner of Centre and Carleton streets, Pearl, and Peabody streets to Washington street at Channing street.

Alderman Ross introduced an order requesting the Mayor to recommend \$875 for slate blackboards in the Williams School, but after some discussion over this method of procedure, withdrew his order.

Following another recess, the Finance committee reported an order authorizing the treasurer to receive money advanced for sewer house connections and to repay any balance which might remain after the work was done and voted \$750 for preparing bonds.

The board deemed it inexpedient to appropriate \$50 for the community use of school halls. Adjourned at 10.55 P.M.

NORTHGATE CLUB

Members of the Northgate Club and their friends enjoyed a Harvest Dance last Friday night at the Club House.

The dance was an informal one, ladies appearing in gingham dresses and the gentlemen in overalls. Mr. F. W. Yelland made quite a sensation dressed as a woman.

Halloween decorations, yellow and black paper, made an attractive setting, while an occasional turkey hinted at the season.

An elimination dance proved popular as did a waltz "in the light of the moon." Mr. Estes, of Waltham, and Mrs. Stewart Carry of West Newton received prizes in the elimination dance as they were the last couple on the floor. Half-way through the evening, favors were showered upon the dancers from the balcony, great fun and noise resulting therefrom. Part of the favors were given by the Moxie Company.

A Paul Jones and old-fashioned Virginia Reel gave everyone a chance to get acquainted. Everyone seemed to enjoy himself and to try to make others enjoy themselves.

Towards the close of the evening, refreshments were served. The committee in charge of the dance were Mr. and Mrs. J. L. MacDonald, Mr. and Mrs. Roy Percy, and Mr. and Mrs. Edwin Walley.

NEWTON COMMUNITY HOUSE

"The House With a Future"

As time goes on we realize more and more the great need of our work. Last Sunday afternoon at the Scout Building we had an attendance of seventy-five young people and the two hours there each Sunday will do much in helping them to remember the Sabbath Day in the manner ordained by the Creator. Owing to the lack of suitable conditions to do this work the progress is somewhat limited; but we are in hopes to be able by spring to have adequate quarters where we can realize our ideals. Help us to help ourselves.

If in need of some one to do housework or chore-work, call Mr. Hill, 1445 Washington St., West Newton. Advertisement.

LAWRENCE—BOUTELLE

Last week Thursday, Miss Elizabeth May Boulette of Ward street, Newton Centre, became the bride of Mr. Arthur M. Lawrence of Centre street, Newton Centre. The ceremony took place at Trinity Church, Rev. Edward T. Sullivan officiating.

The bride wore brocaded Japanese crepe with Rose point lace tulle veil caught with orange blossoms, and carried a bouquet of bridal roses.

The maid of honor, Miss Louise Chimes of Brookline wore a gown of yellow and bronze chiffon, a gold hat with yellow plumes, and carried yellow chrysanthemums.

The bridesmaids, Miss May Louise Curtis of Newton Centre, and Miss Kathleen Cobb of Wellesley Hills wore orchid chiffon trimmed with silver lace, silver lace hats with orchid trimming, and carried bouquets of orchid chrysanthemums.

The best man was Mr. John Scott of Jamaica Plain, and the ushers were Messrs. Beauford Oakes of Newton Centre, Charles Sanger of Newton Highlands, Theodore Pfeuguer and Summer Chimes of Brookline.

Barbara Cobb of Wellesley Hills was flower girl.

An informal reception for the family and immediate friends followed the ceremony at the church, the bridal couple being assisted by their parents.

After January 1st, Mr. and Mrs. Lawrence will make their home at 1066 Commonwealth avenue, Allston.

WORK OF FILIPINO CHILDREN

900,000 children in the Philippines are going into the forests for nature study. They gather in the creepers and trailing vines, and in school are taught to weave them into beautiful baskets of many different designs, shapes and sizes. These are sent in to the central warehouses in Manila and sold at wholesale. From the proceeds the pupil is paid for his work, and the balance is used to build more schools and equipment.

Mrs. George C. Bartter, who has gathered together a large collection of these baskets over a period of several years, will hold an exhibition and sale of baskets and other interesting and useful Philippine products at 55 Eastbourne road (junction of Eastbourne and Westbourne roads, facing Commonwealth avenue), Newton Centre, on Tuesday and Wednesday, November 29 and 30.

The public is invited to inspect this work, which is an indication of the progress made in the Philippines schools under American guidance during the past twenty years.

CHRISTMAS SEALS

(Continued from Page 1)

preventive measures whereby we aim to conserve the lives of the children of our city, and, although our local work is still of recent undertaking, it has interested favorably committees from other cities as for instance from Brookline and Cambridge, while one of our workers was sent to Cleveland, Ohio, to explain our aims and accomplishments.

We ask you to purchase Christmas Seals to help Newton children by making it possible to continue the work already started and to do as much more as the state of our treasury will permit.

During the past year the Health Clubs have been carried on at the play grounds in addition to which there have been three health classes or nutrition clinics in conjunction with the health work of the school department. At these clinics nearly One Thousand Children were weighed and measured. The data thus obtained was of value in determining the need of hospital treatment for which arrangements were accordingly made. Milk was supplied to a number of families and vacations given to a few children predisposed to disease. The services of a nurse were required during the winter months but four workers were employed during the summer activities.

The doctors have given unsparingly of their time and skill and it is earnestly hoped that the citizens of Newton will give as generously of their means that by preventive measures we may do much to lessen the ravages of tuberculosis which is such a serious menace to our people.

Mr. Frank L. Richardson of the Newton Trust Co. has consented to serve as trustee of the Seal fund and checks may be made payable to him and sent to your local chairman.

SCHOOL NOTES

Edited by Dorothy Drake

Bigelow School

Miss Thurston's Class had the highest average in the second attendance report.

Thanksgiving exercises were held in the Assembly Hall Wednesday morning of this week. Each class contributed one feature of the program. The School Orchestra played and a double quartette from the 8th grades sang.

On Saturday afternoon, Nov. 19, 1921, 60 boys of the Bigelow School took part in a track meet in the gym, and a swimming meet in the pool.

There were three teams: Miss Dyer's class, Mr. Lane's class, and the two combined sevenths.

The results were as follows: Miss Dyer's class, 33; the combined sevenths, 30; and Mr. Lane's class, 18 points.

The score: Relay—Won by Miss Dyer's class; second, Mr. Lane's class; third, combined sevenths.

Quarter Mile—Won by Duly of Miss Lane's class; second, W. Achorn of Mr. Lane's class; third, Foster of the combined sevenths.

2-lap relay—Won by Miss Dyer's class; second, Combined sevenths; third, Mr. Lane's class.

A basket ball game was played between Miss Dyer's and Mr. Lane's classes which was won by Miss Dyer's class, 30 to 14.

Swimming Relay—Won by the combined sevenths; second, Miss Dyer's class; third, Mr. Lane's class.

Diving—Won by Monahan of Miss Dyer's class; second, Tie between Hatch, Pierce, and Foster; third, all of the combined sevenths.

20-yard dash—Won by A. Foster of the combined sevenths; second, Monahan of Miss Dyer's class; third, A. Morrissey of Mr. Lane's class.

40-yard dash—Won by A. Foster of the combined sevenths; second, T. Sutcliffe of Mr. Lane's class; third, Macpherson of Miss Dyer's class.

Plunge—Won by A. Foster of the combined sevenths, 38 feet; second, Macpherson of Miss Dyer's class, 33 feet; third, A. Morrissey of Mr. Lane's class, 32 feet.

Under water swimming—Won by T. Sutcliffe of Mr. Lane's class, 77 feet; second, Macpherson of Miss Dyer's class, 45 feet; third, Hatch of the combined sevenths, 44 feet.

The team scores follow: Miss Dyer's Division, 33; Seventh Grades, 30; Mr. Lane's Division, 18.

Basketball Score: Miss Dyer's Division, 26; Mr. Lane's Division, 14; Seventh Grades, 8; Eighth Second Team, 6.

Lasell

The sophomore class has elected the following officers to serve for the year: President, Helen Martin, Cincinnati, Ohio; Vice-President, Bertha Carter, Fort Worth, Texas; Secretary, Jean Cottrell, Plainfield, N. J.; Treasurer, Marion Norton, N. Y.; Song and cheer leader, Mary O'Hare, Chicago.

The freshman class has chosen as its president, Helen Robson from Charlestown, S. C.; Vice-President, Bertha Krauker, Chihuahua, Mexico; Secretary and Treasurer, Mary Augusta Ikle, Galveston, Texas; Cheer and Song leader, Esther Harvey, Augusta, Maine.

The seniors have already become actively interested in raising money for their scholarship fund. Last Monday an exhibition and sale of sweaters was held both at Woodland and Lasell which proved to be a great success.

School closed Wednesday noon for the Thanksgiving recess and will reopen on next Monday.

EDITORIAL

Last week we asked our readers before casting their ballots for mayor at the coming city election, to give some thought to the problems to be solved by our city government in the next few years. We discussed at that time some of the street improvements which are pressing for immediate attention. This week we ask you to consider what the city has to face in the way of building construction.

During the past ten years, with a very large increase in school attendance, the city has provided but one new school building, the one just finished at Waban. The school committee and others who have carefully studied the subject, strongly urge, not only the proposed junior high school which was authorized last Monday night to be built at Newtonville, but also show the necessity of another junior high school between West Newton and Auburndale, another near Eliot, the conversion of the Bigelow and Mason buildings into junior high schools, and the consequent erection of new grammar school buildings at Newton and Newton Centre. In addition to these school buildings, there is urgent need of a new city stable on the south side of the city, for which the land has already been secured. More office room must be provided at City Hall, and the Chief of the Fire Department shows the necessity of a new fire station between Waban and West Newton.

Can any one doubt the desirability of having this expensive program carefully studied and the utmost care used in the selection of architects and the supervision of the plans for such buildings as it becomes necessary to build them? Do the tax payers of Newton approve of the selection of an architect by drawing a name from among others placed in a hat, as in the case of the Waban school, or do they prefer business methods followed in this, as well as in all other branches of city work. Mr. Leon B. Rogers stands for a business administration of city affairs and his record shows that he is well qualified for the office of mayor of Newton.

West Newton

—Mr. William A. Thurston of Fountain street is seriously ill.

—Mr. M. Frank Lucas and Sumner Lucas are spending the week end with Mrs. Marian Bird (nee Lucas) in New York.

—Mr. and Mrs. Richard S. Warren (nee Mills) are receiving congratulations on the birth of a daughter, Virginia Mills.

—Mr. and Mrs. C. E. Spencer of Temple street entertained friends from Waterbury, Conn., for the Harvard-Yale game.

—Mrs. J. S. Alley and daughter, Miss Elizabeth, who have been passing the fall months at the Brae Burn Club, left on Friday for a visit with her daughter, Mrs. Max W. Sherman at Philadelphia on the way to their winter home at Santa Barbara, Cal.

—The Flying Squadron of the Norumbega Union of Christian Endeavor took charge of the Young People's meeting in the First Baptist Church of Waltham last Sunday. This is the second meeting the Squadron has conducted this year and they hope there will be many more opportunities.

The subject was "Thanksgiving" and many fine testimonies were given by the Endeavorers.

ENDORSE MR. ROGERS FOR MAYOR

November 23, 1921.
Mr. W. H. Rice,
Newton Centre, Mass.

Dear Mr. Rice,

As citizens of Newton we can congratulate ourselves that the depressing shadows of a great city have not clouded our vision and that clean, manly politics are the rule—not the exception.

In the list of candidates for highest honors in our coming election many of us find the names of two personal friends.

We have admired and cannot forget the fine qualities and Christian spirit of the one who has been our chief executive. We have learned during the past year to admire no less the fine spirit, business ability and sterling integrity of another who has been chosen to be a candidate. Which shall we choose?

One motive only should guide our decision—the public good. We have been passing through a period of great business depression—heavy burdens have been carried by all the people.

I believe that the time has come when our great need is the application of business principles of the highest type. I believe that Mr. Rogers can supplement the work of his predecessors as no one else can do at this time and so while I cannot forget the claims of an old friend, I am impelled by the exigencies of the case to support the new—Mr. Rogers.

Very truly yours,
W. C. BRAY.

MR. LITCHFIELD KILLED

Mr. William Elias Litchfield, a resident of Bellevue street, Newton, for the past 14 years, was struck and instantly killed last Saturday afternoon while on the railroad tracks at the Harrison square station of the New Haven road in Dorchester. The track at this station is fenced off so as to exclude pedestrians and Mr. Litchfield's presence on the track is somewhat of a mystery.

Mr. Litchfield was born in Cohasset, August 4, 1861, and was the son of Joseph W. and Mary (Sloane) Litchfield. He was educated at Cohasset and at Derby Academy in Hingham.

He married Cordelia A. Gilbert of Boston in 1882 and he is survived by her, and three daughters, Mrs. Walter L. Nourse of Los Angeles, Cal., Mrs. Harold G. Pearson of New York, Miss Ruth L. Litchfield and one son, Mr. George A. Litchfield of Newton.

Mr. Litchfield was a member of the wholesale lumber firm of Litchfield Bros. of Boston. He was president of the L. & H. Lumber Co., a member of the National Wholesale Lumber Dealers' Association of the Boston Wholesale Lumber Dealers' Association, of the Boston Chamber of Commerce, the Chamber of Commerce of the U. S. A., the Republican Club of Massachusetts, Boston City Club, Monday Evening Club of Newton, the Lotus Club of New York, a trustee of the Mass. Charitable Mechanics Association, a director of the Newton Y. M. C. A., and an active member of Eliot Church.

The funeral services held on Tuesday afternoon at his late home on Bellevue street, were attended by a large number of friends and business associates. Rev. Dr. H. Grant Person, pastor of Eliot church officiated and the interment was at Forest Hills.

FOR WOUNDED SOLDIERS

Mrs. Charles R. Butler of Auburn-dale, assisted by Mrs. George M. Angier of Waban and Mrs. George B. Talbot of Newtonville, will have a table for the benefit of wounded soldiers at the Florence Crittenton League Bazaar at the Copley Plaza Hotel, Boston, on Tuesday and Wednesday, Nov. 29 and 30.

Mr. Wm. H. Rice,
Chairman, Citizen Committee.
My dear Mr. Rice:

It is my judgment that the interests of the City of Newton will be best served by the election of Leon B. Rogers as Mayor at the coming election. There is need of better handling of the city's business, of a police department composed wholly of men with good records, and with absolutely unquestioned authority to maintain high standards left in the hands of the Chief of the department. There is crying need of real co-operation between the Executive Department and the Board of Aldermen, which has never existed under the present administration.

Mr. Rogers has the business training, the requisite knowledge of city affairs coming from his service on the Board of Aldermen, and from his prominent part in the work of the Red Cross, the Newton Hospital and other public activities, and he is able and willing to incur the personal sacrifice, necessary in his case, to give his attention to the work of the office.

Strictly in the interest of better city government, Mr. Rogers should be elected.

Yours very truly,
GUY M. WINSLOW.

FOOTBALL CHAMPIONS

(Continued from Page 1)

Coach Alfred W. Dickinson has done for athletics during the eight years he has been connected with the Newton High School. The record made by the High School teams in baseball, football and hockey has been unexcelled and it seems fitting to honor the man who has done so much to keep these school sports on a clean, manly and efficient basis. Mr. Henry J. Nichols is chairman and Mr. William T. Halliday the secretary-treasurer of a committee which will make an active canvass of the city in the next few weeks and hopes to have a testimonial ready for a proposed banquet in Mr. Dickinson's honor on December 23rd.

The 1921 scholastic record of the Newton High Champions follows:
Newton 7, Quincy 0.
Newton 10, Everett 0.
Newton 41, Somerville 0.
Newton 7, Medford 0.
Newton 16, Rindge 0.
Newton 14, Cambridge 0.
Newton 13, Chelsea 7.
Newton 27, Waltham 0.
Newton 12, Brookline 0.

Yesterday morning's edition of the Boston Post picked five Newton players for positions on the All-Interscholastic eleven. The five men to be so honored were Capt. "Jake" Stafford, "Herb" Garrity, "Shad" Osborne, Leahy, and Dewing.

In next week's issue the Graphic will print its All-Interscholastic selections.

WEEK DAY BAZAAR

A Week Day Bazaar, at which everything used in the household can be purchased, is to be held in Masonic Hall, Newtonville, Nov. 28th, and Nov. 29, under the auspices of Palestine Chapter, Order of the Eastern Star. The features of the bazaar are the booths representing the days of the week: Monday booth, Mrs. Henry L. Goodman, Auburndale, chairman; Tuesday, The Worthy Matron, Mrs. Harry Wilson, Watertown, chairman; Wednesday, Mrs. George Rushforth, Auburndale, chairman; Thursday, Mrs. William H. Timbie, Newton Centre, chairman; Friday, Mrs. Arthur H. Holmberg, Newtonville, chairman; Saturday, Mrs. Albert L. Babbitt, chairman; Sunday, Mrs. Wilfred E. Clark, West Newton, chairman. Other attractive features are the Japanese tea room, in charge of Mrs. Charles Cunningham, Newton; the Indian tent, where fortunes are told, in charge of Mrs. Harry B. Ross of Auburndale.

The bazaar opens with a luncheon in charge of Mrs. Estelle Crawford of Newton. On Nov. 28 at 8 P. M. an entertainment called "The Cycle of Song and Costume" will be given under the direction of Mrs. Charles Alexander of Newtonville. The Worthy Patron, Mr. Alfred E. Allen of Newton, has charge of the dance on Nov. 29. Mrs. John R. McLean of Newton Lower Falls is general chairman of the bazaar.

WARD 2 ALDERMAN

(Continued from Page 1)

he has no official connections; that he employs no labor excepting such as may be performed by employees of others upon patterns and models.

In view of these facts the solicitation of support for Mr. Collins as a "business" candidate is an imposition upon the voters of Ward 2. It is fundamental that a candidate for public office should not make, nor allow to be made in his behalf, any statements which are not based upon facts or which are in any way misleading.

I believe that every thoughtful citizen should vote for Mr. Lyon with the conviction that his broad legal training and experience in the conduct of large business and financial affairs are needed at this time.

WEST NEWTON W. C. T. U.

Nov. 21 the W. C. T. U. meeting was held at the home of the President, Mrs. Millie Beardsley, 108 Crescent street, Auburndale.

There was quite a large gathering present. It proved to be the most inspiring meeting of the season.

A most interesting talk was given by Mrs. Madeline H. Appel, representing the Massachusetts Child Labor Committee.

There was one honorary and four active members taken in. An effort will be made to get five new members every month.

Reports of the State Convention at Worcester in October were very ably given by the several delegates. No one could help but catch the enthusiasm and feeling that was expressed in their reports.

of Mr. Rogers' ability should be elected chief executive of our city on account of his exceptional business qualifications.

Perpetual Mayor Not Popular
Eight years' service as mayor of Newton is too long for any man. The perpetual mayor idea is not popular in Newton. It is contrary to the best traditions of our city. The temptation is ever present to decide important matters along lines of political expediency—with an eye to re-election, rather than to serve the best interests of our tax payers.

Mr. Rogers, if elected, will serve only one term. Altho he favors making the term of office three years rather than two years, as at present, under no circumstances will he stand for re-election.

Newton a \$90,000,000 Corporation
The city of Newton is a \$90,000,000 municipal corporation (these being in round figures the amount of our taxable property). The mayor has control over an annual expenditure of about \$3,000,000 of the taxpayers' money. Not only a man of high character, but one also trained in successful business administration, should be entrusted with such a task. He must, at the same time be one who will fearlessly approach all matters connected with the executive management of city affairs.

Business Executive Needed
Newton needs a long needed, a business executive, a man who will constructively co-operate with the board of aldermen in his ambition to serve "all the people all the time."

Mr. Rogers has served two years on the finance committee of the board of aldermen. He is known throughout the city for the highly commendable record made as chairman of the last two Red Cross campaigns in Newton and his successful leadership of the drive which has just raised \$80,000 for the Newton Hospital. Diplomacy, efficiency, ability to handle men,—in short his qualifications of executive administration,—were made clearly manifest in these great public welfare activities.

As a captain in the Newton Constabulary, he served the state during the Boston police strike, promptly answering the call of Governor Coolidge in his determination to maintain law and order.

Rogers an Everyday Man
Mr. Rogers is intensely human. He is an every day man. He has a keen sense of civic necessities and responsibilities and enjoys public service.

He is at the present time, twenty-two years of age. He is married and has three children in our public schools.

School Problems Pressing
The school problem, perhaps more than any other, is one which Mr. Rogers considers the most pressing in our city today. As an ex officio member of the school committee, he would, if elected, attend the meetings and participate in the deliberations of the school board. The record of having attended but one meeting of the school board in eight years (and this is Mr. Childs' record) is not pleasing to those who have long realized the importance of giving to our school problems, the serious and thoughtful attention they demand.

Mr. Rogers' slogan is more schools and better schools. He will use, if elected, his utmost endeavor in seeing that a wise and comprehensive educational program is encouraged. He regards the failure to build more than one school house in our city in ten years (and that the Waban school just completed) while our school population has increased 30 per cent, as little short of a disgrace.

Women Needed
Mr. Rogers believes that the counsel of women is especially needed in the work of the playground, library, health and charity departments, and so far as the city ordinances permit, he will if elected, add representation of women in these important departments of the city's social activities.

Mayor a Trustee
Mr. Rogers stands for greater efficiency in city management. He sees the needs of economies and a more vigorous handling of some departments. He will promise a square deal to every city employee but will insist in having one hundred cents of service for every dollar in the pay envelope. He believes that, as the Mayor is the trustee for the tax payers, they have the right to demand a rigid accounting of every dollar expended.

The citizens of Newton are fortunate in having an opportunity to vote for a man who is not a politician, has no political aspirations, a man literally "drafted" into service by public spirited citizens, a man whose service as Mayor would mean a genuine sacrifice of his business, and yet who is willing to respond, as he has always responded in the past with the best that is in him for the public good.

Ralph Waldo Emerson School

A Thanksgiving entertainment was given in the Hall on Wednesday forenoon at 10.30 o'clock. The entire school was assembled, filling the Hall to the limit of its capacity. The decorations consisted of plants, sprays of autumn foliage, and green vines gathered from the woods. These were placed along the front of the platform together with a few small flags and a small collection of fruits. Over all was suspended a banner with gilt lettering, "Give Thanks to God." The program was varied in character, consisting of songs, readings and plays.

The Kindergarten children sang "Praise Him"; Eleanor Vera recited "Our Thanksgiving"; "The Turkey Gobbler" was sung by Grade One; William Bloh, Paul Hartwig and James Motherway recited "Giving Thanks"; John Burns recited "The First Thanksgiving"; Alice Tompkins and Mildred Stuart gave "How to Show We are Thankful"; Girls from the sixth grades sang a "Harvest Song"; "I am Thankful" was recited by Grade 1; "The Pilgrim Band," in costume was given by Grade Seven; Story of the Pilgrims was recited by Grade Three; "Mr. Duck and Mr. Turkey" was sung and acted by Grade Two, led by George Boston and Wm. Mordo; "Ten Little Peppers for Thanksgiving" in costume, was given by Grade Three; "The Pilgrim Fathers" was recited by Margaret Foster, Olive De Grasse, Clara Bingel and Elizabeth Wildman. A play, "Thanksgiving," introducing Father Time and the Early Pilgrims, was produced by Grade Four; "Thanksgiving" was recited by Grades Four and Five. The school orchestra played "Long Ago."

Rev. Charles R. Ross of Newtonville was present at the Thanksgiving exercises and made a short address to the pupils. His remarks were impressive and he held the attention of his young auditors while he spoke on the subject "What we should be thankful for." At the beginning he spoke in praise of the general program, its excellence, and the excellence of the parts performed by the pupils. He spoke in particular praise and appreciation of the clear enunciation and speech results of the pupils participating in the program.

The school orchestra made its first appearance on Wednesday in the Hall. The orchestra is composed of these members: 1st violins, John McInnes, Wendell Boston, Francis Simpson; 2nd violins, John Cady and Sigmund Romaskiewicz; piano, Olive De Grasse.

Our total contributions to the Junior Red Cross were \$23.24.

WOMEN'S CLUBS

GRACE M. BURT, Editor.

"The Federation does not stand for sex antagonism in government," said Mrs. Thomas G. Winter, president of the General Federation, speaking at Salt Lake City. "It has always thought of life as a joint job, for men and women. It does not believe even, that the fight for suffrage was a sex fight, but the struggle of forward-looking men and women against backward-looking men and women. And now the legislation that we work for is not, for the sake of sex, but for the sake of the race. It believes that suffrage was won, not by one club of workers, but by that great procession of women who made good in all fields of activity,—in education, in law, in medicine, in literature, and art and philanthropy, and the thought of our citizenship is still making good in all these forms of life."

State Federation

Tuesday, November 29, Autumn meeting at Worcester. Morning session opens at 10.15, and the afternoon at 2 o'clock. "Reconstruction of the Social Order" will be the subject of the afternoon address by John Spargo. In the morning there will be reports from various meetings of out-of-state organizations. Mrs. Charles McDuffie, president of the New Hampshire Federation, will be one of the guests of honor. The accessibility of Worcester from all parts of the state will insure a very large attendance. Every provision is being made for the comfort of the visiting delegates in the way of luncheon facilities, parking space for autos, etc. Train leaves Boston at 8.30 A. M.

Professional Women's Club

The attention of the Newton members is called to the meeting of the Literature committee of that club, which will be held at the home of Mrs. Arthur Berenson, 875 Beacon street, on Tuesday, November 29. Original contributions, including a one-act play called "Buying Culture," by Mrs. Antoinette Wood, will be given, followed by music, by Miss Mabelle Trask, contralto, and Miss Alicia Starratt, violin. Tea will be served.
Tickets for the dance to be given at the Copley-Plaza foyer on Wednesday, November 30, for the benefit of the Club House Fund may be secured from May Fiske Hoffman, chairman, or

An Interstate Conference

Next Tuesday, November 29, the Interstate Conference for the Investigation of Vivisection will meet in Boston at the Hotel Victoria. After the business session of the morning there will be a luncheon at one o'clock given by the New England Anti-Vivisection Society in honor of the officers and visiting delegates, who represent various antivivisection and humane societies in many parts of the country. Rev. Dr. C. Ernest Smith, Rector of St. Thomas Church, Washington, D. C., the president, succeeded the late Edward H. Clemens, of Boston, who had presided over the sessions of the Conference from its organization until his death. Other speakers of wide reputation will also be present at the luncheon.
This Society has many members in Newton.

Local Announcements

At the meeting of the Monday Club of Newton Highlands on November 28, at the home of Mrs. Peckham, 4 Rockledge road, Mrs. S. L. Eaton will read from the poems of Joyce Kilmer.

On Monday afternoon the Newton Highlands, C. L. S. C. meets with Miss Mary E. Hyde, Miss Webster and Mrs. Hardy will be in charge of the study of "The Paradiso."

Mr. Vernon B. Sweet will speak upon "Insurance" at the Home Economics Round Table Conference of the Newton Community Club on November 28. Mr. Frank L. Richardson, of the Newton Trust Company, will be the speaker for the final meeting of the series on December 12.

The Group Activities Committee of the club announces the opening of a gymnasium class on Tuesday, November 29, at 10 A. M. at the Y. M. C. A., and will continue on subsequent Tuesday and Friday mornings. Address all communications relative to joining the class to Mrs. John L. Sullivan, 9 Church road, Newton.

This department with Mrs. Stafford Johnson as leader made a trip to the Aetna Mills and Martin Curtain factory on November 15. The 15 members who went were much interested in seeing the processes of weaving and dyeing woolen cloth and the making of lace curtains. The December trip will be to the Children's Hospital in Brookline with Mrs. C. E. Griffith, Jr., as conductor.

Mrs. Ernest F. Drew of 324 Central street, will be hostess for the meeting of the Abundant Review Club next Tuesday morning.

Wednesday morning, Mrs. Curtis Nye Smith will give a paper before the Newton Social Science Club on "The House of Romanoff." Mrs. Carrie A. Hull, of the Welfare Bureau, will speak briefly of the Health Classes. The annual club tea will be held the same afternoon at the home of Mrs. Freeman O. Stanley, 337 Waverley avenue.

Mrs. Grace M. Poole will give the second talk upon current events before the Newton Community Club on Thursday, December 1st, at 2.30 P. M.

The Newton Highlands Shakespeare Club will review the play, "Measure for Measure" at its meeting on December 3rd at the home of Mrs. Gilbert. Miss Mary A. Newhall will be in charge of the quiz.

Members of the Woman's Club of Newton Highlands, under the direction of Mrs. Lawson W. Oakes, are to present "The Amazons," by Pinero, Tuesday afternoon, December 6, to club members, and to the public Wednesday evening, December 7. The club play is one of the most interesting features of the year's program. At the suggestion of the chairman of dramatics, Mrs. Oakes, the proceeds of last year's play went to establish a building fund, which will eventually give to Newton Highlands a hall, in which a well-equipped stage will be a prominent feature. All proceeds from the evening performance will be added to this fund.

The Newtonville Woman's Club is giving for a Christmas Party to be given on December 20, when fifty children, many of them cripples or invalids, who would otherwise have little of Christmas joy, will be entertained. In order to insure its success the committee in charge is anxious for contributions of money, toys, or garments from the members; also for the use of automobiles to get the children and take them home. Those who are willing to assist in this way will kindly communicate with Miss Marion Bassett.

Local Happenings

Monday afternoon the members of the Waban Woman's Club had the pleasure of hearing Mr. Eugene M. Lock, composer and teacher, speak on "Music." He compared the life and work of Mozart and Schubert, and gave many interesting illustrations. Mrs. Herbert Stearns accompanied by Mr. Mordock sang a group of songs of his own composition. Afternoon tea followed the program and the members had an opportunity to spend a social hour together.

The Home Economics Class of the West Newton Woman's Educational Club met for luncheon on Thursday, November 17th, at the home of the leader, Mrs. William D. Keefe, Prospect street, Newton Lower Falls. The subject for the day's study was "Food." Mrs. O'Neill gave many facts regarding diet, and spoke of the effect of improper food in producing disease. Mrs. Haug read a paper on "Practical Marketing." Mrs. Patterson gave "Emergency Luncheon Menus," and Mrs. Jennings' paper on "The Model Kitchen," was practical and helpful.

Mr. Eugene B. Edwards of the Rounds Chocolate Co. gave an interesting and instructive talk on "The Nutritive Value of Chocolate."

"Capri" was the subject of an excellent paper given by Mrs. Samuel Darling at the last meeting of the Travel Class at the home of Mrs. Henry K. Burrison, 26 Lincoln Park, West Newton. Many interesting facts regarding its early history were given, how it was acquired for state reasons by the Emperor Augustus, and held as a strategic point for centuries. She spoke of Capri as the "Birthplace of Mythology." Its beauty is unsurpassed, and it ranks as one of the wonder spots of the earth. The famous Blue Grotto was described in detail. Mrs. Justin Starkie gave an interesting account of Sardinia, which is less well known to tourists, but compares favorably for scenery with some of the famous places of the world. Mrs. Burrison was assisted in entertaining by Mrs. Ellen F. Reed.

At the meeting of the executive board of the Newton Federation on Monday morning, Mrs. E. H. Tucker, reporting for her department of Conservation, commended the form of the resolution published in last week's Graphic as a model for other clubs to follow, and urged that each club send a copy to each of the delegations at Washington, asking not only for the greatest degree of disarmament consistent with the preservation of law and order, but for some lasting agreement among the nations whereby the peace of the world may be preserved. Mrs. Tucker stated that her department will hold regular meetings at the Red Cross House, Newtonville, on the last Monday of every month to study the problems of conservation, taking up the subject of "Wood" in its relation to different phases of life.

The chairman of the Civic and Social Service committee, Miss Edith Jamieson, reported that her committee is working to secure quarters for the Dental Clinic in the new Junior high school building. She mentioned the need felt by Miss Roy, the American-

DEATH OF EDWARD H. CUTLER

Edward Hutchins Cutler, successi-
vely principal of the Bridgewater Acad-
emy, the high school at Providence,
R. I., the Newton High School and of
Mr. Cutler's Preparatory School at
Newton, which he established in 1887,
died last Friday morning at his home
on Linder Terrace in Newton.

Mr. Cutler was born at Killingley,
which later was Danielsonville and is
now Danielson, Conn., on Sept. 29,
1836, the son of Simon Bolivar Cutler
and Frances Gramont (Cory) Cutler.
He prepared at the Providence High
School for admission to college and
entered Brown University in 1853. He
took the first prize in Greek, on his
entrance examinations and while in
college he took three firsts in mathe-
matics, a first and a second in Latin
and a first and a second in Greek. He
was graduated at the head of his class
and was its valedictorian and its
president. He graduated with the de-
gree of Master of Arts and received
also a certificate as Civil Engineer. In
1858 he was assistant librarian at
Brown, and in 1860 became an in-
structor in mathematics.

In 1861 Mr. Cutler settled in Bridge-
water as principal of the Bridgewater
Academy and there, on Aug. 15, 1866,
he was married to Alice Wadsworth
Alden, daughter of Dr. Samuel and
Mary Hyde Alden, and a lineal de-
scendant of John Alden. In 1865 Mr.
Cutler became an instructor at the
Providence, R. I., high school, and later
he became its principal. He be-
came in 1880 principal of the Newton
High School and in 1887 he established
his preparatory school, which he con-
ducted until about ten or twelve years
ago. Since 1881 he has made his home
in Newton.

Mr. and Mrs. Cutler celebrated their
golden wedding in 1916, at which time
six of their seven children were liv-
ing. In 1918 he lost his son, Henry
Cutler, and in 1920 his wife, Mrs. Cut-
ler was a member of the Zeta Psi
fraternity, of the Phi Beta Kappa, and
was a charter member of the New
England Association of Colleges and
Preparatory Schools. He was also
clerk and senior warden of Grace
Church, Newton, and secretary and
president of the Tuesday Club.

Five of his children survive him:
John Cutler, Miss Mary Cutler, Miss
Edith Cutler and Mrs. Welles E.
Holmes (Emily Cutler) all of Newton,
and Alden Cutler of Rockville, Conn.
Funeral services were held at Grace
Church on Monday morning and were
conducted by Rev. Laurens MacLure,
S. T. D., the rector of the parish. As-
sisting him was the vested choir which
was heard in three hymns—"Onward,
Christian Soldiers," "Ten Thousand
Times Ten Thousand" and "For All the
Saints."

The pallbearers were members of
the vestry. Mr. Cutler having been
senior warden and clerk of the parish.
They were Messrs. Charles E. Riley,
Sydney Harwood, William E. Jones, J.
Harris Aubin, John H. Sellman and
Welles E. Holmes. Those serving as
ushers were Messrs. T. E. Jewell,
Frank Perkins and Henry Whitmore.
The body was taken to Mount Auburn
Cemetery.

WOMEN'S CLUBS

zation worker, for a small fund from
which she can draw to provide social
features for her groups. The board
appropriated \$10 toward the fund.

Mrs. B. W. Godsoe, chairman of Edu-
cation, announced the opening of the
Christmas Seals Campaign on Novem-
ber 25. She brought up the inadequate
lighting conditions in the high and
elementary schools, and presented
three petitions for signatures of the
presidents of the various clubs to be
sent to the mayor, to the aldermen and
to the school committee. She urged
the delegates to call up their respec-
tive aldermen and bring this matter to
their attention.

From the Home Economics com-
mittee came the message that it is look-
ing into the question of milk for the
State and institutional children, with
a view to seeing that these have it in
the schools, if they are not otherwise
supplied.

Mrs. Abbott Rice, chairman of the
Legislative Committee, reported a con-
ference called to consider the Unifica-
tion of the Prison System of Massa-
chusetts, she mentioned the passage
of the Shepard-Towner bill by Con-
gress, and called attention to a course
of lectures being given at the Boston
Public Library on Saturday mornings
under the auspices of the Civil Service
department of the State Federation, at
which representatives of the different
State Departments will speak.

Members of the Abundant Woman's
Club were intensely interested in
the lecture given by Dr. William
Harman van Allen at the meeting on
Tuesday afternoon. Under the topic
"News from the Old Country," Dr. van
Allen told of conditions in England as
he found them last summer. England
has the greatest need of our friendship,
and we must do all in our power to up-
hold her. There is a great amount of
propaganda being spread abroad, in-
stead of stir us up against her, which
must be suppressed. The people are
laboring under tremendous burdens
from the government taxes, for instead
of spreading the payment of its war
debts over a period of years, it is try-
ing to pay up quickly, with the result
that the desire of the people to rise
above their difficulties is well-nigh
crushed out of them. He told of the
efforts being made to deal with the
unemployment situation, of the
changed social conditions through the
sale and dividing up of many of the
large estates, which their owners can
no longer afford to keep, and of many
other points which stirred the hearts
of his audience to a fuller conception
of what that country has and is suffer-
ing from the war.

A novel feature of the afternoon was
the exchange in music which has been
effected between this club and the
Newtonville Woman's Club, Mrs. W. F.
Ferrin of the latter club singing a
group of songs with Mrs. L. D. Mac-
Nutt at the piano. Later in the season
this club will reciprocate.

Carmichael, rector of the Church of the Good Shepherd. The bride was attended by her sister, Miss Grace D. Buzzell, and Mr. Edward Porter was his brother's best man. On their return from their wedding trip Mr. and Mrs. Porter will live in Clinton.

—The Fall Institute at Eliot Church began on Friday evening last. Although the weather was unfavorable a goodly number were present. A cafeteria supper was served at 6.30 together with a social hour. This was followed at 7.30 by a devotional period, which in turn was followed by an election of officers. Group Meetings began at eight o'clock. Group I was led by Dr. A. E. Holt, "The Bible Doctrine of Society." "The Family Organization of Society." Group II "The Gospel of Good Health—Prevention of Heart Disease" was led by Dr. William Duncan Reid, who spoke of the wide prevalence of disease of the heart even among young children, and told the way of "Heart Clinics," especially in New York City, and to a less extent in Boston. In this connection the Metropolitan Life Insurance Co. of New York report that during the year 1920 they paid liability of more than five million dollars, where "heart disease" was given as the cause of death. This was only one among many insurance companies that covered one year only. In Group III Mr. Mayer, the director of religious education, began an "Elementary Teachers' Training Course" for present and prospective teachers.

"OUR HOME TOWN"

NOT so long ago the United States brought back from England the remains of a man and erected a monument to his memory. All that man ever did to deserve such honor was to write a few simple lines, "Home Sweet Home."

Home is where the heart is, and the home town is where the heart is. The home town is what we, who live in it, make it. When you trade with us and we trade with you, all of us are building the finest home place on earth. But when we send away for the things we can buy at home, we are helping other people to build their towns. If all of us sent away for all the things we need, who would support our schools, build our roads, improve our streets? But why ask such a question? There would be no town, and no need for streets, roads or schools.

Suppose you look around the old home town and see if you can get what you want at the price you want it.

Lincoln said: "The money we spend abroad is gone, but the money we spend at home comes back to us." Think it over.
